

THE 12 ASCENSION GATES

THE ONE SOUL OF ALL

A Discourse from Chohan Ouranos

Received by Peter Melchizedek, on behalf of the Elemental Grace Alliance

27th August 2026

Dear God of Incorruptible Matter, at Infinite Speed, can you please help in how I can look at the New Narayana Joy Akasha Sanctuaries, (NJAS) so I can ascribe the 12 Master Groups that have given their Pledges and Sponsorship to the NJAS Functions and Purposes to generate and Create the New Radiation Light Temple Communities around the world. All this, as part of our overall Responsibilities to uphold the Cosmic Laws, while Grounding the Resonances that will Support the Etheric Sacred White Fire Light Pyramidal Radiation Temples. As part of Their readiness to become part of the New Adam and Lilith Kadmon Human Race here upon the New Erthe. Thank you for your Patience in all EGA human contingencies of minor indiscretions and lapses in forgetfulness, in finding our own way through the endless mazes of human miscreation.

May I ask now for some Higher Guidance to make better choices in Phase II of the EGA's Divine Plan, for those who will walk the Path of preparing these Narayana Joy Akasha Sanctuaries. Bless You!

CHOHAN OURANOS:

Beloved Brother Peter, I Am the Chohan of the Seven Mighty Elohim and 5 Secret Elohim, among others, and I come to you this day with Great Jubilations of Joy in My Heart, for so many reasons, but most of all, this will be my first real introduction to humanity as one who holds a Position of Great Reverence for the whole of the Earth and the Earth's Human Race. I made My Debut rather inconspicuous to you in your "God Awakening" book, not by chance, and not to cause any concerns that My Presence around the World consists in being outside of the General Awareness to Light Workers, as other God Beings are within the Companies of Heaven.

Office in Hierarchy:

-Maha Elohim

-Hierarch of all the 12 ELOHIM and Their Divine Compliments Serving Our System to the Worlds.

Service to Life:

-Creating Perfection

-Sustaining Perfection

-Nexus for the Outpouring of Life

-Responding to the HEART CALLS FOR PEOPLE WHO HAVE CALLED TO HEAVEN FOR ASSISTANCE

-Retreat/Temple: Domain of Eternal Life (WHERE BEING AND LOVE meet LIFE in that KINGDOM).

My Message to you Peter, at that time was:

"It will be no surprise, that My Pressure is placed within all areas and within all Facets of Creations to maintain the Perfection of those Creations. So, I see this Elemental Grace Alliance as one of those rare opportunities that Pressure can be given in all areas of these endeavours, especially those that effect the Earth's Crust, and the cleansing of the Mountain Ranges of the world! You have had My Full and Undivided Attention since the EGA was consecrated within your own mind. I shall bring more into Alignment when called upon, to All Those Under My Influence of Authority and Control to help you. Our Divine Perfection Templates for the New Erthe and the New Human Race! Shall become your Guiding Light".

In short Dear Heart, such Lights are now the Photonic Presences of the Suns Discs around the World and beyond. It was not time to announce My Self to you with any more detail, not until you called upon Me again, when you were ready!

Our Work in preparing the Inner Working of the Narayana Joy Akasha Sanctuaries yesterday, told Me that it was time! Time to not speak of any levels of indiscretions or anyone's forgetfulness, for these are so far outside of My Spheres of Influence to speak of. But I will speak this morning of what you have asked for which is My Only Reason to be here, within the Atmospheres of Earth. And just for the record, my name has been used for mythical analogies that has served humanity within the Cosmic Law of Analogies, but I have never been married to Gaia, myth of not, that is a false proclamation. But I AM in a Divine Holy Relationship with Beloved Virgo. Not as Her Divine Consort, But I was part of Her Birthing of the which the Seven Elohim and 5 Secret Elohim all came together to Unify and Consecrate the Earth from a Thought, to what She remains in Her Heart, Our Hearts Today and Forever.

You know the Story, You know of the 900 years of Spring to prepare the Earth for the eventual arrival of Human Beings that would begin with the First Root Race to the 7th which is now upon the Time line of Our and Your Earth History. And when I say Our and Yours, I Am speaking of the One Soul of All, without exception. All Life from the smallest pentaquark to the Cosmos Itself. One SOUL within a single Living Organism. That Organism is too vast for the human mind to comprehend, but We shall touch upon this in a moment. Dear Brother, you are now aware of where this is going, so bear with Me if you would. For to some who will read this, it may become a Revelation of Remembered Being, for others it will be a Seed planted for future Memory recall.

Now to your request.

I Am not going to tell you, or your Brothers and Sisters what to do, but what I am about to say would do well for all to see clearly from a whole new perspective, not yet conceived, let alone achieved. Mother Gaia is a Seed once again, an Egg within the Womb of Creation and while She has been, contemplated, spoken of and living within and upon many scenarios of diversity, cultures, races, beliefs and dreams and agendas, but never has Beloved Virgo ever been Impregnated by the Father's Light Consciousness into

the Mother's Loving Womb of Creation for a Human Race to become the New Creators. You have seen the passing Earth in all its trials and tribulations, Its Beauty and Its Grandeur in such a vast Cosmos, that we the Elohim played Our Part giving Birth to by a human race. We followed the 7 Steps of Precipitation and We held these Cosmic Laws until she was in Her Pristine States that She could Support and Nurture all who she was made up of; those Blessed Elementals, Devas and Angelic Hosts, and who came from distant Planets and Star Systems to live upon and within here Being!

And now the time has come where not Us the Elohim, but Humanity will, or should I as have followed the Seven Steps to Create the New Erthe, in the same Undeniable steps for New Life to have their turn to Live, Breath and have their Being Experienced at the next levels of Vibrational Frequencies. That is why I AM, and have made My Presence recognised NOW, so what will prevail upon the old Earth will raise Itself into something Never Seen in any of God's Creations before as a Human Creation, not an Elohim, One and All.

But like any Cosmic Being who passes their positions fulfilled to move onto its next evolutionary levels of Experience they must leave the Responsibility to others to carry on the Duties and Obligations and unwavering Devotion to stay true to those Positions of Holding God's Divine Rivers of Grace, while using their Voices of Courage to follow the Divine Path of Creative Endeavours for the Greatest Good of All Concerned.

What I Am about to reveal to all herein and those who may read this Communication in the Future times. Call it a commemoration, or a walk down Memory Lane, or Reminiscence of Divine Love. Whatever you call it, I Am asking you to feel into the words, deeply FEEL into that, which has been given the EGA from the Opening Discourses of the God Awakening Book!

I Am now going to include here, with Peter following My requests, a small number of Excerpts about the Elohim in the God Awakening Book. May all keep a focused intent here and stay awake in these New Narayana Joy Akasha Sanctuary Preparations of the Elemental Grace Alliance Divine Plan, and do not concern yourselves with what others around the world are doing.

In the God Awakening Book Shekinah of the High Council of the Elohim told you this. Allow Me to numerate for you for ease of absorbing their Resonances.

I. "The Human Angel Circles or Christ Council can now accomplish great steps forward to achieve the foci of human yearning and endeavour, bringing God's Love and God's Truth to the surface Realms of human thought and belief. The Christ Consciousness now has a centre of focus, activation and stabilization that has successfully bridged the chasm, between the Higher and lower Realms; as above, so below, and as below, so above.

II. "The pulsing Radiance of you all, is a Joy to behold, by All of Us in the Higher Vibrations. There are Prime Processes within the Universal Laws of Creation, All large and small scale Evolutionary Developments begin at a single point of focus, (a thought, word or idea), that expands rapidly outward, to self-replicate, and thus achieve radical changes and developments.

III. *"Bringing together two or more human beings, co-creates an energetic of possibility which will indeed, lead to the unexpected and successful change in the fabrics of your realities. Such a development would not have been conceivable, let alone achievable, without all the wonderful Love Light Energy being anchored now, by so many Star Light Seeds. Beloved Children of God, dare to look outside of what was, and dream of that which you desire to be; then go and live it!"*

These Councils will be imperative for the search of Unconditional solutions and resolutions to all problems relating human interaction with each other, and Earth.

IV. *"To achieve any solution to any problem, first you must Let Go and Let God! No personality can be included in the seeking of Truth, no ego or any thoughts that support self-gain or self-aggrandizement, can be present during such Discourses. Intentions must be the Purest of Heart and ONLY for THE GREATEST GOOD OF ALL CONCERNED, in Grace, Harmony, Balance and Unconditional Love. It is this simple fact that will guarantee success of the objective!"*

V. *'Humans, The Elohim, Angels and Devas, The Elemental and Nature Kingdoms can live and co-create together again, within an Integrated Consciousness of Holy Union and Unified Oneness. Without this integration and assimilation of Harmony and the other intrinsic Qualities and Virtues of Beauty, Grace, Balance, Abundance, Wisdom, Power and Heavenly Peace, just to name a few, this cannot be made manifest. The aim here, is to find a way to create a new awareness between Heaven and Earth for The Greatest Good of All Concerned; I wish to create a Bridge of Friendship or A Friendship Bridge to that purpose; the purpose of a Divine Balance that fosters a beautiful Team Spirit between Heaven and Earth'.*

And within the Shekinah's First Discourse, "01 - Elemental Grace Alliance - Introduction - Shekinah - 20th January 2015" He shared this.

"It is also important that I share this about any transmissions received by those humans who join this Alliance Council, who shall represent humanity at a later stage of its development. Please remember that what is about to be shared is indeed somewhat beyond the capabilities of human comprehension. Even the languages of Earth are nowhere near adequate to explain in any detail or pure accuracy as to the actual Workings of the Universe or the Creational Processes involved within it. These will come, that I can promise you, but first step first; the information!"

"It would be well to note very clearly that once one enters the 5th Dimensional Frequencies and above, your physical languages and word usage to describe and explain anything, becomes a very obsolete tool. From the 5th Dimension and above it is more to do with the expressions through the use of the Language of Light; which is made up of images, pictures, visions, colours, tones, pitches, sound, Light and Dark, Vibrational Frequencies, Sacred geometries and much, much more. Physical communication becomes both unnecessary and is, might I say, only for the expressive Nature of communication and explanation to describe human thought forms.

"Humanity will soon come to the Self Realization of knowing from moment to moment, when they are resonating at 5th Dimensional Vibrational Frequencies, through the use or non-use of words to convey their needs or desires.

"The reason that I am saying this now is so that humanity can understand the reality of these Discourses for deeper understanding and more importantly, personal discernment. The information that will be shared is

done so by the Transmission of Packets of Light to the human mediums or receivers of this Alliance Council and therefore the translations will only be as high in resonance and clear in consciousness as the recipient is both vibrating at and is consciously aware of, from a Universal perspective. There is more to this than can be explained here, however this will suffice for now.

“Peter, in the past, used the phrase ‘Do Not Believe A Word I Say’ and this in itself speaks volumes; for it is this simple sentence that defines the Truth of the information, between one person to the next. In other words, before anything else, words are simply information, until words are experienced and proven to be of value they are nothing more than that. Once they become believable and used expressively within one’s life, and continue to expand through constancy, only then can they begin to formulate that which can develop into wisdom and be used for the benefit of others. One’s heart shall determine the validity of anything presented within this Alliance Discourse, all responsibilities of use shall fall upon the reader or user at their own discretion.

“We The Elohim are the Original Sons and Daughters of God. Very little information is available on Earth that shall describe this statement with any clarity. It is a very extensive and detailed part of the very beginning of the journey for the whole of humanity and indeed Mother Earth and this Universe. In Truth, it is all about the dynamics of the Soul and how the Soul’s integration and correlation is the most vital part in connecting the human self and lower mind to that of The Higher Self, The Holy Spirit, The I Am Presence, The Christ Within of God Consciousness.

“Virtually, all of humanity incarnates into the Earth Realms from the 7th Dimension. The vast majority of all humans are 12th Dimensional and aspects of a 12 Dimensional Over Soul, if you like, that divides or fragments down through the various levels of Dimensional Frequencies. At the 7th Level, the Soul then chooses what Level it desires to experience, and this can range from 1st Level, the minerals and micro-biotic organisms, through to the 6th Dimension of Soul Division and Awareness. However, for the exercise herein through The Elemental Grace Alliance We are only really going to concentrate upon the 3rd Dimensional human being.

“We The Elohim began our journey many billions of years ago within Creation and are connected here to Earth through Our participation upon a very similar physical group of local Worlds. And We like humanity throughout the history of our time as physical beings, 3rd Density beings, have experienced evolution as mankind, just as humanity here on Earth has and continues to do so. We made multitudes of mistakes as humanity has made to date here. However, we took our experiences to a place that totally destroyed our Planets. We created unbelievable levels of crimes against humanity and our Planets and many other inconceivable atrocities, through hatred, greed and the desire to control. We used nuclear fusion to enforce our wants and so when this reached uncontrollable levels it all ended, not only all human and all other life was destroyed, but the complete annihilation and existence of our Worlds.

“We then returned back to the Godhead, by returning back to the 7th Density and thus climbing back up the ladders of Dimensional Frequencies, so that We could share all our experiences with God or Prime Creator. For this has always been the same, God desiring to experience Him/Her Self from deep within the full expansiveness of All of Creation, in all conceivable and not so conceivable ways!

“And so as All IS God, and the same Universal Laws apply to All without exception, We knew that We were still accountable for our actions in destroying our Worlds and thus had to find a way to redeem ourselves and

return God's Peace, Love and Wisdom from the ground up so to speak. We had to absolve Ourselves for all our unloving thoughts, words and deeds We created along with All of the consequences that followed.

"Having re-established Ourselves as The Sons and Daughters of God or Creator Gods again in Our Own Rights, We chose to Create another Universe to both restore Unity and Balance back from total destruction of our original creative attempts for God Him/Herself to experience this once again, but this time from a different perspective of The Creative Expression of The Prime Creator God through Us As The Sons and Daughters of God. It is this Universe that We are now speaking of, the Universe that Earth and humanity reside within.

"This is Our Co-Creation to restore and allow a Universe to achieve Full Ascension Status from 1st level consciousness, right through to the 12th Level, not individually this time, but 'en masse' leaving no-one behind and nothing destroyed! Again We say this is a process that cannot be described easily, however with the assistance and Loving help from Alpha and Omega, Helios and Vesta, the Masterful Abilities and Gifts from The Mighty Seven Elohim's Plan was initiated.

"The physical timeline of today here on Earth, represents a time in preparation for a new shift in this Universe through human consciousness from the 3rd Dimensional Density to the 5th Dimensional Vibrational Frequency. And to make this transition, it WILL NOT BE ACHIEVED without the overall comprehension and co-operation of the total awareness that is in confluence with the consciousness and actions of humanity, being in complete alignment with that of The Elemental and Nature Worlds.

"So imagine Dear Humans that you are indeed the descendants of the Sons and Daughters of God and in so being, because We gave you Soul Consciousness, to rediscover your Selves, that indeed makes all of you also Sons and Daughters of God, created in His/Her Original Image. This comes with all His/Her Power, Love and Wisdom to Create like Us, like The Prime Creator Him/Her Self!

"God's Plan is Perfect in Its Nature, Clear in Its Understanding and Divine in Its Implementation on All Levels of Awareness and Consciousness. In spite of that, so complex and so full of unlimited potentialities because human free will is part of the equation. And We knew that it would take many billions of years to unfold and accomplish. It is important to know that to Us linear time does not exist in the same way here where We reside as it is on Earth and so a billion years is actually no time at all for Us!

"During this evolving process We engaged All Those Who would assist in Our Creation and They came from All Over God's Creative Universes and Galaxies. Even Archangel Lucifer came, Who played a very vital role within the development of human evolution and the rebalancing of Truth and Knowledge. It was important that no shortcuts were taken to bring back into Balance and alignment, the continued Evolutionary Plan for humanity that We Ourselves once destroyed to annihilation.

End Elohim Excerpts

Now hopefully you can appreciate the back story for which you are now at these Star Points of New Creation. That of Creating a New Erthe that shall fully support the New Adam and Lilith Kadmon Human Race. You have needed to hear all this again at this most pivotal point of your human experience in this existential unstaining times, and that while you have all known this before, forgetting it all over again will not serve you or any new Formations of your Macro Biotic Ashrams to come within OUR Narayana Joy Akasha Sanctuaries around the world in the short term. I will stop here with the History lesson.

.....
Regarding your three “12 Ascension Gates and the 12 Narayana Joy Akasha Sanctuaries” Master Sponsors.

Now this is so vital that I more than Desire all herein and who ever may read this Discourse in the future, to pay very close attention, for here is the answer you are looking for.

It is so revealing that I Am asking you Peter, to include the whole of the Discourse from Lord Metatron here as an excerpt. Funny thing to do, perhaps, but radical times call for radical actions, and I Am not saying this for ANY Elohim benefit. This is an Extraordinary Instruction, as has been Granted unto the EGA! Take time to review it in depth, whoever you who is reading here! And consider even more deeply the P'taah sharing at the end. I will continue after this Irreversible and Irremediable examination. Insert now please Peter.

LORD METATRON: Greetings Masters. Today I wish to return to the Discourse 'Part 2 - The Lion's Gate - Baptism By Fire - Lord Metatron, 27th July 2021', where I shared with you about Megiddo and that it would require your closest attention, indicating that there is more to this than may be presently shared to date in the public arena. And indeed, there is. And this is what the Councils of the Christ have been

alluding to in these 2 Series of Discourses after the Initial Permissions from the Karmic Board were Granted. So, let Us begin with a brief refresh of that request I made of you.

“These areas are controlled by the 'Magnetism of the Spheres' which places a final 'Magnetic Blueprint' on Trio Bio-Graviton Life Structures. In other words, these Structures are Biological 'Energy-Packets' Seeded along the Magnetic Arcs of Intersection of a given Planet. Just like the Reshel Sun Disc Grids destined for the Narayana Joy Radiation Centres.

“These Grids allow for Greater Degrees of Creative Genius to be Incarnated. A careful study of certain Magnetic Grid Alignments in the Near East will reveal the ‘footprints’ of prophetic work manifested between Egypt-Israel-Syria. Israel and Tibet are equivalent to the brain centres in the left and right hemispheres of the Planetary Mind. They are the Places which have had the Highest Prophetic Incarnations (during this present cycle), which is why these two Incarnational Points have been under continual persecution by the forces of darkness on the Higher Planes.

“Yet, these Energy Centres have remained Sensitized to the Patterns of Direct Intervention and controlled by the Order of Melchizedek, even though the forces of darkness have sought to destroy the Scriptures of Light and to control the Incarnations of the Lords of Light, so that they can gain control of the ‘high’ and ‘low’ places of the Energy Harmonics of the Earth. Which I Impress upon you, Dear Brother, to be mindful that this will require some close attention to this Most Auspicious Time. I will leave this to you!

“Nevertheless, these Grids are connected with Veils of Light that are placed between the worlds. Therefore, they can only be moved aside by the Watchers Who Reign with Lord Michael and Who Give the Name and Seal that will Open the Grids to the ‘Presence’ of the Lord, the Father, and the Ancient of Days.

“Thus, the Forces of Melchizedek are in Control of the Initiation Points in the Tarim Basin and the ‘timepieces’ of the Great Pyramid, Aligned with the Energy Grid beneath Megiddo. Megiddo will reveal the underground network of Israel as the Central Focus for Uniting the New Harmonics of the Consciousness Grids of the Planet. This will allow for different combinations of Spiritual Energy to Converge in one Sympathetic Pulse in the Awakening of the Planet.

“Dear Souls, this is all about gain of the Inner Alignment with the Infinite Mind and share the 12 Divine Mind Powers or Virtues of the Family of Light. Then you can move your mind off this spatial dimension and beyond the relativity of the Earth”. End Excerpt.

Let Us get right to this ‘Point of Induction’ through the use of Spiritual and Scientific ‘A Priori Laws’. Laws that are Manifested as part of a Mathematical and Paraphysical Family of Generalized Principles Used to sustain Consciousness Creation, Inspiration, etc., which can (through Hierarchical Guidance) Mathematically Set in Order each of the Energy Meridians of the Human System. But likewise, as the Human System is a microcosm of the Macrocosm, such Laws can be Appropriated to Serve a Higher Purpose. (for more on these Laws, see page 38 in the Resetting of Christ Time Upon Earth Memra 4). As you now Know, these Laws of Consciousness are not only unfailingly Operative, but Omni-Interactive for Governing of the complex, every day, mundane experiences of the Intelligences Created here upon this Planet.

As I spoke yesterday about time in a ‘Box’;

"The word 'Box', I Am using in this context, the time that sits within a grandfather clock case! The 'Box', then, is a play on words indicating that when one looks at time, the numbers and hands of the clock are held within a mechanism or creation of your own making. In other words, a projection of your own thinking! But what happens when you try to place a clock tower of a building into a grandfather clock or the grandfather clock into a wristwatch? You can't, while it remains in the forms of its projected structures of how one looks at time. This is the same, but the allocation of Function and Purpose is quite different. So when all of the information We have presented to you in form and function and through the many who deliver such information, all of it reduces down to a common denominator. Resonance!" End Excerpt.

Hopefully, you are beginning to Sense where this is all going! You must also understand the Pleiades as one of the Key Centres for the Propagation of Light. The Pleiades, in the Constellation Taurus, is not to be thought of as a separate Threshold Control for the Measurement of Planetary Systems; instead, the Pleiades is a Measurement for All Key Time Clocks, all Astrophysical Temples of Measurement. These 'Time Clocks' on the Earth are Located on Magnetic Grids and Are Focused into the Great Pyramid. Be mindful, then, that such 'Time Devices' are not physical manifestations as your clock creations within the lives of humanity are, but Bio-Computers held within the Structures of Form and the Formless (Pyramids of Light) which are Controlled and Activated by the Human Bio-Computers that have 'Inbuilt Triggers' within the DNA Encodements, which are not 'lower mind' activated but 'Resonance Activated' by those Who Carry these Codes.

The Earth is Controlled by Great Geomagnetic Energy Spokes, and that each Energy Spoke has within it Twelve Energy Spokes, all Interconnected at certain parts of the Earth's Star Field. Invisible Lines of Force Establish a Systematic Pattern for the Formation of Particles of Matter and Anti-Matter in the Programming and Control of Individual Intelligence. The main Lattice Formed by these Lines of Force consists of 30 minutes of Arc, divisible into sixteen smaller Grid Areas, measuring 7.5 minutes of Arc by 6 minutes of Arc or 45 square nautical mile Units.

Each one of the Twelve main Lattice Areas is Controlled by a High-Frequency Geophysical Pyramid. What appears as the Physical Structure of these Time Warp Areas exists in Reality as a Twin Force of Matter and Anti-Matter, which Creates a mirror-like image which can be used to alter 'physical reality' to a much Higher Reality of Universal Intelligence. This Greater Reality Uses Solar Radiational Fields to Create the Vertical and Horizontal Energy Cube around the Earth's Rotational Field. The Now New Councils of Light, Who used to be called the Great White Brotherhood, and Who Reside in the Pleiades, Uses these Twelve Grids or Vortexjah to Enable Them to come into the Earth's Biosphere and Build Great Civilizations to help the Consciousness of Mankind Understand Their Divine Origin. In Lord Michael's Discourse 'Part 6 - Expanding Your Consciousness - The Christ True Virgin - EGA Petition - Lord Michael, 1st March 2022', He said:

"From an understanding of non-dualistic, Cosmic Evolution, you can receive insights into the Unifying Vehicle of the lower mind that permits the concept of the 'Many and the One' to operate between 'Fields of Seed Growth' and Multidimensional Plantings of the Tree of Life. The many bodies function according to the interconnection of the many corresponding minds. Here one must think of the Ancient Paintings of the Masters with many heads, each having a different Auric Field in relationship to each other and the body. You must think of incarnation not only in the flesh but also into many Matter-Energy Dimensions. Here you must

understand that there is also a Higher Mind Reality which gathers the perceptual Frames of Space and Time, such as other Star Nation Experiences and Feeds it to this lifetime mind-set. So when you are told, 'You Are Them, and They Are You', this is what is being referred to. As you Expand your Consciousness to Work with 'perceptron' particles (perceptual Energy Mass in Control of Atomic and Subatomic Mass), that is, through a Visual, a mental and a Spiritual simultaneity, such as your latest Visual depicting the Universe, the Eye of God, The Scales, the Sword of Michael and the Blue and the White Flame Substances, you can begin to realize how you can break the Time-Space Capsule that used to store information in your mind, and how you can use a better selective factor for any memory storage and retrieval. This I would encourage you to do as often as you can, for this will allow you to break the time locks that have been placed around your mental body programming!

"Through 'perceptron linkage', you can actually go back or forward and experience your other Energy Entities, past or future, that you have interacted with or have preordained as part of your present interplay of this lifetime mind-set. You can, therefore, actually resurrect within your mental computer time-space incarnation frames which can be reprocessed through Bio-Genesis or the Synthesis of Substances by living organisms, so you are no longer under the conditioning of previous life expressions. To give you an example, your Louis Pastor explained that Bio-Genesis is the production of new living organisms or organelles.

"Conceptually, Bio-Genesis, the belief that complex living things come only from other living things by means of reproduction. But in this case and within the references I Am speaking of, this Biogenesis relates to complex living things coming from other complex living things through the Transference of Energy Consciousness".

End Excerpt.

The Higher Intelligence then, coming from a Galactic Light Threshold, needs only to draw Lines between given Vortexjah on the Earth and moving Magnetic Vortices in the Air Streams in Order to Set in Motion all of the Spectrum Controls necessary to Establish Their New Coordinates. Their Vehicles Establish Molecular-Triangular Coordinate Patterns in the Air as well as on the Earth, which Permits them to come into the Earth's Field of Intelligence. When you understand this, you, as the Human Contingency upon the ground, can See that it is the Consciousness of the Higher Mind that Draws Lines in between Respective Sun Systems and Knows which Type of Energy Meridian to Divinely Work with. The Spiritual Higher Mind Draws Lines between the Earth's Pyramidal Zones, existing on the Magnetic Horizon, and its own Threshold Controls, thus allowing it to Intersect the Earth's Pyramidal Forces with the Celestial Pyramid-Orion.

Peter, you will remember when you were in South Africa in November 2007, from where you placed the New Capstone of Jericho over the Pyramid of Giza. You will remember the Mathematical Formulas that you used within the Activations that were Activated. You will also remember the myriad of Star Encodements that you were given to decipher and one in particular, which you called the 'New Adam Kadmon Star Code Trace Encodements'!

[Image reference: Cosmic Sun Star Trace Encodement Activation for the Cosmic Sun Consciousness0002.jpg New Adam Kadmon Star Code Trace EncodementBW]

This Star Encodement and Light Language that you wrote by your own hand was translated for you.

"Language in Blue

"The New Adam Kadmon Light Grid for Humanity.

"Language in Dark Brown

"Language of Light was scripted for half a page. It translates.

"As well as you can, you will begin to discern those subtle bodies which are indwelling inside of you now, for even as this image now appears to be outside of your Self, it also appears with IN you or else it would not now be so. We allude to the horizontal axis of this drawing, which divides forth those Universes of the God Mind into segmentations much as a beehive makes separate houses wherein to store those honey nectar... sweet is it not?

"This drawing is a correction to the framework of the New Adam Kadmon, for as the New Age comes forth, the man/woman shall be made New as well. Imagine, if you will, if you were to draw forth an image of your Partnership with the Divine, the simplest of Structures must prevail, and yet there has ALWAYS been a 'Star Map' to coincide with the evolution of mankind as you progress from Star Field to Star Field where you connect the dots with those Lines of Ley which you shall consciously walk. Indigenous elders have humbly and consistently held these Ley Lines along with your Beloved Cetaceans.

"Look then again at this first symbol to see where it is which Time Travelers follow.

"I Am complete as man/woman now combined in clear consciousness upon earth to bring forth as if in story the marriage of Spirit through Jeshua/Magdalene. They represent your conscious journey to ignite this fire within you. This Symbol begins then with the New Adamic Seed.

"This first journey you take unto the First Field, given unto you the Birth of your New Self forth unto that Star Field of Andromeda, it forth with, then progresses you into the next Field which you Skywalk. The three Pointer Stars you have left behind may be used for triangulation should you begin to messenger via other influences. These will guide you back into the body as if bread crumbing. These three smaller Star Points will always be visible to you! This Second Field you have walked arrives you at that Star Field within the Andromeda as Alcyone ... they are of your Pleiadian Knowingness as the Teacher in you will need familiar reference Points.

"Line drawn from last point to the vertical Line drawn for that dot to above: The upright juncture of the upward thrust is an indication that you are advancing into yet another field inside the Living Light. This is not an artificial Galaxy and will always feel familiar. It is as the body may feel to teeter in its influences of arriving into these differences. This upward arm of your ley walk arrives you unto the Galactic Control Centre Post of the Melchizedek Brotherhoods. It is upon your arrival there that you are held in Conference for the Purity of your Intentions to hold forth and carry your Chord of Light unto the New Star Seed Children Who are here on Planet Earth and will actually be your guides to transfer your old Earth energies into an Erthe Star.

"Drawing of next arm of symbol: And now your trajectory is as if in a shooting Star for it sky rockets you into an unfamiliar domain. Please keep in MIND that these are Brand New coordinates not walked heretofore by ANY indigenous Elder, nor any Being who had come directly out of your density of the third dimension. Hold in constancy within your body imagery as it draws itself within this configuration. This New Point at which you have arrived is that point in the Heavens on which all of you have sought guidance for direction. You have

called it the North Star. As you look into the current Symbol unfinished, you will view your own horizontal axis as you recline. Now you are looking up into the three Pointer Triangulation stars left visible for your guidance. As you begin to feel them as well as to see them with the outer vision, you are within the Vibrational Field, which supports you upon this new discovery base. You may proceed from this point in space not covered by a Constellation yet being a point in Space so that you will feel a sense of accomplishment beyond these old perimeters. This exercise of new beliefs is not unlike what you term 'the Ropes Course'. It is dependent upon Faith and Trust!

"Next leg of the symbol was drawn: And now passing this place of 'passeth not' before you are catapulted as if upon out of a gun shooting, you become this shooting star fielding of your own dream forward. As if you did not need the allegory of these Fields, it is the way of Andromeda to defend you at each point to cleanse those waters of your soul as if it were without further nourishment, and yet you cannot look back to the way you were, you cannot continue in this old vibrational field once you have gone past these boundaries of the Command Centre. It is still that the Pleiadian begins as you did to draw this ley line without moving the pen from the paper, as you have quickly sensed to do. Notice that you only needed to lift the pen to add the three Sister Star Points, an addition that prevails upon you Only as you need them, and yet one does need to interrupt the flow of drawing these symbols when placing them. One could begin to by placing them ahead of time for remembrance; these Symbols represent your own Cosmology. You may call this first image "JOURNEY TO FREEDOM", for it catapults you beyond all previous patterns of beliefs. Catch a falling Star, indeed.

Love and Light...Sananda Magdalene

Note, please, that these trajectories are unaided by another walking before or behind you, Peter. The Wise Teacher Protects his/her student by being beside her/him as these baby steps are given. This is not simple geometry ... there is nothing 'To Prove'. There is only to trust that your star field will guide you, that you have traced this image upon paper so many times that all Heaven awaits the Field of Light, which will guide you. It is as if as you walk, your own steps light up to show you the way. Fear not. We are inside you, and We are going Home. Rather, We are taking Home with Us as well!" End Excerpt

Peter, I have reminded you of 'Your Star Trace Encodements' that you were given, or Better still, that you were reminded of, as Part of the Placing of the New Light Capstone over Giza. I recommend now that you go back and reflect upon all these Star Trace Encodements, for these will help you and those who shall walk with you in the Coming Times. These, to Truly Understand what I Am trying to get across to you all who may be reading these Series of Discourses, is that all of Us Are Saying, Lord Melchizedek, Lord Michael, Myself and Lord Jesus, is that even as what may appear, upon the surface, as you look within your mirrors of your outer lives, within each of you is an Intelligence far Superior than anything you could ever imagine from any level of human standpoint, inactive until you give it your Divine Attention. And it will not be until you step outside of the personality consciousness will you even begin to See, Feel and Know of the Will, Power and Wisdom that lies Within you. Individually you are Very Powerful Beings indeed. As an Ashramic Group of Synthesis in Divine Economy, you will be unstoppable, Indestructible and Immutable or EVER affected by lower vibrational consciousness in any Task or Activity or Mission you so Commit Yourselves to.

Please add the Definition, Peter, that Master P'taah gave you regarding the Drawing of Lines in the Atmosphere 'between given Vortexjah on the Earth and moving Magnetic Vortices in the Air Streams in Order to Set in Motion all of the Spectrum Controls necessary to Establish Their New Coordinates'. I also provide this information to show how Perception Linkages also work in other areas of Intentional or unintentional Creativity when one is open to receive or transmit from outside of old human paradigms of thinking or acting!

These Activities of Trace Encodements must take place in Order to Secure the Time Warps as physical Reference Points for Rebirth. When this takes place, the Keystone or the Pyramid Light Capstone can then be Re-Calibrated again and hence Re-Activated. So as to Amplify and Magnify the Pyramids around the World to Their Next Levels of Vortexjah Resonances. For example, the Higher Intelligence is coming into the ocean through the Pyramid-Five Energy configuration of the Bermuda Triangle and is making use of the ocean shelf, which is there from the previous Atlantean Age, preparing America to become the New Atlantis. These previous Atlantean Fields of Crystalline Energy will be Re-Activated, Peter, via your Star Codes as the New Centres of Energy Focus on the Planet, which will be used once the Earth's Inner Core of Neutral Matter has been 'Heaved up' or maybe not? New Atlantean Centres will be Activated from the Bermuda Triangle, the Great Salt Sea, and JerUSAlem-Hebron, which are already known as 'Pyramid Areas' by the Higher Evolution.

These areas will be used by the JerUSAlem Living Light Intelligences from Orion to Open the Chambers of the Earth and provide for the Shifting of Consciousness more Fully to the Americas, the next Home of the Dove of Peace, as the Father's, Mother's Program Shifts from the Middle East to the Middle West. The coming of the Return of the Dove will also use Artificial Time Warp areas so as to Touch upon the 'Islands of Light' where the Righteous WILL Gather who are not in the Natural Time Warps. These Gathering Places around the World are the Basin areas which were used by previous Cycles of Higher Intelligence and which contain the documents telling how these areas will be Re-Activated again. Therefore Know the Twelve major 'Ur' Areas of Light, such as the Takla Makan Basin in China and Megiddo, which are aligned with the Consciousness Forces of the Great Pyramid and used by the Celestial Control Centres.

As you Know, My Brother James Tyberonn, from the Pleiades, and I have been, over the years, preparing the Crystal Leys within the Earth in readiness for this next Phase and particularly in the areas of the Americas, both North and South America, where sooner rather than later the Borders between North and South America must be removed. This is a vital shift in Consciousness, as Consciousness will be playing a far bigger Role in the Future for the Unification and Star Alignments between the Cities of Light and the New Narayana Joy Pyramidal Light Temples. Notice the Landing Site of the Dove of Peace over the Land Mass, soon to be the New JerUSAlem. The Americas is that First Manifestation of the Final Abode of Souls upon Earth, which will be Redeemed by the Living Christ, an Ideal Earthly Community, and this why so much emphasis has been place upon America First, by St. Germain for America is the Heart of the World. As We move toward the close of this Discourse, I wish to tell you information that you were also given by the Great Divine Director regarding the Rewriting of the Book of Genesis.

There is a Wealth of Original Holy Books that are held, awaiting their Resurrection from the Grids of the Takla Makan area, the Holy Cities of India, the Holy Cities of Egypt, the Holy Grid of Megiddo, the Holy Grids in Northern Syria and Accad, the Holy Cities of the Sacred Land of the West. Understand the writings there, and the Inscriptions of Light written in stone will Reveal Revelation upon Revelation. Thousands of Books that were part of a 'Sacred Language' Revealed once again to the Children of Light so that the false structures of religion and history can finally crumble and the True Teachings of Your Destiny in the Father's, Mother's 'Kingdom of Love and Light' can be Revealed again out of the Foundations of the Earth.

Dear Souls, I wish to Open Your Mouths to Speak and to Rejoice in the Words of the Living Light Consciousness. I want to Hear these Light Encoded Words Echo around the World. I want the Granite Plug in the Grotto of the Pyramid be removed by the Vibrations of Lay-ooesh Gob-Nut, so that the Vibratory Geometries of the present Program of Creation, and the Masters who failed their mission, no longer be kept within the Structure of the Pyramid, but be Released in the Name of the Father and Mother for Man to Understand.

May the Sacred Vibrations Re-Open the 'Chamber of Initiation', so that Light is Poured Out into all Twelve Sacred Areas of the Planet that are connected with the Great Pyramid. And may the sacred name of 'Christos' allow the Mouths of the Initiates to receive the Initial Impulse to speak the sacred language, for only through the 'Christos' can the faithful understand the 'anointing' of revealed eternity through 'baptism into the Light' which is eternal. The Sacred Language, that proceeded from the Father and Mother Universal Living Light, was used once by the 'Tongues of Man' so that man was able to speak the Language of the Light, understand the 'Language' behind the Language written on the Sacred Tablets, and these will be communicated again with the Brothers and Sisters of the Heavens Who Shall Speak through a Higher Language of the Language of Light.

Be hopeful then in this physical dimension, for when you were thrown into confusion and affliction, you Petitioned the Father and Mother to Remove you from the confusion of not Knowing Your True Identity. And Now, you Will Shine as the Light of Heaven is Bestowed Upon You again! You will Shine, and you will be seen, and the Portals of Heaven will be Opened, and you will see this come to pass while yet in the physical dimension. Be hopeful, also, and do not cast away your hope, for just as you have suffered, So you Shall put on the Christ Body of Light and be Resurrected through all the lower heavens.

You are to show forth the Radiations of the Christ, being Destined to Reign with the Hosts of the Heavens. The religions of the earth will no longer alter and pervert the Words of the Righteous, nor hide the Scriptures of Light, nor lie and practice great deceits as to the Education of the Soul, for the 'Great Silence in the Heavens' will break forth into Great Thunder as the Scrolls of Light are Revealed from 'the Earth' and from 'the Heavens' of the Greater Universe. The religions of the earth that gave mankind great fear of the Father's Heavenly Worlds and 'Thrones and Dominions' will cease, and their authority will be surrendered to 'the Ministry of the Children, The Sons and Daughters of God'.

At that time, the Heavens Will Ring, a second and a third time, the Heavens Will Ring, and the Names of the Righteous, Coded and Written in Light upon the Gates of the Third Heaven, will be Permanently

Sealed when Read Aloud. But first, it must be seen the Final Witness were 'The Ministry of the Children' are Recognized as the Collective Messiah, Dwelling with men and women and children alike when the Heavenly Christos Is Revealed upon Earth.

The Great Pyramid then is, once again, being Re-Activated through Megiddo, The New Coordinates with the other Grids on this Planet. When this is completed, the Grids will be opened to the Heavenly Jerusalem. You will no longer be earth-bound but will Pass Through the Magnetic Fields of Change. When you understand the Grid Structure of the Earth, you will see how the Great Pyramid is the Central Cornerstone within the New JerUSAlem which connects the Pyramidal Capstone of the Merkabah Vehicle (under the Order of Melchizedek) with the Twelve Consciousness Light Zones on this Planet. Before this comes to pass, the Great Pyramid will be Decoded, and all previous Pyramidal Science, from the squaring of the circle to calculating distant Star Positions, will be understood in relationship to the Cosmic Pyramid of Orion and the Cradle Model of Your Universe. The Pleiades which Governs the Higher Timepieces, the Cosmic Clocks. The Mathematical Harmonies Coded within the Great Pyramid Create an Invisible Timepiece of Higher Evolutionary movements as a Clock placed on the face of the Great Pyramid.

Mind then, as We have Established, is beyond history and the temporality of explaining God within linear time. The historians on this Planet have either mythologized history or historicized mythology. However, the most important Grid Structure for your present program is the 'Copper Grid Structure' underneath Megiddo, which is Aligned with Mount Tabor and Jerusalem. This is the Timepiece for the Great Pyramid. Megiddo will Reveal the underground network of Israel as the Central Focus for Uniting the Harmonics of the Consciousness Grids of the Planet. This will allow for different combinations of Spiritual Energy, as already discussed, to converge in one Sympathetic Pulse in the awakening of the Planet.

We cannot stop here until I mention to you that in discussing the various Inter-Connecting Grid Formations, where one of the Codes stands out the measurement of the 'Christ Angle'. The 'Christ Angle' is formed by the Intersection of the First Ascending Passage with the Queen's Chamber Floor Level or the Level of the Summit of the Well Shaft. The Angle that is formed is 18' 9.7". 59. The continuation of this Angle Eastward, from the Great Pyramid, Points to the Town of Bethlehem, giving the Precise Angle of how Birth, Death and Resurrection are Fused together. I shall leave this here for further investigation.

James's departure from the Earth was a Signal to notify those who Work in the Fields of Crystalline Service and Magnetic Service, who will begin to Re-Activate the Crystalline Time Locks and to Re-Configured them for the Resetting of Christ Time Upon Earth through the Rightful Application of the New Star Trace Encodements. This Work is Specialized, and ONLY those Who are aware of their Parts within it will move into the Positions around the World at the most auspicious Times, Called for, By Me!

I know that I have gone way over My allocated space, but I must complete this Discourse before Lord Jesus steps Forward to speak with you.

You have or will hear of many scenarios based around earth destructions, seas rising, and land masses rising and falling. You will have heard or read about super earthquakes, floods, pestilence, hurricanes, volcanic eruptions, tornados and more. These are the Works of the Elementals as they attempt to bring the Earth back into Divine Balance, for it is only the consciousness of humanity, en masse, that create the need for such actions. I tell you with Assurance that just like you did, Peter, within Star Codes being active through a small Group of dedicated people in the Los Angeles area in 2007, that stopped an expected Earth Quake where the whole of the coastal regions could have slipped into the sea. The event passed because the Activation allowed for the Movement of the Tectonic Plates to become malleable, thus allow the movements to merge together and slip through one another rather than remaining solid with movement based upon friction and one plate forcing itself upon the other.

One option had no damage or loss of life; the other could have been a devastation beyond your historical records, killing potentially millions. My Point is that Divine Consciousness and is Rightful Application Creates Change with Ease and Grace! The Love, Wisdom and Power of God's Living Light has no barriers, no limitations and no resistances when Agape is Present.

Thank You All for Listening.

I Am Lord Metatron, awaiting the next stage of this Universal Resetting of Time upon Earth through the Cosmic Christ True Virgin!

BENEDICTION: Electronic Presence We Are Eternally Grateful to the Central Sun Magnets' Love, Its Qualities Manifest the Power of Divine Love, the Luminosity, Its Infinite Supply, and Intelligence. Raise All Into the Greater Power of the 'I AM' Presence.

TRACE ENCODEMENT DEFINITION

Dear Spirit, I would like to ask someone to explain to me why the term Trace Encodements have been used to identify these Star Codes. 12th December 2007.

It is with pleasure, Dear One, that we have been supporting you in these transmissions and stand by this day as new portals open and further Codes are down loaded. The word Trace Encodements have been purposefully used to describe these Keys because they are associated with the Neurological Pathways within the human brain. Remember, as above so below, the pathways that lead and allow you to navigate through the Universes are all Star

Patterned within your Higher Consciousness and held within the Electromagnetic Fields of the brain, the microcosm of the macrocosm. If one had the ability or even the technology, you would also find these Star Codes within your DNA; however, it is the Energy of Consciousness that we are moving through, and by tracing these patterns consciously, your brain fires the neurological pathways so that the recall of the deeper references are brought to the front of your consciousness for activation and the exposure within your life. For example, you have on your computer a searching modem; this modem runs through thousands of programs to find matches and then brings them to the collection point for your awareness and choices to use or not to use, as the case may be. This, metaphorically speaking, is the same process

you are undergoing. You programmed and entered the information to be triggered in accordance with time locks in association with Divine Will. Now the search has found what you need and how you use them according to your free will. When others see these Codes, they themselves will then trace them within their neurological pathways into conscious awareness and pull them out of their computers through a similar search modem, and so it continues.

It is not surprising that these Trace Star Patterns and Codes are numerous in number for the vastness of the Universes, and the Galaxies within Creation are unlimited in continuous expansion, just like Earth and this solar system at this Moment. As part of the Creation of God, you have all of these Star Highways and Inter-Dimensional Starways already part of your Inner Reality. Earth is a physical domain, and in this Reality, as you allow this expansion to manifest within, only those that are important to allow the human consciousness to remember are being activated and coming forward into your awareness. All those at the leading edge of this Creation are now being triggered, as you call it, so that these and many other encodements and ancient Knowledge are coming to be consciously given Life so that this Energy may support the Visions of so many now.

It is with peace within Our Hearts that we share this and know that what is on the horizon for humanity, what is written in the Stars, is about to Create a Star Burst of Energy that will open new Heights to human achievements. Follow your Hearts and Know without any shadow of a doubt that you are on the right Star Path!

I Am P'taah Beloved, at your Service.

This ends the Discourse as an excerpt herein.

.....

Let Us now take both points raised by you, Peter, in your request today.

First: Yesterday, you wanted to change the Narayana Joy Akasha Sanctuaries from 24 sites thinking that they should or could only be 12 sites in total. That was an incorrect assumption and not backed by sufficient clarity. The Narayana Joy Akasha Sanctuaries (NJAS) will, by its own Volition become active in its Membership through Members being Present, or replaced or expanded by the demand, that will soon follow when sufficient readers reaching this Website via the Sounding the Calls, how in their own Hearts now are searching the ethers for their own active Stewardships within both the Initial human communities now formed or forming, as well as the Sun Disc Locations as Ascended Master Communities.

But there is more. As you know now Peter, there are 12 Sun Discs, and 12 Ascension Gate Human Chakra World Locations, that now are calling for Such Sanctuary Work to begin at the first Opportunity. However, your discoveries over the past few days, have revealed, in more clarity, there are presently 12 Satellite Sites that are Linked and Aligned specially to the Sun Disc at Pinnacle Mountain in Arkansas. That makes 36, no longer 24 as once considered. Meaning that each of the 12 Sun Discs will in their own times require Their Own set of 12 Satellites to be revealed to you, and many others around the world.

These have not yet been given as clear sites to humanity yet for we are now awaiting on the Revelations that at least One Group of Individuals are able to Fully and unwaveringly Support the Communities, Ashrams, and the cleaning up work still needing the Wholehearted Heart Radiances to fully Purify the first site as a human community in Arkansas, then raise that community into its full Purification where the Masters and Elementals and Devas, can all walk Hand In Hand with them where seeing and speaking with them will be as natural to you then as seeing and speaking with your families today. I would encourage then, to find more clarity on the locations of the other 132 sites, and to relate these to the 12/144 relationships they have with the Human Chakras and the 12 Strands of DNA, and to what was said about the 12 Vortexjah Grids used for other Star Travellers to enter Earth's Dimensional realities. Start thinking outside the BOXES or human interpretations. These will not be found while remaining within any form of human beliefs or constraints. Knock upon the Door to God's Worlds of Creations, and It shall be Opened to you! Open Your Heart and You Shall Receive! In other words and please give this your deepest Due Diligences. I offer you this question.

Why has St. Germain given the Elemental Grace Alliance, both the human and the Ascended Human the Opportunities at both Levels of Existence in the Single location of Pinnacle Mt in Arkansas, for your first Engagements?

I will leave you with that for all you to consider more deeply as each chooses.

Second: Yesterday, equally Peter, you became unsure about how to place the Foundational Principles of the Master Sponsorships around the Circle of the 12 Ascension Gates. In other words, 'Who Belongs Where'? Look then at the Master Clock of Lord Metatron. In short, one cannot place a Grandfather Clock into a wrist watch? Once again, think outside the human box. These Sponsors are not bound by a clock face or the hour of the day. It matters not where the hands of the clock sit, for there is no mechanical mechanism functioning with any sort of precision as the direction of the hands, forward or backward, on the face, because these Levels of Consciousness and Locations are not fixed by linear time.

The Sponsors, will be not as a clock face or its mechanics, for they are not bound by place or time. However, Their Presence can be determined within their Active Engagements depending on the artificial or time binding, or the True Natural Present Moment that makes itself known. Your original diagram denoting the placements work perfectly well, with all of the Human Chakra Ascension Gates for active participation, and only when the Moment arrives, not necessarily in time and space that Their Awareness and Energies will be Called for. You are the Gate Keepers and the Trace Encodement Holders, that will hear your own Internal I AM Now Moments when they are Called to you, the human physical and Spiritual Vehicles when the time is right. Just like there is no such thing as coincidence. Just think about this for a few seconds to know if this is true or not. Over millions years and thousands upon thousands of lifetimes upon human worlds, and here you are finding where you are in this lifetime at this very Now Moment who have followed your Calling, why are you here, RIGHT HERE AND RIGHT NOW? And here you are still living a human life of human beliefs and miscreations? That is Key Foundation Stone Question for any person not just the New Aquarian Age Light Workers.

I feel that I have shared enough for today. Know that the Elemental Grace Alliance is not a human plan, but a God Divine Plan and so, while humans continue to think like humans, without exception, they will never feel the Inner Callings, figuratively and emotionally speaking, of the How a Cosmos Works and New Civilisations are brought into manifestation. Cosmic Laws MUST be understood and embraced at all levels when Creating Anything, let alone New Worlds or New Civilisations.

I Am the Chohan Ouranos in your Service now, and you can Call on Me or any of the Many, Elohim, including Yourself, as the I AM Presence, who await your next decision to activate your next Creative Endeavour. And speaking of Creative Endeavours, I can tell all of you that when your new Song Peter, "The One Soul Of All" found its way into all of the Halls and Chambers of the Elohim, Masters and Archangels Retreats, on its first demo play, all stood instantly, and felt its Heart and its Purity, with the potential to touch Humanity in ways never been experienced before 'en masse'! A Master Key-Stoke My Brothers and Sisters, that will Serve you all well. And so as I heard this New International Anthem for the I AM One World Nation, it gave Me the impulse to come today, the same feelings that Beloved Shekinah came to you when He Heard about the New Elemental Grace Alliance. That is why I arrived today with such Great Jubilations of Joy. And Sing it out Loud and I can reassure you, one day soon you will HEAR THE HEAVENLY CHOIRS SINGING ALONG WITH YOU! 'I AM' – WE ARE – THE ONE SOUL OF ALL.

And So, It Is.

And It Is a Mighty HEART Victory.
