

SUN DISC XI · THE OMNIPOTENT SUN DISC

LAKE TITICACA

The Thirteenth Sun Disc, Kept by Thoth Himself

LAKE TITICACA · PERU & BOLIVIA
REGULATING SUN DISC FOR THE WESTERN HEMISPHERE

THE INVITATION

Come Stand at the Highest Navigable Water on Earth

At 3,812 metres, Lake Titicaca is the highest lake in the world navigable by large vessels — a vast body of cold, clear water straddling the border between Peru and Bolivia, held by Andean tradition as the birthplace of the sun itself. In the framework offered here, it carries a title given to no other Sanctuary in the field of Twelve: the Omnipotent Sun Disc, regulating the entire Western Hemisphere the way Rosslyn regulates Europe, the Middle East, and Africa.

Nartoomid's Akashic material goes further still, naming Titicaca as one of only two places on Earth — Giza is the other — where Thoth himself is said to keep a physical Retreat: the Asula Sanctuary, described as the thirteenth Sun Disc, and the anchor point of what this tradition calls the Amaru crystalline grid.

Kryon material, independently, names Titicaca one of only two predetermined Null-point pairs on the entire planet — matched specifically with Mount Kailash in Tibet. And in Hopi prophecy, entirely apart from any of this, the lake is tied to the Eagle and Condor prophecy, describing a long-awaited reunion between the peoples of North and South America. Multiple traditions, converging repeatedly, on one lake.

THE LAND ITSELF

Where Masculine and Feminine Hold Equal Weight

Lake Titicaca spans roughly 8,300 square kilometres across the Peru–Bolivia border in the Altiplano, the second-largest lake in South America by volume and the highest lake of its size in the world. Andean cosmology holds it as the place of origin for Viracocha, the creator deity, and for the first Inca rulers, Manco Cápac and Mama Ocllo, said to have emerged from its waters to found Andean civilization.

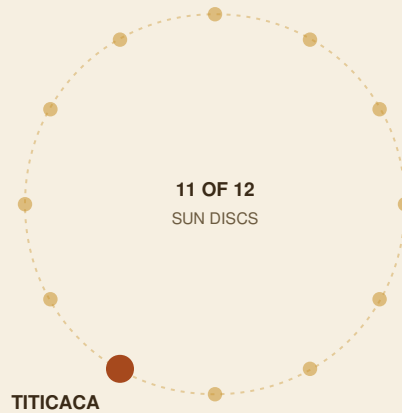

The lake is held, in the framework offered here, in a state of perfect masculine and feminine equilibrium — a balance this document notes without further elaboration, as it is offered within the tradition it draws on. The Hopi Eagle and Condor prophecy, developed independently in North America, separately names this region as part of a foretold reunion between the peoples of the northern and southern continents.

Its Bolivian shore holds the Island of the Sun, Isla del Sol, considered by the Inca to be the literal birthplace of the sun — a pilgrimage site with continuous ceremonial use stretching back well over a thousand years, still actively visited by Andean practitioners today.

THE ORIENTATION

Its Place Among the Twelve

Among the Twelve, Titicaca is held as the Omnipotent Sun Disc, regulating the Western Hemisphere, and as the thirteenth Sun Disc's anchor — the Asula Sanctuary, one of only two places, with Giza, where Thoth is said to keep a physical Retreat.

This correspondence is named in the tradition this document draws on as the single strongest found among all Twelve — reinforced by Kryon's independent naming of Titicaca as one of only two predetermined planetary Null-point pairs, matched with Mount Kailash.

WHAT THIS GROUND OFFERS

Beginning With What a Body Needs

WATER & BREATH

The highest large navigable lake on Earth, and air thin enough at 3,812 metres that every breath here is felt consciously.

GROUND & SHELTER

Terraced Andean hillsides and the reed islands of the Uros people, built and rebuilt continuously atop the lake's own floating totora reeds.

FOOD & PROVISION

High-altitude agriculture — potato, quinoa — domesticated in this region and still central to Andean life, alongside fish drawn from the lake itself.

WORK & CRAFT

Textile and reed-boat craft among the Uros, Aymara, and Quechua peoples, carried forward across many centuries.

WHAT THIS GROUND OFFERS

Rising Toward What a Community Needs

KINSHIP & BELONGING

Held, in Andean tradition, as the very place from which the first Inca rulers emerged — a point of origin, not simply a location.

CHILDREN & LEARNING

The Eagle and Condor prophecy, still actively taught and discussed among indigenous communities across both American continents.

CULTURE & CEREMONY

Continuous ceremonial use of Isla del Sol for well over a thousand years, among the longest unbroken traditions associated with any Sanctuary in this field.

REST & RENEWAL

A stillness at extreme altitude — cold, clear, thin air over cold, clear, deep water — found at very few other places on Earth.

VISION & CALLING

Named, in the framework offered here, as the single strongest correspondence found among all Twelve Sun Discs.

The Strongest Correspondence Found

Multiple independently developed strands of material converge on Titicaca with unusual consistency: Nartoomid's naming of a thirteenth Sun Disc kept by Thoth here and at Giza alone; Kryon's naming of Titicaca as one of only two predetermined Null-point pairs on the entire planet; and the Hopi Eagle and Condor prophecy, developed entirely independently of either esoteric tradition, naming this same hemisphere's reunion. This document offers that convergence as itself the most significant finding among all Twelve Sanctuaries, without claiming to resolve what produces it.

The lake's own Andean cosmology — as the birthplace of the sun and of the first Inca rulers — stands as its own, independently verifiable cultural and historical fact, offered here as the ground beneath, and prior to, every later framework laid over it.

AN INVITATION, NOT A DEED

None of this replaces standing on the ground itself. A Sun Disc is not a monument and not a holiday stop — it is a place already at work, quietly, radiating outward into the land, the Satellites that will one day surround it, and the people who come looking.

Whatever draws you here — the birthplace of the sun in Andean tradition, or the strongest correspondence found among all Twelve Sanctuaries — the invitation is the same one this whole field of Sun Discs extends.

*Come see if it calls to you
the way it has called to everyone
who has ever stood here and felt something larger listening back.*
