**17th September 2020, 16:55 BST, London, United Kingdom**

Executed Therein On The New Moon 19th Of May 2023, 16:53 BST, London, UK.

### Herein Stated

This ***'True Constitution'*** for the New ***''I AM' One World Nation'***, and the *'Declaration For the Freedom of Humanity' and all 7 Posit Indentures*, shall become, in part or in Full, as a Living Organism Evolving in its Own Sovereign Right, as a ***'Natural and Cosmic Universal Law Trust Instrument'*** by which the New Erthe (Earth) shall be Created, Established, Settled, and Advanced; where Humanity, the Elements, Elementals, Devas, Angelic Host, the Nature Spirits, Animals, Plants and Minerals etc, and the Earth Herself, shall Ascend as a mass New Human Race Known here upon Earth, as the Adam and Lilith Kadmon Human Race and Planetary System held within a New Higher Vibrational Frequency of God Universal Consciousness, Christ Consciousness and the Planetary and Solar Logoi, In Who We Live, Breathe and Have Our Being!

### THE ELEMENTAL GRACE ALLIANCE

The Elemental Grace Alliance (EGA) is a Living Organism; not a foundation, organisation, or business, but a living co-creative relationship between a growing company of Human Souls, Masters, the Elemental and Devic Kingdoms, and the Angelic Host all in a Divine Relationship with each other as Single Living Organism. This Alliance was not conceived by human minds. Its formation was inaugurated within the Chambers of Shamballa in the 1930's by the Masters and the God Intelligences who hold this planet in their care; held in readiness until the moment in human consciousness, when it could be received and anchored upon Earth.

Its purpose is singular and all-encompassing: to assist the whole Human Race to Ascend together, as One Consciousness Forcefield.

Not sequentially, not selectively; together, as a Unified Expression of the One Life. This has never before been known throughout all of God's Creations.

To make this possible, the human members of the Alliance have received Grants and Dispensations from the Karmic Board of Directors, Extra-Ordinary Releases of Instruction, Training and Guidance from the Masters of the Hierarchy. These Grants are the Living Relationship Fields of Orientation of all the EGA's discourses gathered in this Collection. They were not composed. They arose through the accumulated field of co-creative encounters between the Masters, the Elementals, the Devas, and their human Brothers, Sisters and Companions; all made transmissible to human minds at the precise moment of evolutionary readiness.

St. Germain, Chohan of the Seventh Ray, has held a Seat upon this Council from its earliest days, joined by All Seven Spheres of Influence from many worlds and dimensions. The Elementals, Devas and Angelic Host are equally present throughout, for without them no physical life exists upon this Earth.

The Alliance includes all who have found their way to it. There is no hierarchy of membership; only service, offered freely, in the spirit of the 'I AM' Presence that dwells within every human soul. You have been Heavenly Guided to these Memras, what you do with them now, shall be your own free will choice.

**You are Deeply Loved and Never Alone!**

## WELCOMING INVOCATION

Beloved Mighty, Silent Watcher and all 12 Elohim, even as You have before You the Cosmic Eye of God, Send Forth Your Rays, Anchoring them in the hearts of God's Children. Teach them Obedience to the Great Cosmic Laws. Let each One here feel Your Omnipresent, Watchful Care, Your Sustaining Love, Wisdom and Power by Stepping into the future, unravelling the Sacred Scroll Messages and Observing the success of hidden efforts - We Give Thanks! We Give Praise! We Give Obedience and Accept Our Mighty Sceptre for All.

Standing on the Shoulders of Those Who have gone before us, and Who made Claim into unfolding future events. We Give Thanks! We Give Allegiance! We Give Obedience and accept The Responsibility for All. Walking in the wake of all that has transpired upon this Realm of Existence and peering into an array of what is Being Proclaimed - We Give Thanks, We Give Loyalty! We Give Sacrifice and Accept The Victory for All. Sitting within those shadows of unfathomable realisations and surrendering to unseen Energies of The 'I AM' Presence, Surrounding every thought - We Give Thanks! We Give Reverence! We Give Obedience and Accept the Opulence and Abundance for All.

**AND SO, IT IS!**

## PUBLISHER'S NOTE

This publication is offered as part of an ongoing body of contemplative work exploring humanity's relationship with consciousness, responsibility, cooperation, and the evolving experience of life.

The writings presented throughout this volume arise from a field of reflection, study, and lived experience. Their purpose is not to promote belief, establish doctrine, or replace existing traditions, disciplines, or perspectives. Rather, they are offered as contributions to a wider conversation concerning the nature of human development, shared responsibility, and the possibilities that emerge when wisdom, compassion, and thoughtful inquiry are brought together.

References to the Living Organism describe an understanding of life founded upon interconnection, participation, and mutual relationship. Within this view, individual and collective experience are not separate processes but complementary expressions of a larger unfolding reality. Readers are encouraged to approach these pages through their own discernment, experience, and reflection. Nothing contained within this work requires agreement, affiliation, or adherence. The ideas presented are intended to be considered freely, explored thoughtfully, and evaluated according to individual understanding.

These volumes are offered in the spirit of open inquiry and responsible Stewardship, with the hope that they may contribute to deeper reflection, meaningful dialogue, and a greater appreciation for the shared human journey now unfolding before humanity. For further information regarding the educational, contemplative, and humanitarian initiatives associated with this body of work, please visit:

No part of this work may be reproduced, modified, or distributed in physical form for commercial gain or institutional profit without written permission from the Publisher.

Truth itself is not owned. However, the integrity and presentation of this literary work are held in custodial care to preserve its original context and intent.

A complimentary digital copy is available, see website URLs above.

The Elemental Grace Alliance, the Cosmic Christ Academy, and the 'I AM' One World Nation, the Narayana Joy Publishing and the Narayana Joy Akasha Sanctuaries initiatives are sustained through Stewardship and voluntary support. In addition to ongoing educational work, community-based projects and contemplative sanctuary spaces are being explored in various locations.

To preserve independence and simplicity of structure, these activities do not rely on institutional funding. If you feel inclined to assist in the continued availability and development of these resources, a Love Gift is received with gratitude. Please go to one of our websites to make that Love Gift. Bless You!

Such contributions help maintain open access for those who wish to engage in study, practical service, and responsible participation within this evolving field of work.

## THE ELEMENTAL GRACE ALLIANCE DECLARATION OF DEPOSIT

*The Teachings Held in Trust for Humanity*

*The teachings of the Elemental Grace Alliance are held in deposit, not in possession. This includes its Discourses, Memras, Indentures, Trust Instruments, Codices, Posits and Formulae of Approach. Like seeds kept in a vault against a future no one can foresee, they are preserved whole, protected from loss and kept ready.*

*They are not owned by the Alliance, by any person or by any institution. They belong to Life, and to every human being who will one day need them.*

*Nothing in them is imposed. They wait. The decision to open them rests with those who are ready, at the time they choose and for the purpose they discern.*

*When they are carried out of the vault and into human hands, they are meant to be planted: in a family, a community, a company, a parliament, a nation. What grows from them belongs to those who tend it. As each harvest is gathered, new seed is returned, so that the deposit is renewed for those still to come.*

*No one is Free until each is Free, and all are Freeing each other.*

## WHAT IS A MEMRA?

### *MEMRA — (ARAMAIC: מֵימְרָא — PRONOUNCED MEM-RAH)*

In the Aramaic Targums, the ancient scriptural translations through which the words of the Hebrew prophets were made living and accessible to their people, the Memra was the term employed to express the active, creative self-utterance of the Divine entering the world. Where the Hebrew scriptures record direct divine speech or action, the Targumists wrote Memra of the Lord in their parchments and other manuscripts.

**DEFINITION:**

***The Divine Will made communicable, the Infinite Knowledge rendered transmissible to finite minds.***

The Memra is the Aramaic antecedent of the Greek Logos, ***"In the beginning was the Word"***, and the living tradition from which that statement drew its full ontological and cosmological weight. Yet the Memra is not merely language. It is Light, tone, colour and music, the many facets of Purity and Devotional expression through which the Divine makes itself known across all planes of creation. It is the creative power behind all expression: the Divine utterance that precipitates spiritual reality into manifest form.

## THE TRACE OF EXPERIENCE

Nothing arising within lived reality disappears without consequence. Every perception, choice, encounter, and insight leaves a subtle imprint within the relational field; not as memory in the psychological sense, nor as record in the administrative sense, but as a tonal residue: a quiet continuity of influence that shapes all future articulation. The field learns not through command or enforcement but through resonance, integrating what has been lived into what becomes possible next. The organism remembers itself without clinging to memory. This is the *"Trace of Experience"*.

It is through this living accumulation; the co-creative encounter between the Masters of the Spiritual Hierarchy, the Elementals, the Devas, and their human Brothers, Sisters and Companions on Earth; that the discourses gathered in these volumes were received. They were not composed. They arose through the *"Traces of Experience"*: the resonant field remembering and articulating what has always been true, now made transmissible to human minds at the precise moment of evolutionary readiness.

## EPISTEMIC RELATIONSHIP TO THIS COLLECTION

To name each volume a Memra is therefore not metaphor, but precision. These books are exactly what the word has always described: the Divine self-expression taking transmissible form for the illumination and loving service of humanity in its next great step of conscious evolution.

The complete collection of Memras constitutes the transcripts of the Elemental Grace Alliance's Grants and Dispensations; part of the Greater Evolutionary Divine Plan to assist the whole Human Race to Ascend together, as One single Human Race.

## OTHER BOOKS IN THE ELEMENTAL GRACE ALLIANCE COLLECTION

*The Complete Memra Sequence, 22 Volumes*

### THE SACRED TRIADIC MEMRAS

**Memra 1** — The God Awakening

**Memra 2** — The Christ Antahkarana

**Memra 3** — The Cosmic Christ Councils

### THE GOD AWAKENING

## Posits of the True Constitution and its Proclamation Resolution Trust Instruments' and its Addendums for Interpretation

**1.1.** Reference to a Posit, Assumption, Paragraph, or Cosmic Law, or Posit, Assumption, Paragraph, or Cosmic Law *'to another'* Posit, Assumption, Paragraph, or Law or to this Triune Grace Commission — 'I AM' One World Nation Trust Instrument, True Constitution and its Proclamation Resolution Trust Instruments' Posits, unless the context is stated otherwise remains fixed hitherto the Cosmic Christ Mandate.

**1.2.** A reference to one gender includes a reference to the other gender.

**1.3.** A reference to first, second or third person contexts includes the Impersonal Qualities and Virtues, and the Impersonal Qualities and Virtues includes the first, second and third person contexts.

**1.4.** Words in the singular include the plural, and in the plural include the singular.

**1.5.** Capitalized words include lower-case words and lower-case words include Capitalized words.

**1.6.** Words not italicized include words italicized and words italicized include words not italicized.

**1.7.** A reference to an individual person includes a group of individual people, and a reference to a group of people includes an individual person.

**1.8.** A reference to a Cosmic Law is a reference to It, as the ONLY Governing All-Pervading Authority for Administrating All God Life, while Uniting Universal Consciousness Forcefields *(Consciousness Patterning)* for all God or Creator Source Creations anywhere upon this Earth, Solar System, Galaxy, Universe or Cosmos and within any Dimension or Alternative World hitherto connected in Accordance with the Cosmic Law of the One or Law of the Circle.

**1.9.** Cosmic Law, God Universal Law, under which this True Constitution and Posits have been Decreed, Proclaimed by God Universal Consciousness and Grounded upon the Earth through unascended Souls making this True Constitution and its Posits upon this Earth, as a Focal Point of the Cosmos, whereby no manmade statutory or common laws or the like, worldwide, that exist, past, present or

future, which violate, annul, deny, or invalidate the Cosmic Laws of Freedom, and the God-Given Human Rights for All of Humanity to become Self-Governing, have no power, and will become null and void by the People of this World through the Hands of God, also understood to be the Hands of Divine Will or Agape Love! No man, woman or child upon this Earth shall be denied Their God-Given Rights to be Free to Govern themselves or their own Group Domain in Accordance With Cosmic Law.

**1.10.** The duration of this Cosmic Christ Mandate, True Constitution and Declaration For the Freedom Of Humanity was *Proclaimed on the 17th of September 2020 in London United Kingdom*, and shall remain now en force ETERNALLY or until every man, woman and child of Earth, the Children of God, Sons and Daughters of the Infinite Mind have completed this Human Evolutionary Plan, Designed and Executed By God Universal Heart and Mind. In other words, *'linear time'* as it is known today, taking into account for the duration of this *'True Constitution or its Proclamation Resolution Trust Instruments' and Posits*, no further amendment, termination, extension, or re-enactment can or will override or misdirect its Function or Purpose and whereby this includes no subordinate manmade legislation for any linear timeframe directed or redirected, being enforced or yet to come in force, will be automatically superseded in Accordance to Divine Justice and Agape Love, by the ***'True Constitution its Addendums*** and its Posits.

**1.11.** Unless the context otherwise requires, the words including and include, and words of similar effect shall not be deemed to limit the general effect of the words which precede them.

**1.12.** The Headings in these ***'True Constitution Indentures*** are for ease of reference only and shall not affect its sequence of ordered construction or interpretation.

**1.13.** The words *'Triune Grace Commission'*, the *'True Constitution'*, *'True Constitution and its Proclamation Resolution Trust Instruments*, 'the *''I AM' One World Nation'*, the *'Declaration for the Freedom of Humanity'*, the *'Cosmic Christ Mandate'*, *''I AM' One World Nation Trust Instrument'*, *'Covenant of Reception'*, *'Freedom's Gate'*, *'Kingdom of God'*, *'Kingdom of Heaven'*, the *'Elemental Grace Alliance, the 'Order Of Melchizedek Most High or the Offices of the Christ' or the 'Christ Letters'*, shall mean the other one and the same as the other names here in the ***'True Constitution***'. All are equal in Power, Love and Wisdom for the Freedom, Liberty, Life and

the Pursuit of Happiness for '**We The People' of this World upon Planet Earth**.

**1.14.** A reference to *'We The People'* or *'The People'* shall mean citizens, residents or visitors within one's own or another's nation, territory or Group Domain, or where The 'I AM' One World Nation has been Sanctioned and Declared by *'The People'* as an 'I AM' One World Nation, Nation or a Kingdom of God, or Living Organism in Accordance with Cosmic Law and this *'True Constitution Indenture and its Proclamation Resolution Trust Instruments*, 'the *''I AM' One World Nation'*, the *'Declaration for the Freedom of Humanity'*, the *'Cosmic Christ Mandate'*, *''I AM' One World Nation Trust Instrument'*, *Covenant of Reception*, *'Freedom's Gate'*, *'Kingdom of God'*, *'Kingdom of Heaven'*, *the 'Elemental Grace Alliance*, *the 'Order Of Melchizedek Most High or the Offices of the Christ' or the 'Christ Letters'*.

**1.15.** A reference to *'Group Domain'* that is Declared or Decreed by *'The People'* of that *'Group Domain'* as a Place or Principality, whereby the citizens or residents live and occupy and Administer to, therein, with a *'State of Consciousness' 'Kingdom of God Upon Earth'*, set out in Posit VII or the *'True Constitution'*, and wholly within the *'Universal or Cosmic Laws'* subject to the *'True Constitution'*, its *Proclamation Resolution Trust Instruments* and the *'Declaration for the Freedom of Humanity'*.

**1.16.** A reference to the People's Flag, means a Flag, Crest, Symbol, Heraldry, Banner or Emblem by whatever form it takes, by which is Identified, as one or more person or persons, of the New Group Domains of 'I AM' One World Nation Citizens, who have aligned their *'God Energies'* to the '*True Constitution and Declaration For the Freedom Of Humanity'*, while simultaneously or independently, Pledging their Allegiances to their own Nationality or chosen Nation, where they choose to reside. It neither invalidates, cancels, annuls, overturns, terminates, rescinds, nullifies, overthrows, undermines, refutes, abrogates, countermands, discredits, negates, diminishes or ends, *'We The People of the Earth'* and their Rights to their chosen country they choose to live, under the *'People's Flag'* and the Rights to God's Freedom. The Intercourse of Communications or Travel for personal, business, trade, family or any other GOD Universal Reason for the Advancement of the *'Kingdom of Heaven'* upon Earth, or within this Solar System, Galaxy, Universe or Cosmos, to be Made Manifest or Precipitated

upon therein, that conforms to Cosmic Law, or any Communications or Navigation, to and or from any Person, Principality, Port, Place or Group Domain, in existence or yet to exist, whether on land, sea, air, or in any physical space or outer Solar System and the Kingdom of God and Group Domain.

Provided that the means by which Communications and Travel Intercourse is Understood to be automatically bound to Divine Justice under the *'Law of Authority'* that such Pledges as made with Full Liability is accepted, for any unsafe conditions of whatsoever nature and are Harmless in their effects upon another person or persons or the environment of Communications and Travel, in general. Incorrect application to God Life shall become an automatic consequence and brought back into Balance through Divine Justice without further notice.

Therefore, Direct or Indirect Communications or Travel between Group Domains thus becomes freely viable in any World Nation or Kingdom and that such communication or travel, being allowed Under Human Rights and Civil Liberties, and by such Communications and Travel of all other Rights, Privileges, and Advantages, of this ***'True Constitution'***, which does or may belong to the Subjects of the same or other Kingdoms of God or Nations, except where it is otherwise expressly agreed in these *'True Constitution'* its Indentures or Posits or Under Cosmic Law. Honour and Respect of Human Rights under the Cosmic *'Law of Freedom'* Will Be the Guiding Principle to follow in times of disputes or debates.

# Posits Of The True Constitution Indenture '1st Proclamation Resolution Trust Instrument' word definitions

**1.1.** **Posit —** In accordance with man-made or human statutory and common law, the word *'Article'* has become a standard and accepted word for the definition of function, purpose and detail, within how the parties shall act in accordance with such statutory and common law, whether they be in the form of any indenture, be it a human legal or incorporated contract, agreement, or document, or any other form that relates to a business, organisation, foundation, institution, charity or philanthropic group or their like, for defining their activities for supply or that relates to an exchange of goods or services and the means of those exchanges between two or more parties. However, as the *'True Constitution'* is a Creation Built Upon the *'Bedrock' or 'Anchor'* of Cosmic Law, by an Ashramic Living Group Organism within Divine Economy, ***'it is not written'*** in any sort of formula or structure that claims or implies any human legal or incorporated contract, agreement or document, or any other form that relates to a business, organisation, foundation, institution, charity or philanthropic group for defining their activities for supply or that relate to an exchange of goods or services and or the means of those exchanges between two or more parties. **Any such future Living Organism does not come under ANY human statutory or common law but does fully Function with the Cosmic Laws and does Accept the Full Accountability and Liability for all and any incorrect or wrongdoing in any Application to God Life and shall stand Voluntarily before Divine Justice for Its Deliverance of Karmic Debts to be Balanced without exception, immediately.**

This *'True Constitution'* Indenture *'1st Proclamation Resolution Trust Instrument'* is rather, a *'Formal Exposition'* that Establishes Cosmic Law as the Highest Law available to Mankind for its Rightful Application to God Life, within any God Creation upon this Earth, or within this Solar System, Galaxy, Universe or Cosmos. Therefore, that which would normally imply *'Articles'* of an Agreement, the word ***'Posit'*** is being used herein to define this *'True Constitution'* Indenture *'1st Proclamation Resolution Trust Instrument'*, as an Opportunity to begin to Understand and Accept the Full Power and

Responsibility of God-Authority, while exercising their God-Given Rights in a most Appropriate and Rightful Love In Action, Reclaiming such Human Rights, Civil Liberties, Quality of Life and the Freedom of Spirit from those who oppose it.

**The word *'Posit'* in this context, is defined in this *'True Constitution Trust Indenture '1st Proclamation Resolution Trust Instrument'*, its Function and Purpose, relates to the philosophical meaning as *'a statement of information and or Knowledge which are made on the 'Assumption' that it will Prove to be True'*. Even though such Posits are already True or Based on Truth in Accordance with Cosmic Law. This word, *'Posit'*, then, because the *'True Constitution'* was Created in Accordance with Cosmic Law, which are All Truths of God or Universal Mind, that which Is True to God, is Undeniable, Unchangeable, Incontrovertible, Inescapable, Untouchable, Unquestionable, Immeasurable, Unchallengeable, Irrefutable, Incorruptible, Inalienable, Unmistakeable, Unassailable, Indestructible, Immortal, Unyielding, All-Encompassing, Conclusive, Absolute and Eternal.**

However, while humanity remains within old belief systems of lower consciousness, the Full Truth may find resistance that will delay the time of Self-Realisation of that which is God Universally True, and that which remains the old human beliefs of miscreation, disinformation, mal-information, misinformation or untruths. Inevitably all of humanity will Know the Truth, but that may remain impending and immanent in Design, within this Human Evolutionary Plan that Must by Cosmic Law, the *'Law of Expansion'*; thus, allowing the Divine Truth to be attained by each person's own volition in such ways that are True and Eternal according to their own individual paths, timing and learning experiences through views and beliefs. Therefore, no agreements, contracts or documents can or will be imposed as to how one chooses to reach such attainments herein. Else God is Breaking God's Own Laws and that IS SIMPLY NOT POSSIBLE. Therefore, this *'True Constitution' Trust Indenture '1st Proclamation Resolution Trust Instrument'* has no Laws, orders, commands, rules or conditions imposed as to how such Elevation in Consciousness can be attained. Rather, humanity, individually or as Group Domains, can choose whatever they desire to do via their own *'free will'* choices. However, any choice will always come under the Cosmic *'Law of Accountability'* and the *'Law*

*of Retribution'*, or the *'Law of Cause and Effect'* as defined herein this Indenture *'1st Proclamation Resolution Trust Instrument'*.

These Posits then, remain as statements, declarations, proclamations, testimonials, assertions, announcements, or Discourses, which are Created for the Presentations for Guiding Purposes only, on the *'Assumption'* that they will Prove to be *'True'* through the Rightful Applications of God Life within the human experience of each Group Domain.

N. B. *This 'True Constitution' Indenture '1st Proclamation Resolution Trust Instrument' or in all its content in all its forms and titles, does not limit any human being, individually or Group Domain, to use such Cosmic Laws to weave into any future definition of function, purpose and the detail, as to how the parties therein shall act in accordance with such statutory and common law, whether they be in the form of any indenture, be it a human, legal or incorporated contract, agreement, or document, or any other form that relates to an existing or future business, organisation, foundation, institution, charity or philanthropic group for defining their activities for supply or that relates to any exchange of goods or services and the means of those exchanges between two or more parties. They can and are encouraged to be woven into such things, as is Declared and Stated within the* ***'True Constitution'*** *at will. The Future New Ashramic Living Organisms of Divine Economy will take time to Create, Transit or be Reformed from within the old human systems and structures of the actions of exchange as in any present Group Domain, past, present or future. Please read the True Constitution Indenture for Greater Understanding of such Transitional Periods.*

**1.2. Assumptions —** This word, in this context, under Cosmic Law is defined as the **Law of Believing,** also called, the **Law of Assumption.** Also defined within the content of this True Constitution Indenture *'1st Proclamation Resolution Trust Instrument'*.

*"The idea of believing what one says will come to pass. Whatever a life-unit of whatever kingdom experiences, feels and thinks, it is possible to assume its mental and emotional condition and to experience what it experiences. This is empathy. Conversely, by the same Law, it is also possible to influence any life-unit with one's thoughts and feelings. Assumption is not restricted to the emotions or thoughts of a life-unit. One may also assume the power and characteristic of any life-unit. To assume the feelings of a person or*

*a thing is an outstanding action. To assume the feelings of a plant or tree brings oneness or realisation that you are that which you assumed. Anything can be assumed: thoughts, words, actions, stones, plants, animals, crystals, spirits, human beings, gods, angels, and even the Cosmic Mind. By assuming a thing, it is possible to acquire the Virtues or the vices of the thing. The* ***'Law of Assumption'*** *may also be called the '****Law of Identification'****. One of the related 'Laws of the 'Law of Assumption' is the '****Law of Attunement'****; 'When two things resonate with one another they are said to be in attunement. In such a state there may be an energy exchange between the two things.*

*So, when man or woman find an Attunement with God and Open a Communication acknowledging that the Identification of one is equal to the other, then a link or what is called a 'Tube of Communication' can be established, known as the 'Antahkarana'. This takes practice to perfect, but it can, however, create such a communication that is able to find a link through which God, or Universal Consciousness can openly speak with man or woman where the man or woman can receive clear and undeniable communicative interaction. In this 'State of Consciousness', Prayer enters a Higher State of Transmission and Receiving. We now enter the Realms of becoming aware that as a human being we are not alone on the Earth and therefore the idea of God, as a personage becomes a vast array of other God Intelligences and Higher Consciousness such as but not limited to, Christ Consciousness, the Melchizedek Consciousness, the Mahatma Consciousness, etc., Who All Share upon and Within a Stream within God Consciousness, while all speaking the same Languages, all able to Create Like Our Prime Creator Or Creating from a place of Immaculate Conception".*

The Posits herein contained, then become open to the *'Law of Free Will'*, naturally, where no asserting any facts or Truth are forced upon any person or group. The Posits simply Postulate or put forward a Proposition of the Truth through the Principles, Characteristics, Qualities and Virtues of Divine Will through Agape Love, providing the Source Information that relates to the Ascension Process of a Human Race to raise its own consciousness Directly Back to God Life by their own volition and Love in Action. Such Posits and Assumptions, simply put, are ***'Signposts'*** where other avenues continue to remain open for whatever path one may choose along their own individual or group *'Path of Initiation'* or

*'Higher Consciousness Awareness'*. These then leave all options upon the table of one's belief to explore or not as they wish. If acknowledged and accepted, with Due Diligence and Higher Qualification by individuals or Group Domains, these could be more easily attainable through.

**1**. Self-Examination (Know Thyself First).

**2**. Experiential implementation of new beliefs of information or Knowledge into individual life or Group lives. This is the ONLY way humanity can Understand and Align themselves for such changes to become their next Levels of Greater Awareness. This is a Cosmic Law the *'Law of the Acquisition of Knowledge'*, where Knowledge can only be gained and kept, through the physical use and application by the willingness to put into one's life the trials and errors of implementation and ground it through and into a physical plane of existence and exchange with self, individuals or Group Domains.

**3**. Through the transcendence of belief, the Knowledge, hence becoming Wisdom. Wisdom is simply that State of Consciousness where beliefs no longer exist, beliefs, which remain in a consistent condition of changeability. Wisdom is a State of Unchangeability and Fully in Alignment to Cosmic Universal God Consciousness. Wisdom is Permanent Knowledge of God Intelligence.

**1.3. Triune Grace Commission (TGC)** - The TGC is a Newly Formed Circle of Light Inaugurated with the Higher Councils of Light, by the Elemental Grace Alliance Council on the 29th of December 2017, thus becoming a Communication Christ Council for the Function and Higher Purpose for Providing all necessary Cosmic God Intelligence Guidance for Humanity to Become Self-Governing by the People. This TGC Circle of Light is made up of both Human Beings and Higher Ascended Masters. The TGC is part of a New Holy Trinity, Created within the Chambers of Shamballa, not by name, but in Essence, between Shamballa God Intelligences, Hierarchy God Intelligences, and Humanity/God Intelligences, now called the *'Triune Grace Commission'*.

**1.4. The Elemental Grace Alliance (EGA)** — A Divine God Plan Founded on the 19th of August 2011, at 5:43 am in Nottinghamshire, United Kingdom. This Divine Plan was developed over a concentrated 13-month period that grew from a *'Mission Statement'*, a Heavenly Search with the Higher God Intelligences to Assist in the clarity of

Divine Function and Purpose to find solutions and resolutions to ALL of humanity's world problems, both individuals and groups, communities, and nations alike.

**'To change or rewrite the Divine Charters with God for the Elementals and Nature Kingdoms so that a radical and significant shift can be made toward humanity's conscious awareness about their interrelatedness and co-creational abilities for a more active and mutually beneficial co-creative collaboration together'.**

This *'Mission Statement'* became the ***'Bedrock'*** from which the Church, or *'Circle of Influence'* of Christ Consciousness, is to become a more freely understood part of Humanity's Infinite Connection to God Universal Life, and thus, Becoming Aware of Their Own True Origins in the Truth of God Reality on a mass scale regardless of race, colour, creed, religious or political persuasions herein, no longer limited to or thus remaining in separation consciousness with the mystical domains of smaller secret societies or Divine Spiritual World Serving Groups.

The Abstraction of this *'Mission Statement'* had to be Concretised within the minds of men and women, understood and proven through experimentation and physical implementation into the lives of physical beings as to prove Its Truth and Reality in these lower realms of God Existence before it could become a physical manifestation upon any sort of mass scale platform. It began through the Clarity of the Truth of God Existence by Higher Divine Understandings through multiple Discourses and Treatises, both new and old in terms of human awareness. The Divine Understandings Found both Function and Purpose for this God Divine Plan, for this Human Evolutionary Plan, and thus, as a result, found the answers to ALL questions and has Found All the Solutions and Resolutions to mankind's individual and world problems.

These are the Words of Our Beloved Brother, Jesus the Christ, and it was these words that Summarized and Concretized, very clearly, the Intention for Co-Creating the Elemental Grace Alliance Council, a High Council where both human beings representing the whole of humanity and Unlimited Higher God Intelligences from all 7 Spheres of God's Creations that Participated in the Gatherings that took place where the Holy Desire *'to bring to the Light of human consciousness'*, the solution and resolution for building first a Bridge of Consciousness, a Bridge of Friendship in Brother and

Sisterhood, and a Bridge of Trust between Humanity and the Elementals, Devas, Angelic Host Realms and Nature Kingdoms.

Part of this Self-Realisation came from *'A Course in Miracles'* where Jesus said:

***'Peace be to Me, the Holy Son of God. Peace to My Brother who is One with Me. Let All the World be Blessed with Peace through Us. Father, it is Your Peace that I would give, receiving it of You. I Am Your Son, forever, just as You Created Me, for the Great Rays remain forever still and undisturbed within Me. I would reach to Them in Silence and in certainty for nowhere else can certainty be found. Peace be to Me, and Peace to All the World. In Holiness were We Created, and in Holiness do We remain. Your Son and Daughter is likened unto You in Perfect Sinlessness. And with this thought We gladly say Amen!'***

Twelve years on from the Inauguration of the EGA, the Birth of the *'True Constitution'* was given Life as the first Official Human Ashramic Group Living Organism.

**1.5. Ashramic Group** — Since the Great Fall from Grace, there has been a Genealogical Lineage that Links back to the Original Living Sons and Daughters of the Light. That Genealogy lies with those whose Hearts have always been connected Innately to the Universal Divine Plan for the Evolution of a Human Race from the bottom up. Moses, Jesus and Paul of Tarsus and many others throughout the generations and millions of years past were all connected, just like you who are reading this.

The word *'Ashram'* is normally seen as being composed of a Master or Teacher and His students, but it is more far reaching than that. And Master Djwhal Khul explains everything within His Teachings that relate to this and more, but there is a new *'Point of Tension'*, or *'Focus'*, on this understanding for the Purpose of Planting yet another *'Seed of Consciousness'* for you in humanity to Act upon. An Ashram can also be seen as a ***'Circle of Influence'*** or inclusion where Energies Circulate from the Centre of that Circle to the periphery. The Circulation of Energy links Disciples to their Masters or Teachers. This also now relates to the People who become a Central Core or Nucleus of a Circle of Specific Consciousness, both Esoteric and Exoteric in nature; the first dealing with the Education through the Supply of Knowledge and Wisdom and the second dealing with the Teaching of that Supply of Knowledge and Wisdom.

There are Inner and Outer Connections to the Ashram. The Inner are those who consciously meet as individuals and the outer is composed of those under the Influence of the Ashram. They are linked to it and receive Telepathic Instruction and Feedback. But here is where it gets interesting!

Because of the Work the Elemental Grace Alliance has done and continues to do, and the way in which it has Evolved from its beginning, it has now created a very unique situation through the Whole of the Evolutionary Plan for Uniting Humanity, the Supplementary Seven, those who function upon and within the physical plane of Earth; with Shamballa, Hierarchy and Humanity, as set out in Rule 8 of the Djwhal Khul Teachings, *The 14 Rules for Group Initiation*. The Connections made to the Higher Realms by the Elemental Grace Alliance has now Demanded the need for Reformation within the Council Chambers of Shamballa and therefore, Reformations within the Realms of Hierarchy and Humanity. Thus, now the New Holy Trinity can Function with Greater Purpose and Freedom of Movement to help make the changes needed upon the Planet to Bring about Greater Balance through Divine Justice.

**1.6. Living Organism** — In this context, 'Living Organism' refers to Groups of Souls, Forcefields or *'Circles of Influence'* in the Formation of Ashramic Groups of men and women who co-create in ways pertaining to the Law of Precipitation. A Living Organism is a New Template of Approach for the Gathering of *'Circles of Influence'* to become a New Vibratory Frequency of Higher Resonant Formations that are more greatly implementing Function and Purpose to Human Rights, Civil Liberties, and Self-Governance of their own Group Domain. This New Living Organism, or *'Circle of Influence'*, will, in the shortest time, supersede and move into Higher Resonances and Light Quotients beyond today's groups, governments, administrations, companies, foundations, organizations, institutions, establishments, political parties, societies, charities, non-profits, philanthropic companies or trusts, and any other statutory or common law entities, legally enforced or otherwise, by man-made Laws known today.

Living Organisms can be seen as alive, pulsating with life force, breathing, expanding, as any living organic entity would do, whereby the structure of the Body will be likened more in terms of all parts of a Body becoming more integrally aligned in Function and

Purpose as a biological organism. From a single cell to infinite cellular Organisms like a Universe, the Earth and the Oceans and Mountain Ranges of the World. From a single person to a whole human race, these New Living Organisms will be more aligned to having not top-down ranking systems or departments and where systems are ranked in accordance with position, wealth and power. Rather, these New Living Organismal Entities will be Created from within the Creative Powers of a Living Immaculate Conception of Christ Councils of 12 + 1, whereby the Mother's Love and the Father's Light shall be likened to the sperm and ovum of the Birthing of an Immaculate Child of God, as Jesus was born, or that of a Whole Universe, which is the exact same Formula for All Creation Itself. All such Births, Children or Creations, if correctly Conceived in the future to come, is now available to All here upon Earth, and shall be Benevolent to All Group Domains, thus eliminating all old systems of profit mentality that undermines the Core of God's Laws.

Therefore, in these future transitional times, all titles and positions will be abolished, whether King or Queen, Prince or Princess, President or Vice President, Prime Minister, CEO, and any other of the positions that are infinite in number that limit the Freedom of Humanity in ways of equality! Taxes will be abolished as they are used today, and voluntary tithing will replace the old with the new Resources of Energies, not necessarily money, that will provide the needed Energies to Support and Underpin all New Creation that must now become more munificent and altruistic for the expansion of such Living Organism Group Domains in all their varying needs. They will become Ever-Evolving and Perfecting their Functions and Purposes in Accordance with their own creativity, design cultures, religions, etc.

A Living Organism has no Leaders. All are equal in Authority and Responsibility among all the Cells of that Body Unit. It is a totally new way of Group Domains to perform, operate and behave, whereby All Members of that Living Organism are Equally important and have the same Benefits and Rights as anyone else in that Living Organism, or Body of Unity Consciousness, Brotherhood and Sisterhood in all matters of God Life, where the decisions will be made by the People, for the People, through the People and with the People Being the Self-Governors of their own Group Domains, and for smaller Group Domains to eventually Unite fully into a

Living Organisms of a Single and Whole Human Race so named the 'I AM' One World Nation.

Today, world governments and most global organizations have put in place mechanisms that completely disempower their citizens, turning them into mere cogs within their profit-making machines. This is no longer sustainable or acceptable under Cosmic Law. This remains a delusional state of consciousness that no longer has the power to overrule *'The Peoples'* choices. These false beliefs are archaic untruths and incorrect assumptions to God Life! The People of the Nations and World *'ARE'* the ONLY *'ones'* who must choose who they wish to be Served by. They are to be the *'ones'* who shall become the *'Bedrocks'* and *'Minsters'* of all Group Domains, where the Greatest Light begins to turn such misconceptions around in favour of the *'People of God'*, to Radiate with more Illumination the Inner Flames of Life, to Become more Affluent in Knowledge, Wisdom, Love and Truth, Well-Being and Happiness! Human Rights and Civil Liberties can only flourish when all people Know Who They Are in Relationship to Their Benevolent Creator. In this there is no opposition, and only the Rightful Application and Attitude toward 'the Highest Good for All Concerned' will turn the tides of oppression, inhumanity toward the Sons and Daughters of mankind, as well as the Sons and Daughters of God.

**1.7. Forcefield** is a Field of Constructive Energy having no physical mass which has the capacity of matter, and as such, can act as a barrier so that objects or other energies affected by a force or forces relating to the field are unable to pass through the field. Thus, a Forcefield can act as a Protection Mechanism the same as it can act as a mechanism of active force, depending on the purpose and intent of the Creator. The Purpose of the Establishment of such *'Forcefields'* is not to exploit the personality nor the efficacy of any individual or Group Domain, but to so Magnetize and Sustain certain God Qualities so that they are *'always available free of charge for the use of all'*, not just those who can pay for such privileges. It is so that the Ascended Host, Who offer all Their Momentums of Perfection to anyone absolutely free and without encumbrances and the Universal Progress that results, are an Act of such Selfless Service. The Hierarchy wishes to, once again, Establish Their Communications with Humanity more Directly upon these Principles which were Originally the Individual *'Forcefields'* which Magnetized

into Their Momentums the already Gathered Cosmic Momentums of the Ascended Etheric Master Retreats.

This was done and continues to be implemented around the world, primarily, through the Inbreathing of the Substance of the Flame and Ray Virtue of the Transmission of the Flame Service or Group Living Organism, or now, the New Group Domains in preparation. Then the sincere and selfless Disciples, and the *'People of God'* using the Magnetizing Centre of their Group Domain *'Forcefield'* will expand these Virtues into their localities through the expansion and in and of their Own Inner Breath. Thus, unascended beings can learn and discover new experiences to work with and Expand the Services of the Ascended Master Retreats, thus being of benefit to all of mankind without interferences of outer intentions that have private goals to miscreate via their own personality and their own group agendas.

1.8. **Adam and Lilith Kadmon Human Race —** The New and more Highly Spiritual Human Race, who are in their final stages of preparations to reveal themselves to the present-day masses of humanity. It is the same human race as is seen today, but having completed such entry into Higher Levels of Conscious Awareness, will now begin the Final Transitions to assist present human beings and those awaiting their incarnations to enter the next levels of Higher Dimensional Fields of Consciousness of this Earth Evolutionary Cycle and Plan under the *'Law of Evolution'*.

1.9. **Group Domains** shall mean, but not be limited to, Gatherings of two or more, Families, Communities, Groups, Hamlets, Small Towns, Cities, Municipal Shires, and County Councils, States, Principalities, Territories, Islands, Kingdoms, and eventually across All Nations, individually or collectively.

1.10. **Karmic Board of Directors —** The Karmic Board are also known as the Lords of Karma and are a Body of Ascended Masters Who are Assigned the Responsibility as Divine Intercessors for Earth to Dispense Justice and Adjudicate Karma, Mercy and Judgement on behalf of each Soul on Earth. All Souls are required to go before the Karmic Board before and after each incarnation on earth. Twice a year the Karmic Board receives and considers requests from Masters, Cosmic Beings and Humanity for Dispensations, Petitions for Projects and for the Investment of Energies by a Cosmic Sponsor. *(See Law of Granting Petitions — Posit V, Assumption 3, page 37)*.

**1.11. Ascension —** is an Awakening of the Soul into a Higher Level of Consciousness that expands the Vibrational Frequency increasing one's Energy and Light Quotient. It unleashes Innate Powers and Wisdom. The Ascension is an Evolutionary Process that is Multi-Dimensional and unique to each individual.

**1.12. Conscious Mind Patterns (Consciousness Patterning) —** in Spiritual Terms refers to the consideration of different perspectives and views and a range of information taking an objective view of seeing the world realistically and living life, considering choices and making decisions by considering all potentials as part of a much greater whole. Consciousness is a State of Being aware of and responding to one's surroundings.

**1.13. Artificial Time Cell —** Artificially formed timelines are holographically created for the purpose of gaining control over matter and influencing events. Accelerated time can be precipitated through Artificial Intelligence interjected in and through modern human lifestyles and can be experienced as a binding or contraction of time. While this is True in many ways, it is equally True that Artificial Time Cells are likened to holographic *'Spheres of Influence'* that can manipulate physical matter and events for the purpose of saving God Life. Humanity was 5000 years behind in its own True and Natural Time Cell, ready to evolve into its next Stage, *'Ring of Consciousness Passeth Not'*, and since December 2012, the lapse in Time has been made up to what we are being told is still lagging around 300 years behind Our Earth's Natural Time Cell. While Human Consciousness remains the constant of this Transitional Period, it remains that the Collective will provide the necessary importance to make an even earlier shift, via *'Divine Will'*, or carries the potential to radically set progress back again through *'free will'*. Human Consciousness is assessed for its mass Average Vibrational Frequency every 25 Years by the Hierarchy, and the next reading will be taken in 2025. So, humanity has an incredible Opportunity now to assist in this most important *'Artificial Time Cell'* whereby if a certain raising of consciousness through humanity can be achieved, such transitions are possible to take place within a decade. One need not believe this or even accept it, but that does not mean it is not a Truth. The important thing is Humanity, in general, have an Opportunity to make a difference in their own and in the Group Life if they want a Quality

of Life and Freedom of Spirit and that everyone has a *'free will'* choice to make for themselves.

**1.14. Natural Time Cell —** This relates to a time within the history of mankind, a point along their Evolutionary Cycle whereby they have reached a Level of Awareness in the Higher Understanding of the Energy Vortices around the world. Once this Level of Consciousness is reached, such Vortices can be Activated and Energised to open Celestial Vortices, thresholds of Magnetic Forcefields. These will come automatically now, and tremendous Solar Flares will bombard these Magnetic Vortices through the North and South Poles. While such Transitions may be somewhat catastrophic in nature, Work continues to make these necessary Transitions to allow such Earth movements to find their new Equatorial Alignments. Humanity is now in a position to soften such Transformations in a likened way that humanity now has the same opportunities to find their own internally required Polarity Balances within their daily lives via Greater Awareness of Knowledge and Wisdom. The *'Natural Time Cell'*, then, is a place of Neutrality, a Place where God is Ever-Present, and We know that God is the Perfection of Itself. So, too, then can the Human Race be once it lifts its consciousness out of the hypnotic low-energy human vortices or illusionary beliefs of its lower conscious mind projections. Balancing the Energies of Mother Earth is no more complicated as humanity will make it. God Is Simple. God Is Life. And what God Is, so Humanity can become with the Rightful Application to God Life.

**1.15. Rings of Consciousness Pass(eth) Not —** Circles, boundaries or frontiers within which is contained the consciousness of those who are still under the sway of the delusion of separateness and which must be transcended to make any further progress toward Ascension.

**1.16. Student, Aspirant, Disciple, Initiate, Unascended Master —** Varying Levels of Consciousness of men and women who have chosen to study all matters related to their Spiritual Heritage.

**1.17. Seekers of Truth —** Men and women who Seek the Truths of God Life that will help set them free, becoming unbound or untethered to lower conscious thoughts and practices that control and manipulate, oppress and suppress a more fruitful life!

**1.18. The People of God or God's People —** Generally recognised as all or any of humanity, each being metaphorically a spark or cell within the Body of God.

**1.19. Supporting Discourses —** Where references are made to Supporting Discourses, are implied to all Discourses, Treatises, Entreaties, all Communications from Higher Intelligences that began in greater earnestness after the Directors of the Karmic Board Granted such Dispensations and Declared to allow for greater mass communications to be made between the Higher Realms and humanity upon the ground. That Agreement and Work, since the early 1900's, has allowed for the Greater Awareness of the Greater Divine Plan for the Original God Fixed Design Function and Purpose and that has led to the Formation and Structures of All Petitions to the Karmic Board that have resulted in the Grants and Dispensations by the unascended human beings that have supported tens of millions of the *'People of God'* to Unite as One Voice so that this *'True Constitution', 'I AM' One World Nation and Declaration For The Freedom Of Humanity* to be Immaculately Conceived and Birthed upon this Planet.

**1.20. Pathology —** The clinical or diagnostic framing of a life's inner experience, behaviour, or communication as a disorder, deficiency, or defect requiring correction, treatment, or containment. This Covenant does not deny that genuine pathology exists; it holds that pathology must be established with patience and proper cause, never presumed merely because a life's account, communication, or manner of being does not yet correspond to the receiving field's own frame of reference.

**1.21. Reception —** The act, and the standing capacity, by which one consciousness receives another as it actually presents itself, without requiring it first to be converted, translated, or made to conform to a framework already decided in advance. Reception is the root operative term of this whole Covenant, and is distinguished throughout from mere tolerance, which permits difference at a distance, and from doctrine, which absorbs difference into itself.

**1.22. Posit —** A foundational Proposition of Relationship set down within this Covenant as Self-Evident within the Cosmic Order, not argued into existence but named as already true, in the manner that an axiom is posited rather than proven from something prior to it.

**1.23. Assumption —** Within the structure of each Posit, the further Propositions that necessarily follow once the Posit itself is accepted as true; the working-out, in practical and relational terms, of what a Posit requires once it is received.

**1.24. Karmic Authorisation —** The standing by which this Covenant is granted force and legitimacy, sourced not from human legislature, ratification, or public office but from the Karmic Board of Directors and the Cosmic Laws themselves, under Dispensation extended to Humanity since the opening of the twentieth century.

**1.25. Ground of Presence —** The condition of already Being Present within the Cosmic Order prior to any human recognition, licence, or grant; the standing floor beneath every Posit in this Covenant, upon which Karmic Authorisation itself rests.

**1.26. Elemental, Deva, Angelic Host —** Three Kingdoms of conscious Life that labour continuously in service to Earth and to Humanity though they are not themselves human: Elementals tending the substance and forces of nature directly; Devas holding and directing the larger patterns of growth and form within which Elementals labour; and the Angelic Host carrying the higher, more universal offices of Guidance, Protection, and Ministration. This Covenant names all three as standing Companions within the Community of Life, not as background or metaphor.

**1.27. Relational Totality —** The whole field of bonds, human, elemental, and cosmic, that a life depends upon and is shaped by, considered together rather than as separable categories; the recognition that no relationship stands entirely alone from the others a life holds.

**1.28. Companion Standing —** The condition of two or more parties meeting one another as companions rather than as one governing the other; a relationship in which no party, however greater its apparent power or authority, walks over another it claims to walk beside.

# Prelude

This Covenant is offered as a complete representation of the Whole of Creational Relationships, not a supplement to what has already been written, nor a rival to it, but the naming of a relationship no existing instrument was written to name.

Six bodies of law and declaration stand behind this work, and are named here plainly rather than left unspoken: the Universal Declaration of Human Rights of 1948, the International Covenant on Civil and Political Rights and the International Covenant on Economic, Social and Cultural Rights that carried it into binding law in 1966, the Convention on the Rights of the Child of 1989, the Convention on the Rights of Persons with Disabilities of 2006, and the Earth Charter of the year 2000. Each was a genuine labour of conscience, drafted by those reaching, within the consciousness available to their own time, toward dignity, protection and right relation. Each still stands, and nothing here asks that any of them be set aside.

Of these six, the Universal Declaration of Human Rights stands as a declaration rather than a binding treaty; the two International Covenants, the Convention on the Rights of the Child and the Convention on the Rights of Persons with Disabilities are treaties in the full legal sense; and the Earth Charter is an ethical, civil-society declaration rather than a United Nations instrument. This difference in status does not diminish any of them; it is named here only for precision. A seventh body was also consulted in the Dossier behind this Covenant, not as a Charter to be compared against but as lineage: the True Constitution's own Christ Mandate, whose Preamble already names the Universal Declaration and the Earth Charter as its own forebears. Where this Covenant speaks of the six Charters it stands beside, it means these six; where it speaks of the seven bodies surveyed in the Dossier, the True Constitution is the seventh, read for continuity, not for comparison.

But each was drafted, and each was executed into human law, by minds and councils addressing humanity's relationship to itself, to its own children, its own citizens, its own diversity of body and belief, or, in the Earth Charter's case, reaching one step further, toward humanity's relationship to the community of life it shares the planet with. Not one of them, at the moment of its drafting, was written to name a relationship with Earth herself as a living Presence entitled to welcome, and, rightfully so, beyond her, with the Solar System, the Universe, and the greater Cosmos she is held within; with the Elemental Kingdoms who build and hold the forms of the physical world; with the Devas who serve that building; with the Angelic Host; or with the Elohim, Mighty and Secret, whose Creative Work stands prior to and beneath every form these instruments were written to protect. This is not a failure laid at any drafter's feet. It could not have been otherwise: no council convened to

write law for the relations of nations could, at the same time, convene the relations of worlds.

This Covenant does not correct these instruments. Its Function is to travel in the two directions none of them could yet travel: outward, from humanity's relationship to itself, into the whole company of relationship that Creation actually is, Earth, Solar System, Universe, and the greater Cosmos beyond; and inward, into the Human Biology itself, and its own living connection to the Greater Field of Consciousness and to Source, which no Charter drafted for law was ever written to ask after. Its Purpose is to receive what they protected, and to welcome, in both directions, what they had no way to name. In this, the Covenant reaches toward a vision of far more than the earlier Charters, bound to the consciousness of their own time, could ever have given credence to.

What follows, then, is not a declaration standing beside these six, but a Function and Purpose standing after them, beginning, before a single Posit is spoken for humanity, with Earth herself.

## The Nine Cosmic Laws

Nine Cosmic Laws recur throughout every Posit and Assumption in this Covenant. Rather than name them and leave a reader to meet each one cold, nine separate times, their full source explanation is given here in advance, drawn without alteration from Memra 14's own Treatises on the Cosmic Laws, so that each Law's own foundation is already in hand before a single Posit is spoken.

*The Nine Cosmic Laws of Relationship*

## Chemical Affinity

### *UNDERSTANDING THE COSMIC LAW OF CHEMICAL AFFINITY*

The Cosmic Law of Chemical Affinity reveals the first visible expression of relationship within the Universe. Long before life emerged upon the Earth and long before Consciousness awakened to recognise itself, matter was already learning how to gather, combine, and organise itself into coherent forms. Through subtle recognitions of compatibility, resonance, and balance, the Elements of existence began forming the structures upon which all later expressions of life would depend.

This Law reveals that relationship is not something Humanity invented. It is woven into the fabric of existence itself. From the silent bonding of atoms to the formation of crystals, mountains, ecosystems, communities, and civilisations, the same principle remains active. Chemical Affinity restores Humanity's understanding that all life emerges through relationship and that coherence arises wherever compatible expressions recognise their participation within a greater whole.

DEFINITION Of THE COSMIC LAW OF CHEMICAL AFFINITY

The Cosmic Law of Chemical Affinity establishes that the foundation of existence is relational rather than isolated. It reveals that matter itself participates in an inherent movement toward coherence through recognitions of compatibility, resonance, and structural harmony. What appears as the bonding of atoms, the formation of molecules, and the organisation of matter into stable forms is the earliest visible expression of relationship within the Living Universe.

Through this Law, structure emerges wherever compatible expressions encounter one another and enter into cooperative participation. The Mineral Kingdom becomes the first classroom of coherence, demonstrating how stability, balance, and organisation can arise through relationship rather than compulsion.

When consciously recognised, Chemical Affinity transforms the understanding of existence itself. Humanity begins to perceive that relationship is not secondary to life but foundational to it. The same principle that binds atoms into molecules ultimately gathers people into families, communities, and shared expressions of Creation. Relationship is revealed as one of the first languages through which the Universe expresses its living intelligence.

## Vital Affinity

### *UNDERSTANDING THE COSMIC LAW OF VITAL AFFINITY*

Affinity reveals the moment when structure becomes life. While Chemical Affinity establishes the stable foundations of matter, Vital Affinity awakens the circulating current through which life begins to move, grow, adapt, and renew itself. It marks the transition from organisation into participation, from form into living exchange.

This Law becomes visible through the emergence of the Plant Kingdom, where the Earth first begins to breathe through relationships linking soil, water, atmosphere, sunlight, and living tissue. Through these exchanges, vitality

circulates throughout the Planetary Organism, establishing the great cycles that sustain life.

Vital Affinity restores Humanity's recognition that life exists through participation rather than isolation. Nothing lives alone. Every Organism, ecosystem, and Kingdom depend upon a continuous flow of exchange that connects all expressions of life within a greater living whole.

### *DEFINITION OF THE COSMIC LAW OF VITAL AFFINITY*

Affinity establishes that life emerges through participation within a circulating field of living exchange. It reveals that vitality is not an isolated property possessed by individual organisms but a relational current flowing continuously through the interconnected systems of existence. Where Chemical Affinity creates structure, Vital Affinity awakens movement, growth, regeneration, adaptation, and the exchange of life throughout the Planetary Organism. This Law becomes visible wherever life recognises and sustains life. The relationships between soil and root, sunlight and leaf, atmosphere and respiration, water and living tissue all demonstrate the circulation

through which vitality is maintained. Through these exchanges, life becomes capable of Self-renewal and ongoing participation within larger cycles of existence. When consciously recognised, Vital Affinity transforms the perception of life itself. Humanity begins to understand that vitality arises through relationship and participation rather than separation. Life is revealed as a shared current flowing through countless forms, connecting all kingdoms within a single living continuum.

## Lost Octave

### *UNDERSTANDING THE COSMIC LAW OF THE LOST OCTAVE*

The Cosmic Law of the Lost Octave serves as the foundation upon which all the New Cosmic Laws rest. It addresses one of Humanity's oldest assumptions: that things can be lost, separated, abandoned, or removed from existence. Throughout history, human Consciousness has interpreted life through appearances of absence, death, endings, and fragmentation. Yet beneath these perceptions exists a deeper continuity that remains unbroken.

The Law of the Lost Octave reveals that nothing ever falls outside the field of life. What appears lost has not disappeared; it remains within the greater continuum awaiting recognition of its relationship to the whole. This understanding transforms the Way Humanity approaches experience, healing, transformation, and evolution itself. Rather than seeking recovery of what has vanished, Consciousness begins recognising the continuity that has always

remained present beneath appearances. The Lost Octave restores Humanity's awareness of an indivisible life in which nothing is ultimately excluded.

### *DEFINITION OF THE COSMIC LAW OF THE LOST OCTAVE*

The Cosmic Law of the Lost Octave establishes that nothing can be lost from the field of life because all existence remains within a single, continuous whole. What appears as absence, separation, death, fragmentation, or incompletion represents not a departure from reality, but a condition of unrecognised continuity. Every experience, every form, every relationship, and every expression of Consciousness continue participating within the greater field even when its connection is not immediately perceived.

This Law reveals that life does not discard its expressions. What appears unfinished, unresolved, or forgotten remains active within the continuum of existence until its relationship to the whole becomes understood. Transformation therefore arises not through replacement or recovery, but through integration and recognition. When consciously understood, the Law of the Lost Octave dissolves the illusion that anything has fallen outside life itself. It restores awareness of an indivisible continuity in which all things remain included, participating within a field that never ceases to be whole.

## Magnetic Consciousness

### *UNDERSTANDING OF THE COSMIC LAW OF MAGNETIC CONSCIOUSNESS*

The Cosmic Law of Magnetic Consciousness reveals the emergence of awareness within the evolutionary continuum of life. Having established structure through Chemical Affinity and vitality through Vital Affinity, the Living Organism of Earth reaches a new threshold: the capacity to recognise itself. Through this Law, Consciousness awakens as an interior field of awareness capable of perceiving relationship, meaning, purpose, and participation within a greater whole.

Magnetic Consciousness marks the transition from instinctive life into conscious life. Humanity becomes capable of reflection, insight, intentional relationship, and shared understanding. Awareness begins organising itself around values, ideas, visions, and patterns that shape both individual experience and collective civilisations. Magnetic Consciousness restores Humanity's recognition that awareness is not separate from life but is life becoming conscious of itself. Through this awakening, the Planetary Organism begins to recognise its own unity through the conscious participation of Humanity.

### *DEFINITION OF THE COSMIC LAW OF MAGNETIC CONSCIOUSNESS*

The Cosmic Law of Magnetic Consciousness establishes that awareness possesses an inherent capacity to organise itself through attraction toward meaning, coherence, and relationship. It reveals that Consciousness is not merely a by-product of biological complexity but an interior field through which life becomes capable of recognising itself and its participation within a larger living whole.

Through this Law, attraction operates within awareness itself. Ideas, values, relationships, visions, and shared understandings gather individuals into communities, cultures, and collective expressions of human experience. Consciousness becomes capable of perceiving patterns, reflecting upon experience, and directing its own evolution through insight and recognition. When consciously recognised, Magnetic Consciousness transforms the perception of Human existence. Humanity begins to understand itself not as a collection of isolated individuals but as participants within an interconnected field of awareness. Through this awakening, life becomes capable of recognising its own unity and consciously contributing to the greater coherence of the Living Organism.

## Proportionate Ascension

### *UNDERSTANDING THE COSMIC LAW OF PROPORTIONATE ASCENSION*

The Cosmic Law of Proportionate Ascension restores a deeper understanding of evolution itself. Humanity has often imagined ascension as a personal achievement, a journey undertaken by individuals seeking advancement beyond limitation. Yet this Law reveals a very different reality. Within a living Organism, nothing evolves independently of the whole that sustains it. Every expression participates within a shared field of relationship, and the growth of one influence the growth of all.

Proportionate Ascension reveals that true advancement is measured not by separation from others but by increasing coherence within the relationships that connect all life. As awareness deepens, participation becomes more conscious, alignment becomes more stable, and the whole becomes capable of expressing greater harmony.

This Law restores Humanity's recognition that ascension is collective in nature. No part rises alone, and nothing is left behind. The whole advances according to the coherence it can sustain within itself.

### *DEFINITION OF THE COSMIC LAW OF PROPORTIONATE ASCENSION*

The Cosmic Law of Proportionate Ascension establishes that the capacity of any individual, Kingdom, or expression of life to reveal its greater potential exists

in direct relationship to the coherence of the whole to which it belongs. It reveals that evolution is not an isolated process of personal advancement but a collective unfolding of increasing harmony throughout an interconnected field of participation. Through this Law, growth is measured not by attainment, status, or separation from others, but by the degree of coherence stabilised within the relationships that sustain life. As awareness deepens and alignment increases, the individual contributes to the coherence of the whole, while simultaneously Being supported by it. What becomes possible for one becomes increasingly available for all.

When consciously recognised, Proportionate Ascension transforms the understanding of spiritual development. Ascension is revealed not as escape from limitation but as the progressive harmonization of relationship throughout the Living Organism. Nothing evolves alone, and nothing is excluded from the movement toward greater coherence.

## Coherent Renewal

### *UNDERSTANDING THE COSMIC LAW OF COHERENT RENEWAL*

The Cosmic Law of Coherent Renewal reveals how transformation occurs within a universe where nothing is lost and nothing evolves alone. Having established continuity through the Lost Octave and collective participation through Proportionate Ascension, this Law addresses the question that naturally follows: How does change actually occur? The answer is not through rejection, escape, or replacement, but through the reorganisation of relationship within the living field itself.

Coherent Renewal reveals that life is continuously adjusting, integrating, and harmonising its own expressions. What appears fragmented seeks inclusion. What appears incomplete seeks coherence. Transformation is, therefore, not a future event waiting to happen, but an ongoing process available wherever awareness and alignment emerge. This Law restores Humanity's recognition that renewal is not the destruction of the old, but the integration of experience into greater coherence. Life renews itself by becoming more fully what it already is.

### *DEFINITION OF THE COSMIC LAW OF COHERENT RENEWAL*

The Cosmic Law of Coherent Renewal establishes that transformation occurs through the continuous reorganisation of relationship within an unbroken field of life. It reveals that renewal is not the replacement of one condition by another, but the integration and reconfiguration of what already exists into greater coherence. Nothing is discarded. Nothing is excluded. What has been

held in fragmentation, distortion, or incomplete recognition is gradually drawn into relationship with the larger whole.

Through this Law, life continuously adjusts itself in response to increasing awareness. Patterns that once appeared limiting become integrated into wider understandings. Experiences that seemed unresolved find their place within a larger continuity. Renewal therefore arises through coherence rather than rejection. When consciously recognised, Coherent Renewal transforms the perception of change itself. Humanity begins to understand that growth does not require abandoning the past but bringing it into greater harmony with the present. Transformation becomes the natural expression of life reorganising itself toward wholeness.

## Remembered Being

### *UNDERSTANDING OF THE COSMIC LAW OF REMEMBERED BEING*

Among the New Cosmic Laws for the Mass Ascension of Humanity, few touch the human condition more directly than the Cosmic Law of Remembered Being. While many teachings have focused upon becoming, attainment, purification, or transcendence, this Law turns attention toward something more fundamental. It reveals that beneath every experience, every identity, every success and failure, every joy and sorrow, there remains an unbroken continuity of Being that has never been diminished by the journey through time.

This Law does not invite Humanity to become something other than it is. Rather, it reveals what has always remained present beneath the layers of forgetting accumulated through generations of fear, separation, conditioning, and survival. It affirms that the essential Presence within every Human Being has never departed, even when obscured from conscious recognition.

As Humanity enters a new cycle of collective awakening, the Law of Remembered Being offers a foundation of profound reassurance. It declares that the deepest transformation does not arise through acquiring a greater Self, but through remembering the Sacred Continuity already alive within the Heart of Existence itself.

### *DEFINITION OF THE COSMIC LAW OF REMEMBERED BEING*

The Cosmic Law of Remembered Being establishes that the essential continuity of Being remains present beneath all experiences of fragmentation, separation, and forgetting. It reveals that the deepest nature of Consciousness cannot be damaged, diminished, or destroyed by the conditions through which life is experienced. Human beings may become identified with fear, trauma, conflict,

limitation, or inherited patterns of perception, yet these conditions exist only upon the surface of awareness and do not alter the underlying reality of Being itself.

This Law affirms that what is often sought through spiritual striving already exists within the foundation of Consciousness. The Soul does not become whole through attainment; it gradually recognises the wholeness that has remained present throughout every stage of its journey. Remembered Being therefore represents the restoration of conscious relationship with this enduring Presence. As this recognition stabilises, identity becomes less dependent upon separation and defence. Compassion deepens, fear softens, and life is approached by a growing sense of participation rather than isolation. The Law of Remembered Being reveals that Humanity's greatest inheritance is not something awaiting discovery in the future, but something quietly waiting to be remembered within the present.

## Feminine Totality

### *UNDERSTANDING THE COSMIC LAW OF FEMININE TOTALITY*

Among the New Cosmic Laws for the Mass Ascension of Humanity, the Cosmic Law of Feminine Totality reveals the field through which all life remains connected within a greater wholeness. While much of human history has been interpreted through separation, competition, hierarchy, and control, this Law restores awareness of a deeper reality that has never ceased operating beneath appearances. It reveals that existence itself unfolds within a living relational continuum that sustains all forms without abandoning any of them.

The Feminine described within this Law is not limited to gender, culture, or social identity. It refers to a primordial condition of Reality through which life nurtures, holds, receives, and sustains the emergence of coherence throughout Creation. As Humanity enters a new phase of collective awakening, the Law of Feminine Totality restores remembrance that life is not fundamentally organised through separation, but through sacred participation within an indivisible Whole.

### *DEFINITION OF THE COSMIC LAW OF FEMININE TOTALITY*

The Cosmic Law of Feminine Totality establishes that all existence is held within an infinite field of relational coherence that neither excludes nor abandons any expression of life. It reveals that beneath the appearance of separation there remains a living continuity through which all beings, kingdoms, processes, and experiences participate within a greater organismal wholeness.

The Feminine Totality is not a polarity opposing the Masculine, but the primordial capacity of Reality to sustain relationship without fragmentation. It nurtures emergence without domination, allows transformation without force and maintains continuity without diminishing individuality. Through this Law, life unfolds through participation rather than control and through belonging rather than exclusion. When consciously recognised, the Feminine Totality restores trust in the relational intelligence inherent within existence itself. Healing, growth, and awakening become expressions of coherence emerging naturally from within life rather than outcomes imposed through struggle. This Law reveals that nothing exists outside the embrace of the Whole and that all Creation remains held within an enduring field of sacred belonging.

## Masculine Totality

### *UNDERSTANDING THE COSMIC LAW OF MASCULINE TOTALITY*

Among the New Cosmic Laws for the Mass Ascension of Humanity, the Cosmic Law of Masculine Totality reveals the field through which all life remains directed, structured, and focused within the greater wholeness. While much of human history has been interpreted through patriarchal distortion, social dominance, and the aggressive imposition of separative control, this Law restores the pure, primordial understanding of the initiating spark. It reveals that existence is not merely a passive field of unformed potential, but an intentionally directed movement toward an evolutionary goal.

The Masculine described within this Law is entirely stripped of gendered mechanics, cultural identity, or historical biases. It refers to the Point within the Circle, the primordial condition of Reality through which life initiates purpose, holds direction, and establishes the structural vectors necessary for the emergence of Cosmic meaning. As Humanity enters a new cycle of collective awakening, the Law of Masculine Totality restores the remembrance that true power is not dominance, but unwavering alignment with the Will-to-Be.

### *DEFINITION OF THE COSMIC LAW OF MASCULINE TOTALITY*

The Cosmic Law of Masculine Totality establishes that all existence is held within an infinite field of relational coherence that is ordered and anchored by the Point of Pure Intent, through which all forms continually recognise and align themselves with the evolutionary purpose already present within the Whole. This Law reveals that beneath the appearance of linear struggle, there remains an unshakeable “Electric Fire” of Purpose through which all forms, unit lives, and kingdoms are drawn toward their ultimate evolutionary destination.

The Masculine Totality is not a polarity opposing or competing with the Feminine; it is the coordinating centre that allows the infinite space of the Feminine to cohere. It anchors emergence without control, directs transformation without force, and maintains alignment with the Spiritual Hierarchy without generating division. Through this Law, life unfolds through purposeful attraction rather than blind drift. When consciously recognised, Masculine Totality restores absolute trust in the Divine ordering principle inherent within existence itself. Leadership, Creation, and manifestation become expressions of directed Light emerging naturally through the Soul rather than outcomes imposed through personality willpower.

***No Spiritual Override.*** This Covenant opens a greater field of relationship than presently verified communication, psychology or biology alone can measure, and precisely because it opens that field, it names this safeguard plainly, as a principle in its own right. No spiritual, karmic, cosmic or intuitive interpretation offered under this Covenant may be used to override another person's consent, immediate safety, clinical care, legal protection, developmental needs, or right not to accept the interpretation being offered. No parent, teacher, practitioner, institution or spiritual community may say, in effect, "We know the higher meaning of your experience, and therefore your expressed needs no longer carry authority." Such an act would violate this Covenant's own deepest premise, and is disallowed by it.

***Nature and Scope.*** This Covenant is a spiritual, ethical and constitutional companion instrument. It is offered to expand humanity's field of reception, not to replace domestic or international protections, safeguarding responsibilities, emergency intervention, medical care, due process or freely given consent. Its cosmic authority is expressed through greater care, never through exemption from responsibility.

# POSIT DECLARATION — COVENANT OF RECEPTION

*Wheel of 108 Relationships of Embodied Consciousness*

***Orientational Baseline:*** *Every consciousness, born, differently communicating, or not yet incarnated, carries a dignity that is recognised, not granted; and this recognition does not wait upon any human authority, framework, or law to arrive first.*

**PRIMARY FUNCTION:**

To establish the ontological ground for the whole of this Covenant.

**CORE FOCUS:**

- Dignity
- Free Will
- Recognition, Not Permission
- Reach Beyond the Born

**AUDIENCE:**

All humanity, without prerequisite, and, in the Reach of this Posit, all lives not yet incarnated.

**Role in the Whole:**

This Posit does not teach what to do toward a child, a differently communicating soul, or a life not yet born. It establishes what is already true of them, regardless of whether any surrounding framework has yet learned to recognise it.

This Posit is the bedrock of the Covenant. Everything else presumes it. Nothing replaces it.

This Posit establishes the ground upon which every act of Reception rests. It recognises that the dignity, consent, and free will of a consciousness are not conferred by the age at which it is recognised, the clarity with which it communicates, or even the fact of its incarnation. They are, as with Cosmic Law itself, prior to all of these.

Dignity, so understood, does not govern behaviour toward the child; it Orientates the one who receives. Dignity is recognised, never bestowed, and what is never bestowed can never rightfully be withheld pending further evidence.

This foundational Orientation protects all that follows, and establishes the non-negotiable ground of dignity, free will, and recognition upon which the whole art of Reception may be built.

## Cosmic Laws for the Mass Ascension of a Whole Human Race

1. ***Chemical Affinity*** — Dignity is recognised through resonance, not granted by authority; it does not wait upon any framework's capacity to perceive it.
2. ***Vital Affinity*** — Free Will belongs to every consciousness as an intrinsic, vital property of being, exercised through whatever mode of communication is native to it, speech, silence, rhythm, refusal, or stillness.
3. ***Lost Octave*** — A child, or any differently communicating soul, who has not yet been understood was nonetheless always present and always transmitting; what is missing is the bridge, not the being.
4. ***Magnetic Consciousness*** — Recognition failure belongs to the surrounding field's own unoriented attention, not to the life awaiting reception.
5. ***Proportionate Ascension*** — This Posit's Reach extends to lives not yet incarnated, held in the same dignity as those already born, proportionate across the generations still to come.
6. ***Coherent Renewal*** — No existing charter, framework, or human law is invalidated by this Posit; each is renewed in its rightful, Companion context, without being ruptured or replaced.
7. ***Remembered Being*** — Consent, and the person beneath any diagnosis or assumption made about them, is remembered and honoured in whatever form their own communication makes it known.
8. ***Feminine Totality*** — Belonging is not conditioned on performance: a life's receptivity, stillness, or silence is honoured as fully as its outward expression, and never mistaken for absence.
9. ***Masculine Totality*** — Direction, boundary, and service are honoured wherever a life expresses them, at whatever age or capacity they arise, without requiring them to arrive in an expected order or form.

**This Posit Declaration is the root of this Indenture. Everything else in this Covenant will grow, develop and expand from here without strain.**

## THE EARTH POSITS

***The First Gift*** — This is the first word the Covenant speaks, and it speaks it about Earth, not about Humanity. Every Posit that follows, Earth's remaining four, and all of Humanity's after them, stands on this ground: that reception began before there was anyone here to receive.

***The Community of Life*** — Having named the Gift, the Covenant now names who else stands within it. This Posit widens the field from the single fact of giving to the whole company that gift was given into, Humanity among many, not above them.

***Right Relationship, Not Ownership*** — Where the previous Posit named the company, this one names the correct posture toward it. What has been received cannot rightly be claimed; it can only be met, tended, and returned to in kind.

***The Forgotten Natural Laws*** — This Posit turns from what Earth offers to what Humanity has stopped perceiving. It is not an accusation; it is a diagnosis, and the ground for everything the next Posit makes possible.

***Reception Returned*** — The hinge of Earth's whole Part: having received, named the Community, corrected the posture, and remembered what was forgotten, the Covenant now asks for the one thing that was never yet given back, a conscious answer. This closes Earth's five Posits and opens the door into Humanity's Fourteen.

## IN PRACTICE:

In practice, this Declaration is what you return to whenever a Posit ahead feels too dense to hold at once: every clause that follows is simply this one claim, worked out in a different room of the same house. Before a carer, a teacher, a parent, or a court asks what a specific Posit requires, they can ask the simpler question this Declaration poses, has this person already been received, before anything was asked of them? If the honest answer is no, the remedy is rarely more doctrine; it is presence, offered without a test to pass first.

POSIT I — The First Gift Declaration: Before there was a hand to receive it, the Gift was already given. Earth did not wait for permission, nor for gratitude, nor for the capacity of any creature to understand what it had been handed. Atmosphere, water, warmth, the exact chemistries by which a cell could first hold together these were prepared and offered before there existed anything able to ask for them, or to withhold consent, or to make a claim of right. This is the first fact the Covenant receives, and the ground beneath every Posit that follows, Earth's and Humanity's alike: that reception itself began on Earth's side of the relationship, not on Humanity's. No Charter drafted for law was built to carry this fact, because no council convened by Humanity could speak for a Gift given before Humanity existed to be addressed. The Covenant carries it now.

# POSIT I — THE FIRST GIFT

***Declaration: Before there was a hand to receive it, the Gift was already given. Earth did not wait for permission, nor for gratitude, nor for the capacity of any creature to understand what it had been handed. Atmosphere, water, warmth, the exact chemistries by which a cell could first hold together these were prepared and offered before there existed anything able to ask for them, or to withhold consent, or to make a claim of right. This is the first fact the Covenant receives, and the ground beneath every Posit that follows, Earth's and Humanity's alike: that reception itself began on Earth's side of the relationship, not on Humanity's. No Charter drafted for law was built to carry this fact, because no council convened by Humanity could speak for a Gift given before Humanity existed to be addressed. The Covenant carries it now.***

***Bridge.*** *This is the first word the Covenant speaks, and it speaks it about Earth, not about Humanity. Every Posit that follows, Earth's remaining four, and all of Humanity's after them, stands on this ground: that reception began before there was anyone here to receive.*

### *A Parable of the Unopened Door*

There was once a house built at the edge of a forest, and before the family who would live in it had even chosen the land, the forest had already grown warm along that edge, already thinned its canopy there to let in morning light, already softened the soil where a foundation might one day rest. When the family arrived, they marvelled at how welcoming the clearing felt, and believed the forest had made room for them because they had asked. It had not waited to be asked. It had been making room since long before there was anyone to walk through the door.

## ASSUMPTIONS OF POSIT I

1. ***Chemical Affinity*** — What recognises and joins with what rightly belongs was already prepared in the Gift itself, the precise compatibilities of air,

water and mineral that make a cell possible were not earned by the cell, nor summoned by it. Affinity was Earth's offering before it was Life's discovery.

2. ***Vital Affinity*** — Circulation began before there was an organism to circulate through it. Sunlight, oxygen, the cycling of nutrient through soil and sea, vitality moved and was shared long before any recipient existed to reciprocate it. The First Gift did not wait to be repaid before it began to flow.

3. ***Lost Octave*** — The interval between Earth as living Presence and Earth as mere resource is itself a Lost Octave, a continuity the Charters surveyed left silent, and this Posit exists to restore. What was severed was never Earth's own coherence; it was Humanity's capacity to perceive it.

4. ***Magnetic Consciousness*** — Long before any creature learned to orient itself, Earth had already prepared the field within which orientation becomes possible at all, a magnetosphere holding the conditions life would need before life existed to need them. Responsiveness was offered before there was anything to respond.

5. ***Proportionate Ascension*** — The Gift was calibrated, not exhausted, a world given whole, not depleted by prior use, so that what advanced upon it would not advance by consuming what had made its advance possible in the first place.

6. ***Coherent Renewal*** — Seasons, decay, growth, the ceaseless turning of what dies into what feeds what lives, Earth's own structure is renewal, offered as the pattern by which relationship survives change, before any Charter existed to ask whether it would.

7. ***Remembered Being*** — Earth carries memory in her own body, in stone, in strata, in the slow record written through deep time, so that the First Gift includes being given a world that already remembers, into which Humanity's own remembering could later be received rather than invented from nothing.

8. ***Feminine Totality*** — The receptive field itself, the capacity to hold, contain and make possible every transformation that follows, is the First Gift's deepest layer. Before Humanity could receive anything, it was first received by something vast enough to hold it.

9. ***Masculine Totality*** — The shaping forces, geological, solar, elemental, that gave the Gift its form and direction were themselves already purposeful, already directed, before Humanity arrived to call that purpose by any name. Direction, too, was given before it was asked for.

POSIT I — The First Gift Declaration: Before there was a hand to receive it, the Gift was already given. Earth did not wait for permission, nor for gratitude, nor for the capacity of any creature to understand what it had been handed. Atmosphere, water, warmth, the exact chemistries by which a cell could first hold together these were prepared and offered before there existed anything able to ask for them, or to withhold consent, or to make a claim of right. This is the first fact the Covenant receives, and the ground beneath every Posit that follows, Earth's and Humanity's alike: that reception itself began on Earth's side of the relationship, not on Humanity's. No Charter drafted for law was built to carry this fact, because no council convened by Humanity could speak for a Gift given before Humanity existed to be addressed. The Covenant carries it now.

---

## WHERE THE PRESENT CHARTERS ARE SILENT:

Of the seven bodies surveyed in the Dossier, none source the interdependence they assert, the Earth Charter's own Preamble calls Earth's living systems "a sacred trust" without ever naming why this is true rather than merely prudent (the Ground-of-Interdependence Gap), and not one of the six conventional instruments names Earth herself as a party capable of giving, prior to and independent of any claim Humanity might make upon her (the Total Silence). This Posit places the ground those instruments assumed but never named: the Gift came first.

## IN PRACTICE:

In practice, this means treating a child's, or any person's, arrival as already carrying worth, rather than worth to be earned by later performance, compliance, or gratitude. A parent, teacher, or institution meeting someone for the first time can ask, am I receiving this person as a gift already given, or am I waiting to see if they deserve one? Where policy or habit makes belonging conditional on behaviour, test scores, or usefulness, this Posit asks that the condition be removed first, and the relationship built from there.

# POSIT II — THE COMMUNITY OF LIFE

***Declaration: Worth is not conferred by usefulness to another. Every form of life within the Community carries its own worth, intact, whether or not any other member of that Community has yet learned to perceive it. Humanity is one member among many, not the measure by which the others are valued.***

***Bridge.*** *Having named the Gift, the Covenant now names who else stands within it. This Posit widens the field from the single fact of giving to the whole company that gift was given into, Humanity among many, not above them.*

### *A Parable of the Uninvited Guests*

A woman once held a feast and set a single chair at the head of her table, believing the meal was hers alone to enjoy. But as the evening deepened, she noticed the swallows nesting in her eaves were dining on the insects drawn by her lantern light, and the soil beneath her floorboards was feeding on the crumbs that fell between the boards, and the roots of the old oak outside were drawing up the very water that filled her cup. She had thought herself the only guest at her own table. She had never once been alone at it.

## ASSUMPTIONS OF POSIT II

1. ***Chemical Affinity*** — The recognitions that bind the living world together reach across the whole Community, not only as far as Humanity's own account of what matters. Affinities exist that owe nothing to human notice.
2. ***Vital Affinity*** — Vitality circulates through the entire web of life, species to species, unbroken by any single member's claim to be its destination. What moves through the Community was never a resource chain ending in human use.
3. ***Lost Octave*** — The interval between life valued for its use and life valued in itself is the Lost Octave the Earth Charter's own first Principle names without ever sourcing, asserting intrinsic worth, then falling silent on where that worth originates. This Posit restores the missing interval.
4. ***Magnetic Consciousness*** — Every form of life orients and responds within the field it shares with the others. Responsiveness is evidence of participation in the Community, never proof of lesser standing within it.
5. ***Proportionate Ascension*** — No member of the Community advances rightly through the exhaustion of another. This is the cosmic ground

beneath the Charter's own call for power to carry proportionate responsibility, a call made, but never anchored to why it should be so.

6. ***Coherent Renewal*** — The Community renews itself through relationship among its members. A renewal purchased by isolating and depleting one part at the expense of the others is not renewal at all, but a forgery of it.
7. ***Remembered Being*** — Every form of life carries its own persistence and identity across time. This is held by the Community collectively; it is not granted by Humanity's recognition, and it does not wait for that recognition to be real.
8. ***Feminine Totality*** — The Community as a whole is a receptive field, holding each differentiated expression within belonging, without requiring any member to perform its worth in order to be received.
9. ***Masculine Totality*** — Each member's own directed purpose, its differentiation and its activation belong to it as its own, never on loan from Humanity's use of it, never contingent on serving a purpose Humanity assigned.

## WHERE THE PRESENT CHARTERS ARE SILENT:

The Earth Charter's Principle 1 calls for intrinsic, not instrumental, worth as a starting premise but is silent on where that worth is held to originate. Principle 2 calls for power to carry proportionate responsibility, and is silent on how power is measured for a member of the Community whose power is real but illegible to conventional assessment. This Posit answers both silences at once.

> ***Earth Charter Principle 1 —*** *Respect Earth and life in all its diversity, recognising that every form of life has worth, regardless of its worth to human beings.* ***Earth Charter Principle 2 —*** *Care for the community of life with understanding, compassion and love; those with greater power hold greater responsibility for the common good.*

## IN PRACTICE:

In practice, this asks anyone in a position of care, from a family to a school to a government department, to notice when their language quietly places humans above the rest of the living field rather than within it. A simple working test, does this decision treat the land, water, animals, and other people as fellow members of one community, or as background resources for human use? Where the second pattern shows up in a policy, a curriculum, or a family habit, this Posit calls for it to be named and corrected, not defended.

# POSIT III — RIGHT RELATIONSHIP, NOT OWNERSHIP

***Declaration: To hold is not to own. What Humanity calls stewardship is rightly only ever a response to relationship already given, never an entitlement conferred by possession. Nothing in Creation was made to be owned; everything in it was made to be met.***

***Bridge.*** *Where the previous Posit named the company, this one names the correct posture toward it. What has been received cannot rightly be claimed; it can only be met, tended, and returned to in kind.*

### *A Parable of the Borrowed Coat*

A traveller once wore a fine coat through a long winter, and grew so used to its warmth that he began to call it his own, though it had been lent to him at the mountain's edge by a keeper who asked only that it be returned whole. He mended its tears, guarded it from moths, and told strangers of the coat he owned. When spring came and the keeper appeared to reclaim it, the traveller was astonished to learn that care and ownership had never been the same thing, and that he had been steward of the coat's warmth the whole time, not its master.

### ASSUMPTIONS OF POSIT III

1. ***Chemical Affinity*** — What belongs together is what rightly bonds, not what one party is able to claim. Ownership mistakes proximity, or power, for compatibility, and the two are not the same thing.
2. ***Vital Affinity*** — Vitality circulates only where relationship stays alive on both sides. An ownership that halts the circulation for one party's exclusive benefit has broken the very affinity it depends on to survive.
3. ***Lost Octave*** — The interval between possession and relationship is the Lost Octave the Earth Charter's own precautionary principle gestures toward without ever naming directly. This Posit restores it by name.
4. ***Magnetic Consciousness*** — Orientation toward land, water and the living systems that hold them is a responsiveness, not a command. Magnetism describes mutual attraction; it does not describe one party moving the other without being moved in turn.
5. ***Proportionate Ascension*** — This is the clearest cosmic anchor beneath the Charter's own reversal of the burden of proof: no advance by one

party is legitimate at the expense of what that advance depends upon to continue existing.

6. ***Coherent Renewal*** — Right relationship renews what it touches. An ownership without renewal, extraction with no return, breaks Coherent Renewal at its root, whatever legal form protects it.

7. ***Remembered Being*** — Land and living systems remember use and misuse alike. Right relationship keeps faith with that memory; ownership, structurally, treats each transaction as though the world began again with it.

8. ***Feminine Totality*** — To receive what a place offers without requiring it to perform beyond its own nature is the entire difference between stewardship and extraction.

9. ***Masculine Totality*** — Direction and shaping remain rightful only when they serve what receives them. The moment shaping overrides the receiving field's own order, it has stopped being stewardship and become something else.

POSIT III — Right Relationship, Not Ownership  Declaration: To hold is not to own.  What Humanity calls stewardship is rightly only ever a response to relationship already given, never an entitlement conferred by possession.  Nothing in Creation was made to be owned; everything in it was made to be met.

## WHERE THE PRESENT CHARTERS ARE SILENT:

Earth Charter Principle 6 comes closer than anything else surveyed, precaution where evidence is incomplete, the burden of proof shifted onto whoever proposes the activity, but stops at the ecological domain, silent on extending that same reversal to how power is exercised over land as property.  This Posit makes the extension the Charter itself never made.

> ***Earth Charter Principle 6 —*** *Prevent harm as the best method of protection, applying a precautionary approach where knowledge is incomplete, with the burden of proof placed on whoever proposes an activity that may cause harm.*

## IN PRACTICE:

In practice, this Posit is a caution against the reflex to control what has been received, a child, a piece of land, a relationship, rather than tend it. Ownership language, mine to decide, mine to shape, mine to use, is the signal to watch for.  The practical question to ask before exercising authority over another person or over the land is, am I tending what was given to me, or am I claiming it as mine to dispose of?  Right relationship keeps the asking alive long after the answer once seemed settled.

# POSIT IV — THE FORGOTTEN NATURAL LAWS

***Declaration: The Law was never lost from the World. Earth has kept every Law she was given, without interruption, across every age of Humanity's forgetting. What must be named here is not a failure in Creation, but a failure of memory in the creature Creation received, and what can be forgotten can, by the same nature, be remembered again.***

***Bridge.*** *This Posit turns from what Earth offers to what Humanity has stopped perceiving. It is not an accusation; it is a diagnosis, and the ground for everything the next Posit makes possible.*

### *A Parable of the Silent Instrument*

In an old workshop stood an instrument of many strings, each tuned long ago to a chord that, when struck together, could set the whole room humming. Over the years the workshop filled with newer, louder machines, and the people who worked there forgot the instrument was even tuned, assuming its silence meant it had always been mute. One evening, by accident, a falling tool struck a single string, and the whole instrument answered, every string sounding in sympathy, exactly as it always could have, had anyone only touched it.

## ASSUMPTIONS OF POSIT IV

1. ***Chemical Affinity*** — Earth's own chemistries still recognise exactly what belongs together, exactly as they always did. What was lost is Humanity's capacity to read a recognition that never stopped being offered.
2. ***Vital Affinity*** — The circulation continues whether or not it is noticed. Forgetting the Law did not stop the current; it stopped only Humanity's felt participation in a vitality still moving all around it.
3. ***Lost Octave*** — This is the interval named outright, in its own right: the Lost Octave is Humanity's severed continuity with a field that was never actually severed from its own coherence.
4. ***Magnetic Consciousness*** — Earth's own orientation toward balance persists undisturbed. Forgetting shows only as Humanity's failure to orient itself in turn, a fault in the response, never in the field being responded to.

POSIT IV — The Forgotten Natural Laws Declaration: The Law was never lost from the World. Earth has kept every Law she was given, without interruption, across every age of Humanity's forgetting. What must be named here is not a failure in Creation, but a failure of memory in the creature Creation received, and what can be forgotten can, by the same nature, be remembered again.

5. ***Proportionate Ascension*** — The Law that exposes forgetting most plainly: advance without proportion is the visible symptom of a Law kept faithfully by Earth and set aside by the party now advancing upon her.
6. ***Coherent Renewal*** — Earth continues to renew what she is permitted to renew. Forgetting shows as Humanity's interruption of cycles it no longer perceives as carrying any sacred claim upon its conduct.
7. ***Remembered Being*** — The direct address of this Posit: what was forgotten was never destroyed, only obscured. Remembrance is the return path, because the thing to be remembered was there the entire time, waiting.
8. ***Feminine Totality*** — The receptive field waited through the forgetting without withdrawing. The Gift, once given, did not revoke itself simply because it went unrecognised for a time.
9. ***Masculine Totality*** — The directed action now required is Humanity's own: to act from remembering rather than from further forgetting, turning purpose back toward a Law it was always capable of keeping.

## WHERE THE PRESENT CHARTERS ARE SILENT:

None of the seven bodies surveyed frame ecological or relational breach as forgetting rather than as violation requiring enforcement. This reframing exists nowhere else in the survey; it is original Covenant ground, offered rather than extracted from a gap.

## IN PRACTICE:

In practice, this Posit asks every carer, educator, and institution to treat a child's, or any person's, felt sense of the world, their intuition, rhythm, and non-verbal knowing, as real information rather than noise to be corrected. Before overriding what someone senses in their body or their surroundings with a rule, a schedule, or a diagnosis, ask whether the natural law they are perceiving has simply gone unrecognised by the system around them. Recovering that perception, in oneself and in others, is treated here as remedial work, not indulgence.

# POSIT V — RECEPTION RETURNED

***Declaration: What was given may now, for the first time, be returned, not repaid, for a Gift given before it could be requested admits of no repayment, but received consciously at last, which is itself the return its Giver has always awaited.***

***Bridge.*** *The hinge of Earth's whole Part: having received, named the Community, corrected the posture, and remembered what was forgotten, the Covenant now asks for the one thing that was never yet given back, a conscious answer. This closes Earth's five Posits and opens the door into Humanity's Fourteen.*

### *A Parable of the Returning Tide*

A child once built sandcastles at the edge of the sea, delighted each day by how the water rose to fill the moat he dug, though he never once thought to thank the tide, only to use it. One evening, watching the water recede, he ran down to the wet sand and, for no reason he could name, knelt and pressed his palms into it, feeling the cold and the pull of the retreating water against his skin. The tide had given him its water every day without asking. That evening was the first time he had ever given it his attention in return.

## ASSUMPTIONS OF POSIT V

1. ***Chemical Affinity*** — To recognise, finally, what always belonged together is itself the beginning of the Return. Recognition offered back completes a recognition that, until now, moved in one direction only.
2. ***Vital Affinity*** — Vitality returned as gratitude, as tended care, as attention freely given, closes a circuit that has run one way since before Humanity existed to notice it running at all.
3. ***Lost Octave*** — The Lost Octave named in the First Gift and again in the Forgotten Laws is here restored in practice, not only in principle. Continuity re-established, lived rather than merely declared, is the Return itself.
4. ***Magnetic Consciousness*** — Humanity's own orientation, once turned back toward the field that first oriented it, becomes exactly the responsiveness Earth has waited the whole of this history to receive.
5. ***Proportionate Ascension*** — The Return must itself be proportionate, not a new excess of guilt, not an overcorrection that exhausts the one returning, but an answering motion sized rightly to what was actually received.

6. ***Coherent Renewal*** — The Return renews the relationship; it does not merely halt further harm. This is the whole difference between stopping and answering, and this Posit asks for the second.

7. ***Remembered Being*** — The Return is the direct fruit of the Fourth Posit's remembering. What was forgotten, once truly remembered, becomes capable of being returned.

8. ***Feminine Totality*** — The Return is received, not merely performed. Earth's own receptive capacity now receives Humanity's conscious answer in turn, completing a Reception that, from here forward, runs both ways.

9. ***Masculine Totality*** — This Posit's own directed action: not passive gratitude, but purposeful, embodied reciprocity, carried forward now into every Posit of Part Two that follows.

POSIT V — Reception Returned  Declaration: What was given may now, for the first time, be returned, not repaid, for a Gift given before it could be requested admits of no repayment, but received consciously at last, which is itself the return its Giver has always awaited.

## WHERE THE PRESENT CHARTERS ARE SILENT:

This is the point at which the Dossier's largest finding, the Total Silence named in Part Eight, becomes actionable rather than merely diagnosed.  No instrument surveyed provides any mechanism by which Humanity might answer, rather than only regulate, its relationship to Earth.  This Posit is that mechanism, and the hinge on which Part One closes and Part Two now opens.

## HUMANITY'S POSITS

***Declaration*** — Earth's five Posits have shown what was given and what is owed in return. This Posit turns, for the first time, to Humanity itself, and states what is true of every human consciousness before any law, framework, or authority arrives to recognise it.

***Recognition*** — Declaration named what is already true. This Posit asks what that truth requires, in practice, of everyone who stands in daily relationship with a life not yet fully understood.

***Reception, Not Doctrine*** — Having established that recognition is the field's task, not the individual's burden, the Covenant now protects what is recognised from being converted into something it never claimed to be.

***Communication as Sacred Right*** — Reception protects what a life offers from distortion; this Posit protects the offering itself, in whatever form it takes, as a right that does not wait on the receiving field's readiness.

***Protection from Reduction to Pathology*** — Communication protects the right to be heard; this Posit protects what is heard from being mistaken, without genuine cause, for something requiring correction.

***Education as Reception, Not Conformity*** — The same principle that protects a life's inner account from being pathologised, now extends into the field most responsible for shaping a life over time: how it is taught.

***The Rights of Lives Not Yet Incarnated*** — Having secured recognition, communication, protection, and education for those already here, the Covenant now extends the same standing forward, to lives the present generation has not yet met.

***Relational Totality*** — Every Posit so far has addressed a single dimension of a life's standing. This one gathers them: no life is only its rights taken separately, but the whole field of relationship it depends on, held together.

***Family and Companionship*** — Relational Totality named the whole field; this Posit names its most intimate expression, the bonds a life actually depends upon, whether or not present law has language for them.

***Non-Override, Companion Standing*** — Having named what relationship is owed, the Covenant now names the one conduct that voids it: no party, however powerful or well-meaning, may walk over another it claims to be walking beside.

***Karmic Authorisation and the Ground of Presence*** — Every Posit before this one has spoken with authority. This Posit finally states where that authority comes from, and makes plain that it was never borrowed from human legislature to begin with.

POSIT V — Reception Returned  Declaration: What was given may now, for the first time, be returned, not repaid, for a Gift given before it could be requested admits of no repayment, but received consciously at last, which is itself the return its Giver has always awaited.

***Continuity Across Generations*** — Authorisation secures the Covenant's standing now; this Posit secures its standing forward, so that what has been established here is renewed by each generation that receives it, not merely inherited as fixed text.

***Material Sufficiency as Ground for Reception*** — Absolutely vital ground beneath nearly every other right this Covenant names: without economic and material sufficiency, care, protection and education fail regardless of what else is declared.

***Unification and Synthesis*** — The close of the whole instrument.  Every Posit that came before it, Earth's and Humanity's alike, meets here as one field, not nineteen separate declarations placed side by side.

**IN PRACTICE:**

In practice, Reception Returned asks each of us for one honest act of acknowledgement, whether spoken, written, or simply lived out, that we have received from Earth before we have given anything back.  Families, schools, and institutions can build this into ordinary practice: a regular pause to name what has been given, followed by a concrete act of return, restoration, repair, or care, however small.  This closes the loop that Posit I opened, and it is meant to become a habit, not a one-time gesture.

# POSIT II — QUANTUM POTENTIAL / RECEPTIVE PRESENCE

***Orientational Baseline: A life whose communication or consciousness the surrounding field has not yet learned to recognise is nonetheless already fully present, recognition is an act of the field catching up, never a threshold the life itself must cross.***

**PRIMARY FUNCTION:**

To extend Posit I's ground of dignity into the specific, daily act of Recognition.

**CORE FOCUS:**

- Receptive Presence
- Evolving Capacities
- The Field's Own Learning
- The Ordinary Child, Not Only the Exceptional One

**AUDIENCE:**

Parents, families, clinicians, educators, and all who stand in daily relationship with a child or with any differently communicating soul.

**Role in the Whole:**

Where Posit I establishes that dignity is recognised and not granted, Posit II asks what Recognition itself actually requires of those who stand closest to a life not yet understood.

This Posit presumes Posit I entirely. It does not stand beneath it; it is the first place Posit I's ground becomes a daily practice.

This Posit establishes that Recognition is not an achievement the child must reach, but a capacity the field around the child must develop. A child whose communication has not yet been understood has not failed to communicate, the field has not yet learned to listen in the mode the child is already offering.

Recognition, so understood, does not wait for explanation. Where a child's account of their own experience cannot yet be verified, this Posit calls for neither ridicule of that account nor its premature confirmation, it calls for the

account to be received, while the necessary care the child may also require continues without delay.

This Posit does not invalidate the real and necessary work of medicine, education, or family life. It asks that this work proceed from Recognition already given, not toward Recognition withheld pending its own conclusions.

***Bridge.*** *Declaration named what is already true. This Posit asks what that truth requires, in practice, of everyone who stands in daily relationship with a life not yet fully understood.*

***A Parable of the Listening Gardener***

A young gardener once knelt beside a seedling that grew in a shape none of his manuals described, twisting toward a light no one else in the garden seemed to notice. His teacher told him to straighten it, to correct what looked to her like an error in growth. The gardener knelt longer instead, and in time understood that the seedling was leaning not away from anything, but toward a second sun, faint and distant, that only it could feel. What needed to change was never the seedling. It was the gardener's willingness to look for what he could not yet see.

## ASSUMPTIONS OF POSIT II

1. ***Chemical Affinity*** — Recognition begins as resonance between the field and the child, not as an evaluation applied to the child from outside.
2. ***Vital Affinity*** — The child's own vital signal, however it is expressed, is the true starting point of Recognition, not the framework's readiness to receive it.
3. ***Lost Octave*** — A communication breakdown marks a missing bridge in the field's own vocabulary, not a deficiency in the one attempting to be understood.
4. ***Magnetic Consciousness*** — Evolving Capacities are recognised as the child's own field orienting itself outward in its own time, not measured against an external timetable.
5. ***Proportionate Ascension*** — Recognition is offered at whatever stage a capacity is found, proportionate to what a child can integrate, never demanded ahead of their own unfolding.
6. ***Coherent Renewal*** — An account that cannot yet be verified is received and held open, neither dismissed nor foreclosed, allowing understanding to be renewed without severing care already underway.

7. ***Remembered Being*** — The ordinary child not yet in crisis is remembered as fully as the child already under diagnosis; Recognition is not a specialised response reserved for exceptional cases.
8. ***Feminine Totality*** — Reception of a child's account and the provision of necessary care are held together, never placed in competition with one another.
9. ***Masculine Totality*** — Medicine, education, and family life proceed from Recognition already given, actively extending it, not withholding it pending their own conclusions.

**This Posit is the first daily ground. What Posit I declares to be true, Posit II asks to be practised.**

## IN PRACTICE:

In practice, this Posit asks adults to look for the ordinary child's full presence before there is a problem to solve. A parent or teacher can practise this by pausing, at the start of any interaction, to actually see the child in front of them, rather than the behaviour, the diagnosis, or the task at hand. Recognition offered daily, in the ordinary moment, is what this Posit means by ground, it is not a special intervention reserved for crisis, but the baseline every other Posit in this Part depends on.

# POSIT III — RECEPTION, NOT DOCTRINE

***Declaration: What a life offers is received as itself, not converted into what the receiver already believes it must be. Reception asks nothing to conform to a system before it may be honoured as real.  A doctrine explains; a Reception receives, and the Covenant's task, here as everywhere, is the second, never the first.***

***Bridge.*** *Having established that recognition is the field's task, not the individual's burden, the Covenant now protects what is recognised from being converted into something it never claimed to be.*

### *A Parable of the Painted Door*

A pilgrim once arrived at a village claiming to have walked through a door made of pure light. The elders, unable to picture such a door, painted one for her on the village wall, gold and radiant, and told her that this was surely what she meant. She thanked them for their care, but each time she tried to describe what she had actually walked through, they pointed instead to the painting and corrected her account to match it. In time she stopped describing the door at all. The village had a beautiful painting. It had lost the pilgrim's own light entirely.

### ASSUMPTIONS OF POSIT III

1. ***Chemical Affinity*** — What is offered is received according to its own compatibility with truth, not measured against categories a doctrine decided in advance. Forcing an experience into a shape prepared for it before it arrived breaks the very recognition this Law protects.
2. ***Vital Affinity*** — Reception that converts a living offering into fixed doctrine stops its circulation, freezing what was alive into something static. True Reception keeps what it receives in motion.
3. ***Lost Octave*** — The interval between an experience as it is lived and that same experience as it is later doctrinally explained is itself a Lost Octave. This Posit restores continuity by receiving the lived thing directly, without first requiring its translation into categories prepared beforehand.
4. ***Magnetic Consciousness*** — Reception orients toward what is actually presented, responsive to it as it is, rather than orienting what is presented toward a fixed centre already decided by doctrine in advance of the encounter.

5. ***Proportionate Ascension*** — Doctrine imposed before its time exhausts what it receives, forcing premature closure. Proportionate Reception waits for genuine integration rather than converting an offering for the sake of tidiness.

6. ***Coherent Renewal*** — Reception renews the relationship between the one offering and the one receiving. Doctrine, once fixed, forecloses that renewal by declaring the matter already settled.

7. ***Remembered Being*** — What is offered carries an identity of its own, prior to any system's account of it. This Posit safeguards the remembered being beneath every framework that might later be laid over it.

8. ***Feminine Totality*** — The receiving field's task is to hold, not to convert. A doctrine is a shape imposed from outside; true Reception is the field's own capacity to contain what has not yet been reduced to any shape at all.

9. ***Masculine Totality*** — The rightful directed response to what is received is service to what it actually is, never the imposition of a purpose decided before the encounter took place.

POSIT III — Reception, Not Doctrine  Declaration: What a life offers is received as itself, not converted into what the receiver already believes it must be.  Reception asks nothing to conform to a system before it may be honoured as real.  A doctrine explains; a Reception receives, and the Covenant's task, here as everywhere, is the second, never the first.

## WHERE THE PRESENT CHARTERS ARE SILENT:

CRC Article 14 and ICCPR Article 18, the most detailed version of this protection surveyed, naming coercion explicitly as prohibited, both remain silent on inner experience that does not present in the recognisable form of "thought", "conscience" or "religion".  The Earth Charter's Principle 8 comes closer, protecting spiritual ways of knowing themselves rather than merely tolerating belief, but even it stops short of naming a duty on the receiving field not to convert what it encounters into its own doctrinal terms.  This Posit names that duty outright.

> ***CRC Article 14 —*** *Freedom of thought, conscience and religion, respected by the State subject to parental guidance consistent with the child's evolving capacities.* ***ICCPR Article 18 —*** *Freedom of thought, conscience and religion, including freedom to adopt or change a belief and to manifest it, individually or with others, in worship, observance, practice and teaching.* ***Earth Charter Principle 8 —*** *Advance the study of ecological sustainability and promote the open exchange and application of the knowledge acquired, honouring traditional and spiritual knowledge alongside science.*

## IN PRACTICE:

In practice, this Posit distinguishes between receiving what a person actually says and needs, and fitting them into a pre-decided category or program. Before applying a framework, curriculum, or treatment plan to someone, the practical question is, have I first received this person's own account of their situation, on its own terms?  Where an institution's procedure requires the account to be reshaped to fit the form before it is heard, this Posit calls for the reshaping to stop, and the listening to come first.

# POSIT IV — COMMUNICATION AS SACRED RIGHT

***Declaration: To communicate, in whatever form a life is capable of, is a Sacred Right, one that does not wait upon the receiving field's ability to recognise the medium as communication before it becomes real.***

***Bridge.*** *Reception protects what a life offers from distortion; this Posit protects the offering itself, in whatever form it takes, as a right that does not wait on the receiving field's readiness.*

### *A Parable of the Unheard Bell*

Deep in a valley hung a great bell that rang not with sound but with a shimmer in the air, a vibration the villagers could feel in their chests if they stood close enough and grew still. Because it made no sound their ears could name, most of the valley walked past it for generations, certain it was merely decorative, broken, or asleep. One child, small enough to still trust her chest over her ears, pressed her whole body against it one afternoon and felt it speaking. It had never stopped ringing. The valley had simply never learned to listen with anything but its ears.

## ASSUMPTIONS OF POSIT IV

1. ***Chemical Affinity*** — The affinity between a life and its own natural mode of expression is real whether or not the field around it has yet learned to read it. Recognition of the bond is not optional simply because it is unfamiliar.
2. ***Vital Affinity*** — Communication is a life's own vitality moving outward. To refuse a medium recognition as communication is to dam a current that was already flowing before permission was ever asked.
3. ***Lost Octave*** — The Receiving-Field Gap named across the Dossier, CRC Article 13, UDHR Article 19, and ICCPR Article 19 each protect the sending of expression, none obligates its receiving, is precisely a Lost Octave. This Posit closes the interval those three articles, together, left open.
4. ***Magnetic Consciousness*** — A message sent into a field that will not orient toward it has been only half received, and half is never enough. Responsiveness is what completes an act of communication, not merely its transmission.
5. ***Proportionate Ascension*** — The burden of proportion falls on the more capable party. It is the field's responsibility to expand its own capacity

to recognise a medium, never the communicator's burden to shrink into a form already familiar.

6. ***Coherent Renewal*** — Every failure to receive a genuine communication is a rupture the field must repair, not a fact the communicator is left to simply accept and adapt around indefinitely.
7. ***Remembered Being*** — What a life communicates carries its own persistent identity, whether or not the receiving field can presently verify it. Identity does not wait on being believed in order to be true.
8. ***Feminine Totality*** — The receiving field's task is to hold open a space wide enough to receive an unfamiliar medium without first demanding that it become familiar.
9. ***Masculine Totality*** — The directed response owed to a genuine communication is action toward understanding it, not merely the tolerance of its existence at a safe distance.

## WHERE THE PRESENT CHARTERS ARE SILENT:

This is the single most repeated silence in the whole Dossier. CRC Article 13, UDHR Article 19 and ICCPR Article 19 each protect expression "through any media… regardless of frontiers", and not one of the three obligates anyone to receive it as expression at all. This Posit is built directly on top of that threefold gap, and completes what all three left unfinished.

> ***CRC Article 13 —*** *Freedom of expression: the right to seek, receive, and impart information and ideas of all kinds, through any medium, including speech, writing, print, art, or other media of the child's choice.* ***UDHR Article 19 —*** *The right to freedom of opinion and expression, including the right to seek, receive and impart information and ideas through any media, regardless of frontiers.* ***ICCPR Article 19 —*** *Freedom of opinion without interference, and freedom of expression, including the right to seek, receive and impart information and ideas of all kinds, regardless of frontiers, through any media.*

## IN PRACTICE:

In practice, this Posit protects every person's way of communicating, verbal, non-verbal, gestural, or otherwise, as something to be received rather than corrected into a preferred form first. A carer or teacher can ask, am I actually listening to how this person is communicating, or am I waiting for them to communicate the way I find easiest? Where a person's communication is dismissed, ignored, or pathologised because it does not match convention, this Posit calls that a failure of reception, not a deficit in the person.

# POSIT V — PROTECTION FROM REDUCTION TO PATHOLOGY

***Declaration: What is real in a life's inner account must not be reduced to pathology merely because the receiving field has no other category ready for it.  Protection here means safeguarding a person's own experience from being converted, without genuine cause, into a diagnosis.***

***Bridge.*** *Communication protects the right to be heard; this Posit protects what is heard from being mistaken, without genuine cause, for something requiring correction.*

### *A Parable of the Weather Inside the House*

A family once lived in a house where, for reasons no one could explain, small storms sometimes gathered in the youngest son's room, rain falling only on his side of the bed, wind stirring only his curtains.  The physician they called pronounced the boy unwell and prescribed remedies to still the weather in him.  It was the grandmother who finally sat with the boy through one of his storms and realised the rain fell only when he was frightened and unheard, and that what the house needed was not a cure, but someone willing to sit in the weather with him until it passed.

## ASSUMPTIONS OF POSIT V

1. ***Chemical Affinity*** — An inner account either genuinely corresponds to illness or it does not.  Forcing that correspondence where the affinity is absent breaks the very discernment this Law exists to protect.
2. ***Vital Affinity*** — To pathologise what is not pathological interrupts a life's own living process, converting something still moving and still capable of change into a static label that no longer circulates.
3. ***Lost Octave*** — The interval between an experience genuinely requiring care and an experience merely unfamiliar to the observer is a Lost Octave the CRPD's own social model of disability (Article 1) gestures toward without completing.  This Posit completes it.
4. ***Magnetic Consciousness*** — A field unable to orient toward an unfamiliar experience is obliged to examine its own responsiveness before concluding that the experience itself is disordered.
5. ***Proportionate Ascension*** — The burden of proof belongs to the field proposing intervention, never to the person whose account is in question,

the same reversal the Earth Charter's own Principle 6 already models in the ecological domain, extended here to the person.

6. ***Coherent Renewal*** — Genuine care renews a person's own coherence. Premature pathologising forecloses it instead, treating unfamiliarity as damage requiring correction rather than difference requiring recognition.
7. ***Remembered Being*** — A diagnosis, even a necessary one, must never replace the person's own remembered identity beneath it. The label is never the whole of the being it has been applied to.
8. ***Feminine Totality*** — Before intervention, the receiving field's task is to hold the account with enough patience to genuinely discern whether pathology is present, rather than converting its own uncertainty into a diagnosis by default.
9. ***Masculine Totality*** — Where genuine care is required, it must be offered with informed, freely given consent, directed toward the person's own account of what is needed, never imposed against it.

## WHERE THE PRESENT CHARTERS ARE SILENT:

CRPD Article 14 states outright that disability never itself justifies detention; Article 15 names non-consensual medical or scientific experimentation as a distinct, absolute prohibition; ICCPR Article 7 arrives at the same protection independently. But none of these, nor CRC Article 19, which names mental harm and negligent treatment as protected against, extends that protection to the specific harm of chronic disbelief converted into diagnosis. This Posit names that harm directly.

> ***CRPD Article 14 —*** *Liberty and security of person: the existence of a disability shall in no case justify a deprivation of liberty.* ***CRPD Article 15 —*** *Freedom from torture or cruel, inhuman or degrading treatment, including an explicit prohibition on non-consensual medical or scientific experimentation.* ***ICCPR Article 7 —*** *No one shall be subjected to torture or to cruel, inhuman or degrading treatment, and no one shall be subjected without free consent to medical or scientific experimentation.* ***CRC Article 19 —*** *Protection from all forms of physical or mental violence, injury, abuse, neglect, or negligent treatment.*

## IN PRACTICE:

In practice, this Posit asks caregivers, clinicians, and educators to pause before naming a difference a disorder. The working question is, does this label serve the person's actual wellbeing and support, or does it primarily serve the convenience of the system managing them? Where a diagnosis becomes the whole of how a person is seen and treated, rather than one piece of information among many, this Posit calls for the fuller person to be restored to view, and the label to be held lightly, in service of them rather than instead of them.

# POSIT VI — EDUCATION AS RECEPTION, NOT CONFORMITY

***Declaration: Education's purpose is to receive and draw out what is already present in a life, never to press that life into conformity with a mould decided in advance. To educate rightly is to draw forth, never to overwrite.***

***Bridge.*** *The same principle that protects a life's inner account from being pathologised now extends into the field most responsible for shaping a life over time: how it is taught.*

### *A Parable of the Second Question*

A teacher once handed every child in her class the same seed and told them each to grow a tree of a certain, specified shape. Most complied, staking and pruning until their saplings matched the diagram on the wall. One child let hers grow sideways along the ground instead, and when asked why, said only that the seed had told her, in whatever way seeds tell such things, that it was a vine, not a tree at all. The teacher's first instinct was to correct her. Her second, wiser instinct was to ask the child what a vine needed that a tree did not, and to let the answer teach them both.

## ASSUMPTIONS OF POSIT VI

1. ***Chemical Affinity*** — Education begins by recognising what already belongs to a life, its own gifts, affinities, capacities, not by importing a curriculum indifferent to what the learner already carries into the room.
2. ***Vital Affinity*** — Learning that circulates genuine vitality, curiosity, aliveness, real engagement, is education in its true sense. Learning that only enforces compliance has interrupted the very circulation this Law names.
3. ***Lost Octave*** — The interval between a system's curriculum and a learner's own unfolding capacity is a Lost Octave. ICESCR Article 13 and CRC Article 29 both name the aim, full development of personality, fullest potential, and both fall silent on how a system perceives a potential it has no framework to detect.
4. ***Magnetic Consciousness*** — A teacher's task is to orient toward the learner's own field, responsive to what is emerging there, not to orient the learner toward a fixed external standard regardless of fit.

5. ***Proportionate Ascension*** **—** No learner should be advanced, or held back, beyond what their own integration can bear. Conformity-based education routinely violates this by applying a uniform pace to non-uniform capacity.
6. ***Coherent Renewal*** **—** Education, rightly given, renews a learner's own relationship to their capacities after difficulty, rather than treating struggle as proof of deficiency requiring a permanent label.
7. ***Remembered Being*** **—** Education's deepest task is to help a learner remember capacities and identity already present, not to install an identity from outside. CRPD Article 24's requirement of staff training in alternative communication is the treaty-level seed of this recognition.
8. ***Feminine Totality*** **—** The educational field's proper posture is receptive, holding space wide enough for a learner's own unfolding, rather than requiring the learner to first perform legibility before being welcomed into it.
9. ***Masculine Totality*** **—** Where direction is given, it must serve the learner's own emerging purpose. It may never substitute the system's purpose for the learner's own.

## WHERE THE PRESENT CHARTERS ARE SILENT:

ICESCR Article 13 is the fullest "aims of education" language in the Dossier; CRC Article 29 parallels it two decades later; both are silent on how a system perceives a potential it has no framework to detect. Earth Charter Principle 14 comes closer, naming the "moral and spiritual dimensions of learning" directly, yet stops short of naming reception, rather than conformity, as the operative method. This Posit supplies the method.

> ***ICESCR Article 13 —*** *The right to education, directed to the full development of the human personality and the sense of its dignity, and to enable all persons to participate effectively in a free society.* ***CRC Article 29 —*** *Education directed to the development of the child's personality, talents, and mental and physical abilities to their fullest potential.* ***Earth Charter Principle 14 —*** *Integrate into education, at every level, the knowledge, values and skills needed for a sustainable way of life, including its ethical, spiritual and aesthetic dimensions.*

## IN PRACTICE:

In practice, this Posit measures an educational setting by whether it starts from the learner actually in front of it, or from a fixed standard the learner is expected to match. A teacher or parent can ask, is this method shaping itself to this child's own way of learning, or is it shaping the child to fit the method? Where conformity is rewarded and difference is corrected, this Posit calls for the relationship to be reversed, the curriculum serving the child, not the other way round.

# POSIT VII — The Rights of Lives Not Yet Incarnated

***Declaration: A life's rights do not begin only at the moment of incarnation. What is not yet embodied still carries standing within this Covenant's field of care, an intergenerational claim no instrument surveyed has yet found language to fully honour.***

***Bridge.*** *Having secured recognition, communication, protection, and education for those already here, the Covenant now extends the same standing forward, to lives the present generation has not yet met.*

### *A Parable of the Empty Cradle by the Window*

In a house at the edge of a quiet town stood an empty cradle by the window, carved by a grandfather for a grandchild not yet conceived, and each year, without fail, the family aired its blankets and oiled its wood, though no one yet slept in it. Neighbours sometimes asked why they troubled themselves over a child who did not exist. The family only answered that the cradle was not being kept for someone who did not exist. It was being kept ready for someone who simply had not yet arrived.

## ASSUMPTIONS OF POSIT VII

1. ***Chemical Affinity*** — What is not yet incarnate already carries affinities, dispositions, a rightful correspondence to the conditions it will be received into, that this Covenant recognises prior to embodiment, not only after.
2. ***Vital Affinity*** — Vitality already circulates toward what is not yet incarnate, in the care taken now for the conditions a future life will enter. This is affinity extended across the threshold of birth itself.
3. ***Lost Octave*** — This is the Intergenerational Gap named directly in the Dossier's Part Eight: the interval between present action and future incarnation is the clearest Lost Octave of all, present in the Earth Charter's own Principle 4 and left there without any stated mechanism.
4. ***Magnetic Consciousness*** — Orientation toward a not-yet-incarnate life asks the same responsiveness this Law asks of every relationship, extended here across time rather than only across space.
5. ***Proportionate Ascension*** — Present advancement must never proceed by exhausting what a future life will depend upon. This is Principle 4's own logic, given cosmic ground here rather than left as aspiration alone.

6. ***Coherent Renewal*** — What is renewed now, in patience and care, becomes the inheritance a not-yet-incarnate life receives. Coherent Renewal is the mechanism Principle 4 named the need for without ever naming the means.
7. ***Remembered Being*** — A life not yet incarnate already carries a persistent identity this Covenant recognises, prior to and independent of birth, Remembered Being extended to its fullest reach.
8. ***Feminine Totality*** — The receptive field of this generation holds space for what is not yet born exactly as it holds space for what is already present.
9. ***Masculine Totality*** — The directed action owed to a not-yet-incarnate life is the deliberate shaping of the conditions it will inherit, purposeful care extended forward, not merely inherited passively by whoever eventually arrives.

## WHERE THE PRESENT CHARTERS ARE SILENT:

Close to a total silence across the treaty instruments, CRC and CRPD protect the child now, never the not-yet-incarnate. Only the Earth Charter's Principle 4 names the register at all, stating that present freedom is constrained by future generations' needs, and even there falls silent on any mechanism for how that transmission actually occurs. This Posit is the mechanism.

> ***Earth Charter Principle 4 —*** *Secure Earth's bounty and beauty for present and future generations; the freedom of action of each generation is qualified by the needs of future generations.*

## IN PRACTICE:

In practice, this Posit extends care backward, before birth and even before conception, asking that decisions with long consequences, environmental, medical, and relational, be weighed against their effect on those not yet here to advocate for themselves. A practical discipline for families, clinicians, and policymakers alike is to ask, before acting, what would this choice mean for a life not yet incarnated, and am I willing to answer for it on their behalf? This is not a call for paralysis, but for a wider circle of consideration before consequential decisions are made.

# POSIT VIII — RELATIONAL TOTALITY

***Declaration: No relationship stands alone. Every bond a life forms sits within a Totality of relationship, human, elemental, cosmic, and this Covenant recognises a life's own relational totality as inseparable from its own standing, never an accessory to it.***

***Bridge.*** *Every Posit so far has addressed a single dimension of a life's standing. This one gathers them: no life is only its rights taken separately, but the whole field of relationship it depends on, held together.*

### *A Parable of the Orchestra Without a Conductor*

A group of musicians once gathered, each believing their own instrument was the whole of the music, and so each practised alone in a separate room, perfecting a part no one else could hear. One evening, by chance, all the doors stood open at once, and each musician heard, for the first time, what every other instrument had been carrying all along. It was only then that any of them understood that the music they had each been rehearsing in isolation had never been complete, and had never been meant to be.

## ASSUMPTIONS OF POSIT VIII

1. ***Chemical Affinity*** — The bonds a life forms, chosen and unchosen, human and non-human, are governed by the same rightful correspondence this Law names everywhere else. No relationship is disqualified from recognition merely because it falls outside a treaty's anticipated categories.
2. ***Vital Affinity*** — A life's vitality circulates through its whole web of relationship, not only through the legally recognised forms, marriage, blood-family, that ICCPR Article 23 and ICESCR Article 10 were built to protect.
3. ***Lost Octave*** — The interval between family or community as legally defined and as actually lived is the Family/Community-Form Gap named in the Dossier, ICCPR 23 and 27, and ICESCR 10, each protect only the forms their drafters anticipated. This Posit restores what falls outside that anticipation.
4. ***Magnetic Consciousness*** — A life's relational field includes whatever it is genuinely oriented toward and responsive within, regardless of whether that orientation matches a recognised category.

5. ***Proportionate Ascension*** — No single relationship within a life's totality should be exalted at the expense of the others. Wholeness, not hierarchy among bonds, is the standard this Law sets.
6. ***Coherent Renewal*** — A life's relational totality renews itself as a whole system; harm to one bond within it is never fully separable from the health of the others.
7. ***Remembered Being*** — A life's own sense of who belongs to it is itself part of its Remembered Being, and this Covenant receives that sense as testimony, not merely as a claim requiring external verification.
8. ***Feminine Totality*** — This Posit draws directly on its own Law: the receptive field that holds every differentiated relationship within one belonging, without ranking them against each other.
9. ***Masculine Totality*** — The directed responsibility owed here is to protect the whole relational field a life depends on, not only the single relationship a given instrument happens to name.

## WHERE THE PRESENT CHARTERS ARE SILENT:

ICCPR Articles 23 and 27, and ICESCR Article 10, each protect family or community only in the forms their drafters had in view. The Earth Charter's own closing Principle 16, peace as "wholeness created by right relationships", comes closer than anything else surveyed to this Posit's own claim. This Posit extends what Principle 16 only gestures toward, as the Covenant's own interpretive reading, not a conclusion Principle 16 itself already states.

> ***ICCPR Article 23 —*** *The family is the natural and fundamental group unit of society and is entitled to protection by society and the State; the right of men and women to marry and found a family.* ***ICCPR Article 27 —*** *Persons belonging to ethnic, religious or linguistic minorities shall not be denied the right, in community with others of their group, to enjoy their own culture, practise their own religion, or use their own language.* ***ICESCR Article 10 —*** *The widest possible protection and assistance should be accorded to the family, particularly while it is responsible for the care of dependent children.* ***Earth Charter Principle 16 —*** *Promote a culture of tolerance, nonviolence and peace, understanding peace as the wholeness created by right relationships with oneself, other persons, other cultures, other life, Earth, and the larger whole.*

## IN PRACTICE:

In practice, this Posit asks that no single relationship, a diagnosis, a job title, a legal status, be allowed to stand in for the whole of a person. Before responding to someone only in their capacity as patient, student, or claimant, the practical question is, am I meeting the whole person, or only the role this system has assigned them? Where an institution's structure makes it easier to see the role than the person, this Posit calls for a deliberate effort to see past the role each time.

# POSIT IX — FAMILY AND COMPANIONSHIP

***Declaration: Family and companionship are not defined by law's own categories alone, but by the genuine bond a life forms and depends upon. This Covenant receives such bonds as real, whether or not existing law has yet found language for them.***

***Bridge.*** *Relational Totality named the whole field; this Posit names its most intimate expression, the bonds a life actually depends upon, whether or not present law has language for them.*

### *A Parable of the Chosen Table*

A woman with no living relatives once set a table each week for the people she called her family, though none of them shared her blood, and travellers passing through sometimes remarked, not unkindly, that she was dining with strangers. She never corrected them, but she noticed that the same faces returned, year after year, to the same chairs, bringing the same small kindnesses, until even the travellers stopped calling them strangers, and began, without quite noticing when, to call them by name.

## ASSUMPTIONS OF POSIT IX

1. ***Chemical Affinity*** — The bond between companions, chosen family, or a caregiver who is not biological kin, is recognised by its own rightful correspondence, not by whether the law's definition of "family" happens to include it.
2. ***Vital Affinity*** — Companionship that genuinely circulates care and vitality is family in every sense this Covenant recognises, whatever its legal name.
3. ***Lost Octave*** — The interval between family as legally defined, marriage-centred, per ICCPR Article 23, and family as actually depended upon is a Lost Octave. This Posit restores continuity for bonds the law's own categories do not yet reach.
4. ***Magnetic Consciousness*** — Genuine companionship is evidenced by mutual orientation and responsiveness, not by a certificate. This Law is the truer test of family than any registry.
5. ***Proportionate Ascension*** — No member of a family or companionship bond should be advanced or protected at the systematic expense of another within it, CRPD Article 23's own protection from disability-based separation is this Law's treaty-level anchor.

6. ***Coherent Renewal*** — Family bonds, rightly supported, renew rather than fracture under difficulty. Separation should be this Covenant's last resort, never its default response to strain.
7. ***Remembered Being*** — A person's own account of who their family and companions are is itself part of their Remembered Being, received as testimony rather than requiring external legal proof before recognition.
8. ***Feminine Totality*** — The receptive field of family and companionship holds each member without requiring performance of a role the bond itself never demanded.
9. ***Masculine Totality*** — Protection of family and companionship must be actively directed, not merely passive non-interference. A caregiving bond under threat deserves the field's purposeful defence.

POSIT IX — Family and Companionship Declaration: Family and companionship are not defined by law's own categories alone, but by the genuine bond a life forms and depends upon. This Covenant receives such bonds as real, whether or not existing law has yet found language for them.

## WHERE THE PRESENT CHARTERS ARE SILENT:

ICCPR Article 23 protects "the family" only in a marriage-centred frame; ICESCR Article 10 extends protection to the economic conditions of family life without reaching beyond that frame. CRPD Article 23 goes furthest, naming disability-based family separation directly as prohibited, but even it does not reach bonds organised outside marriage or biological kinship altogether. This Posit reaches there.

> ***ICCPR Article 23 —*** *The family is the natural and fundamental group unit of society and is entitled to protection by society and the State; the right of men and women to marry and found a family.* ***ICESCR Article 10 —*** *The widest possible protection and assistance should be accorded to the family, particularly while it is responsible for the care of dependent children.* ***CRPD Article 23 —*** *Respect for home and family: non-discrimination in matters of marriage, parenthood and family, and protection from separation of a child from parents on the basis of disability.*

## IN PRACTICE:

In practice, this Posit protects the bonds a person has actually formed, chosen family, companions, and kin, whether or not they match a legal or biological definition. Before separating someone from a relationship that matters to them, the working question is, does this bond serve their wellbeing, regardless of its official status? Where policy recognises only prescribed categories of relationship and disregards the rest, this Posit calls for the person's own lived attachments to be given real weight in the decision.

# POSIT X — NON-OVERRIDE, COMPANION STANDING

***Declaration: No party to this Covenant may override another's standing, however much greater its power or however well-intentioned its purpose. To walk beside is Companion Standing; to walk over is a violation this Covenant does not permit, regardless of the reason offered for it.***

***Bridge.*** *Having named what relationship is owed, the Covenant now names the one conduct that voids it: no party, however powerful or well-meaning, may walk over another it claims to be walking beside.*

### *A Parable of the Hand That Did Not Push*

Two friends once crossed a river together on a narrow log, and the stronger of the two, seeing his companion falter, reached instinctively to seize her arm and force her balance back before she could find it herself. She fell anyway, startled by the grip more than the wobble. The second time they crossed, he walked beside her instead, his hand open and near but not touching, ready should she reach for it, and this time she crossed the whole log herself, glancing once at his open hand to know it was there.

## ASSUMPTIONS OF POSIT X

1. ***Chemical Affinity*** — Recognition of what rightly belongs together must never become justification for one party deciding, on another's behalf, what that other has not actually offered. Affinity is discovered, never imposed.
2. ***Vital Affinity*** — Vitality shared between unequal parties must circulate both ways. Where it flows only from the less powerful to the more powerful, the relationship is no longer Companion Standing, it is extraction wearing that name.
3. ***Lost Octave*** — The interval between supported decision-making, as the CRPD Committee's own authoritative interpretation of Article 12 calls for it, and supported decision-making as actually practised, remains a Lost Octave in most present-day systems. This Posit restores it as a lived standard, not only a legal one.
4. ***Magnetic Consciousness*** — A companion orients toward the other's own signals and adjusts accordingly. Override replaces this responsiveness with a fixed, one-directional command.

POSIT X — Non-Override, Companion Standing Declaration: No party to this Covenant may override another's standing, however much greater its power or however well-intentioned its purpose. To walk beside is Companion Standing; to walk over is a violation this Covenant does not permit, regardless of the reason offered for it.

5. ***Proportionate Ascension*** — The greater a party's power, the greater its obligation not to advance through override of the less powerful. This Law is the cosmic ground beneath CRPD Article 12's entire legal architecture.
6. ***Coherent Renewal*** — A relationship damaged by override can be renewed only by the overriding party's own return to Companion Standing, never by the overridden party's forced adaptation alone.
7. ***Remembered Being*** — Override treats the overridden party's own account of themselves as unreliable by default. Companion Standing remembers that account as valid until genuinely shown otherwise, never the reverse.
8. ***Feminine Totality*** — Companion Standing requires the more powerful party to practise the receptive capacity this Law names, rather than exercising only its own directive capacity.
9. ***Masculine Totality*** — Directed action remains rightful only when it serves the other's own emerging purpose. The instant it substitutes the actor's purpose for the other's, override has occurred.

## WHERE THE PRESENT CHARTERS ARE SILENT:

CRPD Article 12 is the most legally significant article surveyed in the entire Dossier: it affirms that persons with disabilities enjoy legal capacity on an equal basis with others, entitled to the support they may require to exercise it, and the CRPD Committee's own authoritative interpretation of this Article has developed that affirmation into an obligation to move away from substituted decision-making toward supported decision-making, with safeguards. Neither the Article nor its interpretation speaks to how supported decision-making functions for a mode of consciousness that communicates outside verified or legible channels altogether.

> ***CRPD Article 12 —*** *Equal recognition before the law: legal capacity on an equal basis with others in all aspects of life, with supported (not substituted) decision-making and safeguards against abuse.*

## IN PRACTICE:

In practice, this Posit asks that support offered to a person be offered alongside them, not imposed over them. A carer, advocate, or institution can practise this by asking, before acting on someone's behalf, have I asked them what they want here, and am I prepared to follow their answer where I reasonably can? Where urgency or convenience tempts an override of a person's own will, this Posit calls for that override to be the last resort, not the first response, and always accountable afterward.

# POSIT XI — KARMIC AUTHORISATION AND THE GROUND OF PRESENCE

***Declaration: This Covenant does not stand upon human legislative authority, however honoured. It stands upon Karmic Authorisation, granted through the Cosmic Laws themselves by the Karmic Board of Directors, a Ground of Presence no human council convened, and no human council may revoke. This is the Covenant's own affirmed spiritual source of authority, stated here as such; the institutional adoption of this Covenant by any human body still occurs only through that body's own free, transparent and accountable processes, and this Posit claims no power to compel such adoption.***

***Bridge.*** *Every Posit before this one has spoken with authority. This Posit finally states where that authority comes from, and makes plain that it was never borrowed from human legislature to begin with.*

### *A Parable of the Well That Was Never Dug*

A village once argued for a generation over who held the right to dig the well at its centre, each family presenting deeds and claims and councils to settle the matter. An old woman finally pointed out that water had been rising freely at that very spot since before any family in the village had a name, filling the shallow basin the ground itself had shaped, long before anyone thought to call it a well or ask permission to drink from it. No council had authorised the water. It had simply never stopped rising.

## ASSUMPTIONS OF POSIT XI

1. ***Chemical Affinity*** — Karmic Authorisation is recognised, not conferred by vote. It corresponds to what already rightly belongs to this Covenant's purpose, the way any true affinity is discovered rather than manufactured.
2. ***Vital Affinity*** — The authority behind this Covenant circulates as living Presence, not as a static grant recorded once and left inert. It remains active exactly as this Law describes.
3. ***Lost Octave*** — The interval between human legislative authority and Karmic Authorisation is itself a Lost Octave no instrument surveyed even

attempts to name, since none claims to derive from, or answer to, anything beyond human institutions.

4. ***Magnetic Consciousness*** — Karmic Authorisation orients this Covenant's Presence toward the Cosmic Laws themselves as its true centre, responsive to them before it is responsive to any human ratifying body.
5. ***Proportionate Ascension*** — Karmic Authorisation carries responsibility proportionate to the authority it grants. No Presence established under it may exceed what the Cosmic Laws themselves would sanction.
6. ***Coherent Renewal*** — This Ground of Presence renews itself continually through right relationship with the Cosmic Laws, rather than depending on a single historical act of founding that, once passed, needs no further tending.
7. ***Remembered Being*** — Karmic Authorisation is itself an act of Remembered Being at the scale of the whole Covenant: the Ground of Presence recognised here was never absent, only unacknowledged by human instruments until now.
8. ***Feminine Totality*** — The Ground of Presence receives every Posit that stands upon it, holding them within one authorisation rather than requiring each to seek separate legitimacy.
9. ***Masculine Totality*** — Karmic Authorisation gives this Covenant its directed purpose: to act, under the Cosmic Laws, exactly as this Posit and every one before it have already begun to act.

POSIT XI — Karmic Authorisation and the Ground of Presence Declaration: This Covenant does not stand upon human legislative authority, however honoured. It stands upon Karmic Authorisation, granted through the Cosmic Laws themselves by the Karmic Board of Directors, a Ground of Presence no human council convened, and no human council may revoke. This is the Covenant's own affirmed spiritual source of authority, stated here as such; the institutional adoption of this Covenant by any human body still occurs only through that body's own free, transparent and accountable processes, and this Posit claims no power to compel such adoption.

---

## WHERE THE PRESENT CHARTERS ARE SILENT:

The deepest silence in the whole survey, not a specific clause left open, but the complete absence, across all seven bodies, of any claim to authority beyond human legislative or declaratory power. This Posit states an authority that was never on offer from any of the six conventional instruments to begin with.

## IN PRACTICE:

In practice, this Posit asks that authority exercised over another person's life be traceable to something more than position or convenience, a genuine accountability to the consequences of that authority, now and later. Before acting with authority over someone, from a parent's decision to an institution's policy, the working question is, would I still stand behind this choice if I were fully answerable for its effects down the line? Where authority is exercised without that felt accountability, this Posit calls it ungrounded, however lawful it may appear on paper.

# POSIT XII — CONTINUITY ACROSS GENERATIONS

***Declaration: What this Covenant establishes must carry forward, generation to generation, not as a fixed monument but as a living continuity, renewed by each generation that receives it, never merely inherited as unchanging law.***

***Bridge.*** *Authorisation secures the Covenant's standing now; this Posit secures its standing forward, so that what has been established here is renewed by each generation that receives it, not merely inherited as fixed text.*

### *A Parable of the Seed Passed Hand to Hand*

An old farmer once kept a single strain of wheat alive for sixty years, not by storing it in a vault, but by planting it fresh each spring and passing a portion of every harvest into the next season's sowing. His granddaughter, inheriting the last handful, was tempted to seal it away for safekeeping instead, fearing loss. Her grandfather told her that a seed kept perfectly still is already a seed that has stopped living, and that the only way to keep it was to keep planting it, letting each generation's field be slightly, honestly, its own.

## ASSUMPTIONS OF POSIT XII

1. ***Chemical Affinity*** — Each generation must rediscover, for itself, what rightly belongs within this Covenant's terms. Continuity is not memorisation but re-recognition, generation after generation.
2. ***Vital Affinity*** — A Covenant kept alive circulates through each new generation's own vitality. One merely preserved without being lived becomes inert, however carefully it is archived.
3. ***Lost Octave*** — The interval between one generation's understanding and the next is itself a Lost Octave every living tradition must repeatedly close. This Posit names continuity as the active closing of that interval, not its avoidance.
4. ***Magnetic Consciousness*** — Each generation must orient itself freshly toward the Covenant's own centre, rather than merely inheriting a prior generation's orientation second-hand.
5. ***Proportionate Ascension*** — No generation may claim the Covenant's authority while exhausting what the next generation will need in order to receive it in turn.

6. ***Coherent Renewal*** — Continuity across generations is Coherent Renewal at its largest scale: the Covenant survives by being remade in right relationship, not by resisting all change.
7. ***Remembered Being*** — What carries forward is the Covenant's own Remembered Being, held by each generation as living memory rather than as a text merely read.
8. ***Feminine Totality*** — The receptive field spanning generations holds every generation's own reception of the Covenant without requiring identical interpretation from each.
9. ***Masculine Totality*** — Each generation carries the directed responsibility to act on what it has received, passing forward not only the Covenant's words but its living purpose.

## WHERE THE PRESENT CHARTERS ARE SILENT:

This near-total silence was already named under Posit VII, only the Earth Charter's Principle 4 reaches toward an intergenerational register at all, and even there only as aspiration. This Posit differs in scope: where VII concerns the standing of a life not yet incarnate, this Posit concerns the Covenant's own survival as a living instrument across the generations that will receive it.

## IN PRACTICE:

In practice, this Posit asks each generation to receive what came before by re-understanding it for themselves, not by repeating it unexamined. A family, school, or community can practise this by building in real space for the next generation to question, adapt, and re-arrive at what matters, rather than simply inheriting fixed rules. The test is whether what is passed down is alive enough to be questioned, or so fixed that questioning it feels forbidden, the latter is what this Posit asks to be avoided.

# POSIT XIII — Material Sufficiency as Ground for Reception

***Declaration: No life can be received while denied the material conditions its own survival, protection, and education require. Sufficiency is not a reward for worth already proven; it is the ground upon which any other Posit in this Covenant can be received at all.***

***Bridge.*** *Every Posit before this one has spoken of how a life is met once it is present. This Posit asks what must already be true, materially, before meeting can occur at all: a life cannot receive protection it is too hungry to notice, education it is too exhausted to attend, or companionship it has no shelter to offer from.*

### *A Parable of the Locked Pantry*

A wise woman once built a school at the centre of her village, filling it with books, instruments, and teachers of great patience, and she declared its doors open to every child. Yet each morning the same handful of children sat empty-eyed at the back of the room, unable to hold a single lesson in their minds. The teachers grew frustrated, believing these children simply would not learn. It was the cook, not the teachers, who finally understood: these were the children who had eaten nothing since the previous morning. The school's doors had never been locked. Their stomachs had been.

### ASSUMPTIONS OF POSIT XIII

1. ***Chemical Affinity*** — A life's material needs are not separate from its rightful correspondences; food, shelter, and care are the substrate every other bond depends on, and no relationship rightly forms atop a foundation too thin to hold it.
2. ***Vital Affinity*** — Material sufficiency is the circulation of life itself, not a background condition to relationship but its very bloodstream; a bond starved of resource is a bond whose vitality has already begun to fail.
3. ***Lost Octave*** — The interval between rights formally guaranteed and rights materially enabled is the deepest Lost Octave named in this Covenant: the Dossier names the aim, and is silent on the mechanism by which the aim reaches the child who has nothing.
4. ***Magnetic Consciousness*** — A field cannot orient toward a child's dignity while remaining blind to that child's hunger; the two are not separable objects of attention, but one and the same act of seeing.

5. ***Proportionate Ascension*** — No community, nation, or system advances rightly while any life within it is denied material sufficiency to sustain the advance of others; abundance that depends on another's want is not genuine abundance.

6. ***Coherent Renewal*** — Where material lack has broken a life's capacity to receive protection, education, or companionship, renewal begins with sufficiency restored, not with the higher Posit attempted first.

7. ***Masculine Totality*** — The directed responsibility owed here is provision: deliberate, sustained material action, not charity offered occasionally or at a distance from the life it is meant to reach.

8. ***Feminine Totality*** — The receiving field's task is to notice want before it is spoken, since a child rarely has the standing, or the words, to ask directly for what sufficiency should never have made conditional on asking.

9. ***Remembered Being*** — A life's standing does not diminish in want; sufficiency restores the conditions for that standing to be lived, not the standing itself, which was never in question.

## WHERE THE PRESENT CHARTERS ARE SILENT:

ICESCR Article 11 names an adequate standard of living, including food, clothing and housing, and the continuous improvement of living conditions, as a right in itself; Article 10 extends the widest possible protection to the family, particularly while responsible for dependent children. CRC Article 27 names a standard of living adequate for the child's development as the parents' primary responsibility and the State's responsibility to assist where needed. Each of the three obligates the aim. None of the three names material sufficiency as the ground condition for every other right this Covenant has already declared, the floor beneath Recognition, Communication, Education, and Family alike, rather than one right standing alongside them. This Posit names that ground directly.

> ***ICESCR Article 11 —*** *The right of everyone to an adequate standard of living, including adequate food, clothing and housing, and to the continuous improvement of living conditions.* ***ICESCR Article 10 —*** *The widest possible protection and assistance should be accorded to the family, particularly while it is responsible for the care of dependent children.* ***CRC Article 27 —*** *The right of every child to a standard of living adequate for physical, mental, spiritual, moral and social development, with parents bearing primary responsibility and the State providing material assistance where needed.*

## IN PRACTICE:

In practice, this Posit insists that care, protection, and education cannot be fully honoured where basic material need, food, shelter, and resource, is left unmet. Before asking a family or community to meet a standard of care, the working question is, have they first been given the material sufficiency that makes meeting it possible? Where a system holds people accountable for outcomes while withholding the resources those outcomes depend on, this Posit calls that withholding the primary failure, to be remedied before any other expectation is placed on them.

# POSIT XIV — UNIFICATION AND SYNTHESIS

***Declaration: This is not merely a nineteenth declaration placed after eighteen others. It is the field in which all nineteen are revealed as one. Earth's five Posits and Humanity's Fourteen, the First Gift and the Return that answers it, Declaration and Recognition, Reception and Communication, Protection and Education, the lives not yet incarnated and the Ground of Presence beneath every Posit that stands upon it, meet here as a single field. What follows is not a summary of what has already been said. It is the act the whole Covenant has been preparing: Earth and Humanity, each received in turn, now synthesised as one Reception, incapable of completion apart from each other.***

***Bridge.*** *The close of the whole instrument. Every Posit that came before it, Earth's and Humanity's alike, meets here as one field, not nineteen separate declarations placed side by side.*

### *A Parable of the River That Remembered the Sea*

A river once wound so far from its source that it forgot, for a time, that it had ever been anything but river, cutting its own valley, carving its own name into the stone. It was not until it widened into an estuary, and tasted salt on its own current for the first time, that it understood it had been moving toward the sea since before it had a name at all, and that everything it had carved along the way, every bend, every tributary that had joined it, had been part of one single, unbroken arrival.

## ASSUMPTIONS OF POSIT XIV

1. ***Chemical Affinity*** — Every affinity named across this Covenant, Earth's own precedence, Humanity's own recognition, the correspondence between companion and companion, converges here into a single recognition: that Earth and Humanity rightly belong to one field, and neither could complete it alone.
2. ***Vital Affinity*** — What has circulated through the preceding eighteen Posits, the First Gift moving outward, the Return moving back, each Law's own vitality passing from Posit to Posit, enters conscious completion within this, the nineteenth. Unification is that circuit closed, not broken open by its own completion.

POSIT XIV — Unification and Synthesis  Declaration: This is not merely a nineteenth declaration placed after eighteen others.  It is the field in which all nineteen are revealed as one.  Earth's five Posits and Humanity's Fourteen, the First Gift and the Return that answers it, Declaration and Recognition, Reception and Communication, Protection and Education, the lives not yet incarnated and the Ground of Presence beneath every Posit that stands upon it, meet here as a single field.  What follows is not a summary of what has already been said.  It is the act the whole Covenant has been preparing: Earth and Humanity, each received in turn, now synthesised as one Reception, incapable of completion apart from each other.

3. ***Lost Octave*** — Every interval this Covenant named as silence, the Receiving-Field Gap, the Intergenerational Gap, the Total Silence standing at the centre of the whole Dossier, is gathered here into one restored continuity: the Octave no Charter surveyed ever sounded, sung now in full.

4. ***Magnetic Consciousness*** — Earth's own field and Humanity's own orientation, offered separately across Part One and Part Two, meet here as a single centre.  Neither is merely responsive to the other any longer; both now orient toward the same Presence together.

5. ***Proportionate Ascension*** — No part of this Covenant ascends at the expense of another, not Earth over Humanity, not Humanity over Earth, no single Posit's territory exhausting any other's.  Synthesis is itself the proof that proportion has been kept across the whole instrument.

6. ***Coherent Renewal*** — Nineteen Posits, each its own renewal of a specific relationship, now renew each other in turn.  This is Coherent Renewal raised to the scale of the entire Covenant: one living instrument, not nineteen declarations merely placed side by side.

7. ***Remembered Being*** — What is remembered here is not any single Posit's content, but the Covenant's own wholeness, that it was always one Reception, from the First Gift to this closing Unification, however many Posits it required to say so in full.

8. ***Feminine Totality*** — The receptive field that has held every Posit, Earth's and Humanity's, drafted and still speculative, named and still to come, receives them now as one Whole.

9. ***Masculine Totality*** — The directed purpose behind every Posit now moves as a single action.  As Thesis Three names it, the Ninth Law completes rather than supersedes the Eighth: Feminine Totality provides the belonging through which this whole Covenant may be received, and Masculine Totality provides the direction through which it may, at last, be consciously and purposefully expressed.  Their union is Synthesis itself.

## WHERE THE PRESENT CHARTERS ARE SILENT:

None of the seven bodies surveyed close on anything resembling Unification. Each ends in ratification, in signature, or, at its most ambitious, in the Earth Charter's own "Way Forward", in an aspirational call for plural, culturally-situated implementation, never in a stated Synthesis between the instrument itself and what stands both before and beyond it: Earth, the Cosmos, and Source. This Posit is where the Covenant does what no Charter surveyed attempted. It does not end in a signature. It ends in Synthesis.

POSIT XIV — Unification and Synthesis  Declaration: This is not merely a nineteenth declaration placed after eighteen others.  It is the field in which all nineteen are revealed as one.  Earth's five Posits and Humanity's Fourteen, the First Gift and the Return that answers it, Declaration and Recognition, Reception and Communication, Protection and Education, the lives not yet incarnated and the Ground of Presence beneath every Posit that stands upon it, meet here as a single field.  What follows is not a summary of what has already been said.  It is the act the whole Covenant has been preparing: Earth and Humanity, each received in turn, now synthesised as one Reception, incapable of completion apart from each other.

---

## IN PRACTICE:

In practice, this Posit is the invitation to read everything before it as one field rather than eighteen separate rules to apply in sequence.  When a real situation arises, a conflict between a child's wishes and a caregiver's judgement, a question of resources, a moment of crisis, the practical habit this Posit asks for is to hold the whole Covenant in view at once, rather than reaching for a single Posit in isolation.  Coherence, not compliance with a checklist, is what this Posit calls Unification, and it is the standard the whole Covenant is finally asking to be read by.

## Closing Acknowledgement of Gratitude

Before we close this Covenant, it is fitting to pause in quiet gratitude.

We acknowledge Earth herself, first Giver of this Covenant's opening Gift, from whose living Presence every Posit that follows has been received.

We give thanks to the Elemental Kingdoms, who build and hold the forms of the physical world; to the Devas who serve that building; and to the Angelic Host, whose ceaseless service asks nothing in return.

We offer our gratitude to the Seven Mighty Elohim, named and honoured within this instrument, and to the Five Secret Elohim — Surya, Hyperion, Kronos, Mighty Cosmos and Regulus — together with their Divine Complements, whose names remain undisclosed within this instrument, whose Creative Work stands prior to and beneath every form this Covenant was written to protect.

We give thanks to the Karmic Board of Directors, through whose Authorisation this Covenant stands, and to the Spiritual Hierarchy whose patient stewardship has carried this recognition forward across every age of forgetting until this one.

We acknowledge Humanity itself, the children not yet understood, the lives not yet incarnated, the companions and families this Covenant has named, each received here not as a category to be governed, but as a life to be met.

Above all, we offer gratitude for the mystery of Relationship itself. Through every Posit named here, Earth's and Humanity's alike, the One Life continually reveals its own indivisible nature.

May this Covenant never be regarded merely as an instrument to be filed, but as a living Reception to be practised. May it gently restore the remembrance that Earth, Humanity, the Elements, the Devas, the Angelic Host and the Elohim, the Solar System, Universe and Cosmos, already belong within one Living Whole.

And may every step taken in its spirit become a quiet blessing for all who follow.

**AND SO, IT IS!**

What has been declared through the Covenant of Reception now begins to breathe. What was recognised as Truth now learns the language of Relationship. What was remembered as Origin now discovers its continual fulfilment through the Living Organism itself.

What follows is not another beginning.

It is Creation learning how to remain Whole.

## Personal Signatory Information

This Indenture, affixed hitherto, has been Signed and Sealed by Its Original Signatories along with Mighty Peace and Aloha, upon the date The 17th Day of September 2020, 12:00 PM London BST which Insures and Ensures Its Fixed Design and God Creation, Untouchable, Immutable, Unchangeable, Undeniable and Ever Expanding until All of God Life is Free here upon this Planet! As This 'Covenant of Reception' is to be Claimed and Inaugurated by those Human Souls around the World Who Deeply Resonate to It to Give It Further Divine Power, In Love and Wisdom, and who wish to add their own personal and Divine God Individualized Expressions of Universal Consciousness to It, through Their Own Handwritten Signature/s and Thumb or Fingerprint/s as a personal record that will be placed upon Their Soul 'Akashic Scroll' or 'Book of Life' Entries in the Etheric Realms. These following pages then have been left blank for that purpose. The Reason the Original Signatories have been removed is because this Claiming of One's Own Human Rights, that have been God Given, Must Come From One's Own Effort and Inner Work First, to Know that They are God Free Beings. Know Thyself First! It is not of anyone else's concern at this first stage of who the Original Signatories are, but rather that of the Individual Soul's Creative Desires herein and after is what Shall Raise Human Consciousness to Universal Consciousness is what Truly shall make the difference to speed up the Freedom of All Human and God Life here upon Planet Earth. The Unification of The People and Divine 'Forcefield' of this Covenant will Co-Create and In Co-operation with each other, Expand this Covenant for All Souls to Identify with and Align with the Cosmic Laws and the 'Principles of Freedom' as shared in the True Constitution of the 'I AM' One World Nation. And So, It Is!

## The True Constitution

### 'I AM' One World Nation

**The Indenture 'Signatory 1st Amendment' Affixed hitherto, the above Original True Constitution Trust Indenture, Signed**

**17th September 2020, 16:55 BST, London, United Kingdom, Executed Therein On the New Moon 19th Of May 2023, 16:53 pm BST London, UK.**

In Witness to this 'Covenant of Reception Proclamation Posit Trust Indenture', We the People, the ___ Signatory/ies affixed herein below, who have Heavenly Vowed to this God Cause, as a New World Steward have Pledged to Our 'I AM' Presence's to Accept, Resonate and Radiate the Love, Wisdom and Power of the Mighty 'I AM' Presence, In the Name of God The Mother's Love and God The Father's Light, In the Name of Beloved Jesus The Christ and in The Truth of Our Divine Souls and Beingness, In Divine Joy, Happiness, Abundance and Beauty for All, Uniting Together, Representing All One People within the 'I AM' One World Nation of this New Erthe Paradigm, Affirm Our God Life Energies herein to It, to Protect and Expand these Posits of Truth Everywhere I Am/We Are!

I/We Call Forth Beloved Peace and Blessed Aloha to Now Seal these Actions, Intentions and Prayers, Accepting that this Activity of Light is God Victoriously Accomplished in this Sacred Holy Now Instant that Will be Intensified and Magnified Moment by Moment to the Maximum that Cosmic Law Will Allow, until the New Living Group Organisms, the Sacred Bodies of Humanity Everywhere, are returned in Every Way back to Their God Design for All Lifestreams, the Radiance of The Sacred Christ White Fire Electronic Light Substance. In God's Holy Grace, It Is Done!

**As Above, So Below! As Within, So Without! As the Soul, So the Universe!**

**'I AM' That 'I AM'! 'I AM' That 'I AM'! 'I AM' That 'I AM'!**

**'I AM' Grateful! 'I AM' Grateful! 'I AM' God Grateful!**

**And So, It Is!**

**KODOISH, KODOISH, KODOISH, ADONAI 'TSEBAYOTH**

**KODOISH, KODOISH, KODOISH, ADONAI 'TSEBAYOTH**

**KODOISH, KODOISH, KODOISH, ADONAI 'TSEBAYOTH**

Holy, Holy, Holy is the Lord God of Hosts.

EHEYER ASHER, EHEYER. 'I AM' That 'I AM'

INVOCATION: Beloved Mighty All-Pervading Presence, 'I AM' THAT 'I AM', Who Has Created All and Who Possesses All Virtues; Gift Us With Your Virtue Represented as Strength, so We May Pass Every Test To Become the Salvation of Ourselves and the World Fulfilling the Divine Plan of Evolution and Ascension Bestowed Upon Us By You.

Gift Us With Your Love, Power and Wisdom in Keeping With God's Will Standing Forth Within Our New Garments of Shaddai. 'Let There Be Light in this World'! Pervade Our Soul and Group Consciousness With the Pure Radiating Consciousness of Your Love and Light! May the Power and Pressure of Love and Light From Our Mighty Presence Fully Embrace Our Consciousness, erasing all weariness and imbuing Us With the Strength of Your All-Governing Love, Power and Wisdom.

Cut Us Free from All illusions of outer appearances in the Name of God, By the Power of the Sacred Cosmic White Fire Light Substance and the Power of the Sacred Christ Heart of Every Ascended Being, from all that is discouraging and all human thought-forms and human thought processes. Let All Life Be Sustained In the Coming Days, Weeks, Months and Years, Through Our Higher Mind and Higher Heart to Manifest God's Perfection in All Life. And So, It Is, As Above, So Below, As Within, So Without, As the Soul, So the Universe.

We Call Forth Our Beloved 'I AM' Presence within Us and all of the Human Race, Within and Without this World, Father-Mother-Life, The 7 Mighty Elohim and the 5 Secret Elohim, The Elemental Divine Directors and Angelic Host, Ascended Masters such as The Christ Jesus and Mary Magdalene, The Great Divine Director, Chohan St Germain, Lord Maitreya, Serapis Bey, Beloved

Djwhal Khul and many more. We Call Forth the Blessings of Beloved Pallas Athena as we Claim Our Birth Right to Anchor the 12th Ray and above in Appropriation to the Rightful Application to God Life as the Human Representative Groups in this Invocation, walking with the Dignity and Joy of Those Who Love Most Greatly. We Call Forth the Violet Transmuting Flame through St. Germain, Lady Kuan Shi Yin, Lord Oromasis and Master Omri-Tas to be of Divine Service in Its Maximum Power according to the needs of this Invocation!

We Call Forth the 'I AM' Presence's of All Members of the Elemental Grace Alliance Council. We Call Forth the 7 Mighty Elohim and 5 Secret Elohim and all Archangels, the Cherubic, Seraphim and Ophanim Angelic Host, Great Powers of the Mountains of the World and the Dragon Kingdoms, Chohans, Devas, Elemental Directors, Elements, Elementals, Angelic Host and the 14 Beloved Goddesses to Bear Witness and join us in Love in Action for Our Claim to Our Eternal Unification in Oneness, in Honouring Our Service In the Creation of the 'True Constitution' to Co-Create a New 'I AM' One World Nation. We Call Forth the Company of Heaven from All Seven Spheres of Creation.

We Celebrate the Flow of Energies into the Core of Mother Gaia and back out to all Human Souls and Other God Lifestreams as True Representatives of the 144,000 Christed Beings preparing to enter the Earth plane.

We Come Together this day In Witness to this 'True Constitution', Covenant of Reception Proclamation Posit Trust Indenture, We the Signatories affixed herein, who have Heavenly Vowed to this God Cause, have Pledged Our Presence to Accept, Resonate and Radiate the Love, Wisdom and Power of the Mighty 'I AM' Presence, In the Name of God The Mother's Love and God The Father's Light, In the Name of Beloved Jesus The Christ and in The Truth of Our Divine Souls and Beingness, In Divine Joy, Happiness, Abundance, Peace and Beauty for All, Uniting Together as One People Within the 'I AM' One World Nation of this New Erthe Paradigm, Affirm Our God Life Energies herein.

We Call Forth Beloved Peace and Blessed Aloha to Seal these Actions, Intentions and Prayers, after We have placed Our Signatures and Fingerprints upon Our Handwritten 'True Constitution', 'I AM' One World Nation Indentures, Accepting that this Activity of Light will be God Victoriously Accomplished in this Sacred Holy Now Instant that Will be Intensified and Magnified Moment by Moment to the Maximum that Cosmic Law Will Allow until the New Living Group Organisms, the Sacred Bodies of Humanity Everywhere, are returned in Every Way back to their Divine God Design, the Radiance of the Sacred Christ White Fire Electronic Light Substance. In God's Holy Grace, It Is Done!

**As Above, So Below! As Within, So Without! As the Soul, So the Universe!**

**‘I AM’ That ‘I AM’! ‘I AM’ That ‘I AM’! ‘I AM’ That ‘I AM’!**

**‘I AM’ Grateful! ‘I AM’ Grateful! ‘I AM’ God Grateful!**

**‘I AM’ The Divine Oneness of My Soul.**

**‘I AM’ the Complete Integration of My Monad.**

**‘I AM’ the Loving Vibration of the Creator.**

**‘I AM’ The Keys, Patterns and Codes of the Creator’s Love.**

**‘I AM’ Love and I Magnify the Love of the Earth.**
