I · THE ACCOUNT

Long before Rosslyn Chapel was built, the Earth-Keeper transmissions say, other temples stood on the very same vector — “vastly predating even the Great Pyramid of Giza.” Beneath the chapel rests a circular vessel of metal and crystal, twelve half-spheres set around its rim, connected outward to twelve satellites across Britain and Europe. From here, the whole of Europe, the Middle East and Africa are said to receive their programming, just as Lake Titicaca regulates the Western Hemisphere.

This is the one Sanctuary where the channelled Sun Disc material and the independently mapped Reshel geometry — researched for over thirty years by William Buehler — describe, by every appearance, the very same building: one arrived at through vision, the other through careful geometric study of the chapel's own stonework.

Maia and Simeon Nartoomid's own Akashic transmissions add a deep-time origin story again: the Reshel grids, in their material, were laid into the Earth some 500,000 years ago, under the direction of Archangels Michael and Metatron.

II • WORKING DISCERNMENT

In Peter's own working discernment, Rosslyn carries the resonance of Leo, Ceremony and Knighthood, Mighty Apollo.
